

# The **SIGN** Catalogue

Your comprehensive signage directory

# Legislation and Guidance

The Health and Safety (Safety Signs and Signals) Regulations 1996 require employers to provide and maintain safety signs where there is significant risk to health and safety that has not been avoided or controlled by other means (e.g. safe systems of work) provided that the use of a sign can help reduce the risk.

Throughout this catalogue you will find guidance about;

- ▶ Risk assessment
- ▶ Use of pictorial symbols
- ▶ General health and safety signs
- ▶ Fire/emergency escape signs
- ▶ Positioning of signs
- ▶ Marking of hazardous storage areas and obstacles
- ▶ Dangerous locations
- ▶ Identification of pipelines

ISO 7010 is the International standard for safety signs.

ISO 7010 was developed to provide consistency in design across the EU. Stocksigns has incorporated the new designs and you may notice some design changes to the symbols whereas others are virtually unchanged.

The majority of British Standard symbols have been adopted by ISO and as such have now been encompassed into UK safety legislation.

## Use of Symbols and Graphical Images

The use of symbols and graphical images is a simple safety system used to convey safety messages at a glance. Colours and symbols, appropriately used, provide information and warnings of hazards which are essential to personal safety.

### Prohibition

A red circular band with diagonal cross bar on a white background, the symbol within the circle to be black denoting a safety sign that indicates that a certain behaviour is prohibited.

### Hazard

A yellow triangle with black border and symbol within the yellow area denoting a safety sign that gives warning of a hazard.

### Mandatory

A blue circle with white symbol denoting a sign that indicates that a specific course of action must be taken.

### Fire Equipment

A red rectangle or square with symbol in white denoting a safety sign that indicates the location of fire fighting equipment.

### Safe Condition

A green rectangle or square with symbol or text in white denoting a safety sign providing information about safe conditions.

## LOOK OUT FOR

**Best Sellers**  
The best selling signs and products.

**New**  
Signs and ranges new to this catalogue.

**Updated**  
Signs updated to the latest ISO 2018 symbols.

**Great Value**  
Products that represent excellent value for money.

## Stocksigns Accreditations and Associations

# Material Choices

## Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs.

*Series code - 10*

## Reflective Signs

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

*Series codes - Traffic 70, Safety 75*

## Rigid PVC Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners, no holes as standard.

*Series code - 20*

## Correx

A durable yet lightweight corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

*Bespoke material on request*

## Photoluminescent

*(Rigid Plastic and SA Vinyl)*

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with the PSPA, standard signs are produced on Class B, with Class C material available on request.

*Series codes - RP 21 / SAV 31*

## Foamex

A versatile PVC foam sheet with a smooth matt finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

*Bespoke material on request*

## Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

*Series code - 30*

## Acrylic

Acrylic is a versatile material that is both lightweight and shatterproof. Best suited to internal signs. This offers a cost effective and safe alternative to using glass. Available in 3, 5 and 10mm thicknesses.

*Bespoke material on request*

## Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal and external use.

*Series code - 11*

## Polycarbonate

Polycarbonate is a clear material used as an alternative to acrylic. A very versatile material with a gloss finish. Compared to acrylic it has a higher impact resistance, is more UV stable and temperature resistant.

*Bespoke material on request*

## Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

*Series code - 60*

## Special Effect

### Aluminium Composite

Available in both mirrored gold and brushed silver finish. These special effect finishes create a contemporary look when used on internal signage.

*Bespoke material on request*

## Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

For further advice speak to our sales team on 01737 774077.

Recommended installation heights:

**Above doors:**

2m - 2.5m  
from floor level to base of sign.

**Directional wall fixed signs:**

1.4m - 2.0m  
from floor level to base of sign.

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

e.g: **10** = Aluminium  
**20** = Rigid Plastic  
**30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

### How to Order

#### STEP 1

- ▶ Find the sign design you require.
- ▶ Note the product code.

#### STEP 2

- ▶ Choose the material you require.
- ▶ Use our material guide on the left to select the most suitable material for the job.

#### STEP 3

- ▶ Look at the sizes your sign is available in.
- ▶ Use the price grids for size codes.
- ▶ Choose the most appropriate size using the installation guide above.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

Prices can be found by using the grids at the bottom of the pages or in the price list enclosed. (Except where items are separately priced).

## Payment

- ▶ Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- ▶ Cheques should be made payable to Stocksigns Ltd.
- ▶ Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- ▶ BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.  
Account No. 23111244 Sort code 16-00-15  
**All prices are exclusive of Value Added Tax**
- ▶ Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk) or call 01737 774077 for a copy).

All rights reserved. All of this catalogue is protected by the Laws of Copyright. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise.

## RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you MUST use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at [info@stocksigns.co.uk](mailto:info@stocksigns.co.uk), to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

# Our Services

## Professional Site Survey

**At Stocksigns we pride ourselves on our experience across many industries. We've successfully managed projects from airports and quarries, to schools and commercial premises.**

We have experience with an extensive range of materials from vinyl graphics, through to large illuminated monoliths and everything in between.

If you are embarking on a project and need professional help and support, our site survey specialists are available to help. They can offer advice and expertise to ensure the wayfinding, health and safety and corporate branding in your workplace are legislation compliant and reflective of your company and brand.

## Installation

**Alongside our professional surveyors, Stocksigns have a dedicated team of fitters and installation experts.**

The team operate throughout the UK and over our long history we have experience of installing everything from single signs to managing large scale installation projects.

We recognise the importance of working safely on-site and Stocksigns are proud to be accredited members of the SafeContractor scheme. This accreditation demonstrates that we operate under recognised high health and safety standards.

In addition, all our installation crews are CSCS (Construction Skills Certification Scheme) certified, Asbestos Trained in line with UKATA, certified by UPAF standards to operate Mobile Evaluating Work Platforms and hold current First Aid certificates.

## Delivery Services

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

### Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

### Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

### Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

#### Standard Product Delivery Charges

- ▶ Orders under £20 (Depending on size and weight) - **£1.95**
- ▶ Orders up to £49.00 (Depending on size and weight) - **£6.75**
- ▶ Orders over £50.00 - **FREE**

#### Custom-made Signs Delivery Charges

- ▶ Orders less than 10kgs - **£7.50**
- ▶ Orders 10 - 20 kgs - **£13.50**
- ▶ Orders 20 - 50 kgs - **£25.00**
- ▶ Orders over 50kgs - **POA**

For **Premium Service** delivery rates, export, Scottish Highlands and off-shore locations, please contact our Sales Team on 01737 774077 for prices.

# LED Signs from Messagemaker Displays

## Full Colour Promotional Displays

Make simple content highly visible.

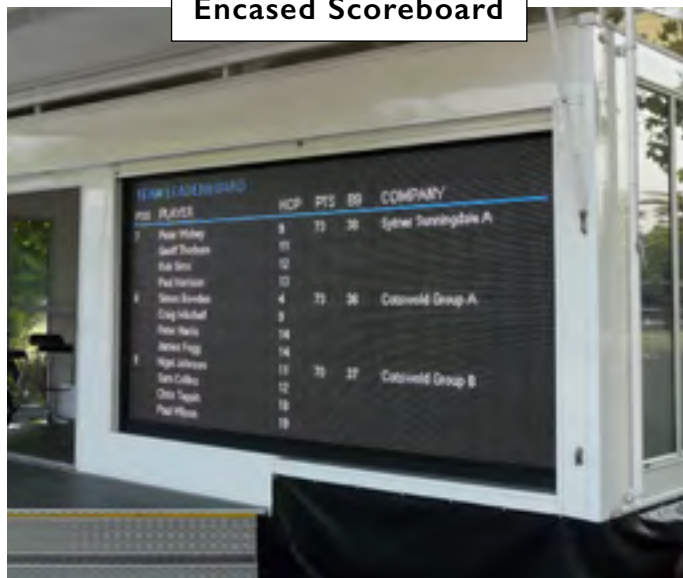

Continuous dynamic displays.

## Full Colour Large Screens

Create large scale high quality images.

## Encased Scoreboard

Display complex data clearly and efficiently.

## On-site Accident Boards

Display updated information in real time.

## Intergrated Single Line Messaging

Save money on temporary signage with easy to update displays.

# Directories and Directional

Due to our vast product range and our in-depth industry involvement, we can offer a variety of products to meet every need.

In this section you will find just a selection of the custom made signs we can produce. If you are uncertain which product/material to use, we can advise you on the most suitable for your needs. If you want to see how your ideas will look in practice, why not ask to see them in a visual format?

If you have your own design ideas, simply talk to the Sales Team, who will be happy to help.

## Directories and Wayfinding

Sign systems aim to make navigation around unfamiliar grounds and buildings as simple as possible. These signs are often the first point of contact a customer has with your company and first impressions count.

As well as the functionality of the sign, design and aesthetics should be considered.

Company names and logos need to be recognised at a glance and directional instructions should be instantly understood.

## Interchangeable Displays

Simple graphics and large clear fonts are ideal for ensuring easy navigation.

The use of matching colour themes and logos, ensures your signage system reflects your brand identity throughout.

### Factors to consider when choosing your customised Directories and Wayfinding systems:

- ▶ When planning your wayfinding scheme it is best to physically walk the route, obstructions such as trees and other signage are often not marked on flat plans.
- ▶ If possible get someone who is not familiar with the area to help. Their unfamiliarity will ensure your signs are placed in exactly the right places to make navigation easy.

Our site survey service becomes invaluable in these situations, call our Sales Team on 01737 774077 for more information.

## Monoliths

Bespoke designs can give a stylish edge without compromising clarity.

## Wayfinding

Clear directional signage.

## Finger Posts

Creating a nostalgic ambiance.

## Brand Consistency

By designing a complete suite of branded signs, a greater level of uniformity can be achieved.

## Hoarding Panels

Prominent hoarding panels help promote and sell forthcoming housing and commercial projects.

## Custom Shaped Signs

Custom shaped signs can emphasise your logo with impact.

## Lockable Display Systems

This system provides a large display area that can be updated regularly.

# Free-standing Monoliths

Free-standing monoliths are one of the best ways to increase your visibility. Coupled with good graphics, external monoliths are eye-catching and functional.

Monoliths are ideal for business parks, hospitals, shopping centres and forecourts. They are also suited to road side applications as they are easy to view at a distance.

Built from a range of materials, monoliths provide solid robust signs with maximum display areas, so a large amount of information can be displayed without compromising your design.

Mini Monolith

Monolith

Internal Totem

The stand-alone nature of monoliths and totems often make them more obvious than wall mounted signs.

Steel Framework Monolith

This Monolith has a steel framework mounted on a steel base plate. It also has internal tensioning bars to create the convex front and rear face and to add integrity and strength to the sign. The customer can then add their own finish around the base i.e. decorative stone work or block paving.

Sculptural Monolith

A strong structural framework with simple graphics create impact.

# Vitreous Enamel Signs

## Prestigious Signage using Vitreous Enamel

Stocksigns have an esteemed history of working with Vitreous Enamel (VE) and are proud to be one of the UK's leading suppliers of VE signs.

Vitreous Enamel involves the fusion of an image onto steel with a glass coating at a temperature of 800°C.

As well as providing a lustrous finish with vibrant colour, the benefits of a Vitreous Enamel sign include;

- ▶ **Durability**  
offering a signage life of up to 40 years
- ▶ **Fade Resistant**  
withstands weathering and environmental damage
- ▶ **Vandal Resistant**  
ensuring the sign is long lasting and low maintenance.
- ▶ **Fire Retardant**  
making signs suitable for use above and below ground.

The design options using Vitreous Enamel are endless.

# Cut-Out Letters

## Acrylic Applied Lettering

**Cut to shape and built up fabricated lettering provides an elegant and stylish signage solution.**

Individual profile cut letters and sign panels are manufactured from a wide selection of materials, such as stainless steel, aluminium, brass, acrylic and vinyl.

Whether laser cut or routed, the result is a three dimensional sign which can significantly enhance visual impact. Colour finishes can be matched to your own specific requirements.

## Roof Mounted Lettering

3D letters sitting proud above your premises will extend viewing distance while maintaining a prestigious look.

## Wall Mounted Lettering

Cut-out letters are an affordable way to add prestige to a signage scheme.

## Wall Mounted Lettering and Imagery

Cut-to-shape signs don't have to be restricted to lettering.

# Cut-Out Letters

## Powder Coated Lettering

The choice of font and colour can set the mood of any premises.

## Mirror Polished Stainless Steel

Mirrored lettering on a dark background delivers a prestigious appearance.

## Stylised Font

A stylised font, with rich purple backdrop together with clever lighting creates a stylish effect.

## Cut Out Acrylic Sign

A sophisticated logo and cut-out letters against a plain brick wall creates a cosmopolitan look.

## 3D Lettering

Cut-out lettering can be an effective medium where the fixing area is limited due to the building design.

## Shop Frontage

Simple lettering with an ornate building facade work well together

## Monoframe Sign

Mounting letters to a plinth, signage block or monolith immediately adds status.

## Coloured Acrylic

Bright primary colours add a sense of fun to a sign.

# Wayfinding, Reception and Managed Services

## Slat Systems

Stocksigns can offer a huge variety of internal signs in materials including metal, plastics, glass and layered effects.

Factors to consider when choosing your customised Internal directory or Wayfinding system:

- ▶ **Corporate values**  
What sort of image do you want to project?
- ▶ **Uniformity** Do you want the same look throughout the building?
- ▶ **Durability** Do your signs need to withstand a lot of wear and tear?
- ▶ **Flexibility** Does the information need to frequently change?

Choose a sign system with versatility, such as this Slatz system. This theme can be carried from desk top signs through to suspended signs and directories.

## Multi-Display

## Modern Design

Create a unique design reflecting your corporate environment.

A clever use of a monolith can provide a canvas for graphics and information.

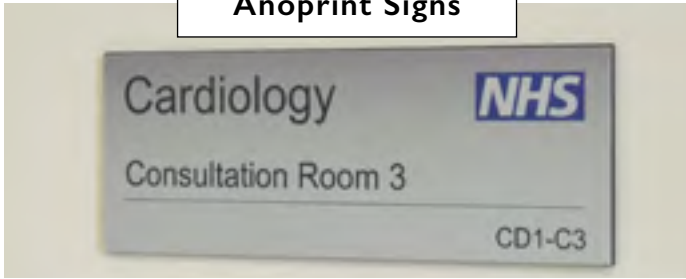

## Custom Shaped Sign

The addition of a subtle curve provides a modern finish.

# Wayfinding, Reception and Managed Services

## Anoprint Signs

Incorporating a company logo or corporate font ensures your brand is reflected throughout the building.

## Fixings

The clever use of fixings can turn an ordinary flat plate sign into a design feature.

## Door Slider

Door sliders are available in a variety of sizes, allowing for corporate branding to be applied. For more examples please see page 212.

## Flag Signs

Flag signs are highly visible from a distance and ideal for use in corridors.

## Projecting Signs

Create a friendlier appeal to your wayfinding signs.

Wall projecting signs can include interchangeable messages.

# Illuminated Signs and Displays

**Wayfinding and Directory signs are an essential part of interior design and the functionality of a building, used to inform and guide staff and visitors, making navigation as simple and as safe as possible.**

The larger the building, the more essential it becomes to create an efficient wayfinding system. Stocksigns' extensive project management experience ensures that maximum benefit can be generated from your wayfinding; which should be clear and simple, but also help strengthen your corporate identity.

From route planning, advising on styles, to complete installation we can guide you through the whole process.

## Light Boxes

Light boxes with clear fonts and symbols ensure clear navigation through transport hubs such as airports or stations.

## Panoramic Digital Prints

Digital print enables large scale images to be produced with dramatic effect. For example, this 10m x 3m image in situ at Gatwick Airport.

## Illuminated Lettered Sign

Completely illuminated letters have a high level impact.

## Raised Illuminated Sign

3D built up letters draw the eye to your premises.

# Illuminated Signs and Displays

Custom Illuminated Sign

## PROFESSIONAL SITE SURVEY

### Need help on your project?

Stocksigns can provide ideas, advice, technical help and free estimates.

Our professional site survey team have a wealth of experience in creating signage schemes for companies large and small.

Site surveys are available on request by calling 01737 774077

Different lighting schemes can produce dramatic eye catching effects.

3D Letters

Integrated lighting will generate contrast between lettering and base plates of similar material.

The use of bright vivid colour on a dark background creates a contemporary design.

Illuminated Lettering

Effective use of discreet lighting provides a contrasting signage solution that is highly visible throughout the day and evening.

# Glass Highlighting

Internal glass and glass effect as a display medium gives a contemporary edge to signage.

Modern materials such as acrylic and vinyl have extended the accessibility of these stylish signs by making them more affordable and versatile.

Engraving and the addition of illumination can further increase the light reflecting properties of glass effect signage, creating a wide range of eye-catching effects.

## Stylish Design

A minimalist design can create a stylish sign.

## Contemporary Design

By mounting graphics using stand-off locators, a modern 3D or floating illusion can be created.

## Legislation

Regulation 14 of the Workplace Regulations 1992 requires the marking of windows and doors to make them conspicuous.

### Factors to consider when choosing Glass effects:

- ▶ **What degree of privacy do you need from your frosted panel?**  
We have a range of inlays with different textures and different levels of transparency.
- ▶ **When designing your panel keep graphics simple.**  
Large bold graphics have more impact than complicated intricate designs.

## Feature Designs using Glass Highlighting

Easily applied glass highlighting designs turn a functional room divider into a feature.

## Glass Highlighting

This frosted vinyl at Benenden hospital creates a modesty screen for patients, whilst incorporating hospital branding.

## Corporate Glass Highlighting

By not using a conventional door name plate, this door sign has become part of a stylish interior design scheme.

### PROFESSIONAL SITE SURVEY

#### Need help on your project?

Stocksigns can provide ideas, advice, technical help and free estimates.

Our professional site survey team have a wealth of experience in creating signage schemes for companies large and small.

Site surveys are available on request by calling 01737 774077

# Flags, Banners and Point of Sale

## Crest, Feather and Teardrop Flags

Good use of shape and colour, together with an interesting logo creates an eye-catching promotion tool.

### Factors to think about when choosing your flagpole:

- ▶ Your location
- ▶ Height of pole
- ▶ Foundation
- ▶ Wind speeds
- ▶ Security
- ▶ Spacing

Your flag size will dictate how near you will need to be from the nearest object. Allow plenty of space, particularly if you want to fly a larger flag at a later date. Consideration to the location to trees and foliage should be given.

We can supply flags, flagpoles and event branding offering an all-round service from quote to installation.

## Hand sewn

High quality flags with a superior finish.

## Digital Printed

No limitations when it comes to size, detail and depth of colour.

## Ground Mounted

Heavier duty poles for permanent use.

## High Visibility

The height of flags ensures your logo is seen from a distance.

## Angled Flagpoles

Glass fibre flagpoles available as standard and extra heavy duty.

## Banner Poles

Equally useful for permanent and temporary attractions.

## Premium Poles

Can incorporate 3D symbols as part of the banner pole design.

## Promotional

Cost effective flagpoles for short or medium term use.

# Flags, Banners and Point of Sale

## Display Banners

Weighted display banners suitable for outdoor use.

## Cafe Banners

A premium quality, flexible banner system for indoor and outdoor use.

Wind Dancer Outdoor Flags.

Traditional roller banners available.

## Pop-up Banners

Instant self assembly pop-up system.

## Banners and Frames

Promotional banners are a cost effective way of displaying short term events, achievements and sales offers.

# Digital Print

## Stretched Fabric Lightboxes and Framed Prints

Also available in standard framed prints.

Encased in a lightweight aluminium frame, illuminated lightboxes using stretch fabric provide an eye-catching display in any setting.

## Display Prints

**Digital printing is a versatile and contemporary medium.**

It allows us to print high resolution designs onto a wide variety of materials, which can be backlit for exhibition stands, banners, mesh wraps and paper.

Create the right atmosphere with vibrant graphics.

## Exhibition Displays

## Simple Graphics

Make your offices a walk-in brochure.

## Digital Wallpaper Graphics

## Light Box

A full height digital print will add drama and energy to any room.
