

# THE GATE CLOSER SPECIALISTS

## Easy Field Gate Closer Fitting Kit

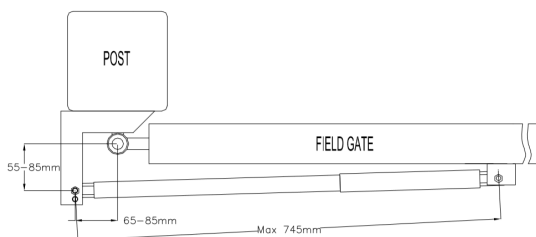

Bracket Kit for Behind Post Hinge Arrangements  
Suitable for use with Easy and Easy Plus Gate

With this bracket kit, both Easy and Easy Plus gate closers can be fitted to field or driveway gates with behind post hinge arrangements (for gate closer information please refer to Easy and Easy Plus gate closer information, which is available from [www.gatecontrolgear.com](http://www.gatecontrolgear.com))

This bracket kit is intended for use with 1.0m to 3.6m wide field or driveway gates with a behind post hinge arrangement and is not required when fitting an Easy or Easy Plus gate closer to field or driveway with an in-line hinge arrangement.

When using 3.0 and 3.6m wide gates, we recommend using the Easy 600 Plus gate closer with hydraulically adjustable closing speed.

- Made from zinc plated steel
- Maximum opening angle is 90 degrees
- Maximum gate width is 3.6m (100kg)
- Kit includes screw for fitting to timber gates.

INNOVATIVE & RELIABLE  
GATE PRODUCTS
