## SBD, LPCB & CPNI

### Perimeter Protection Solutions

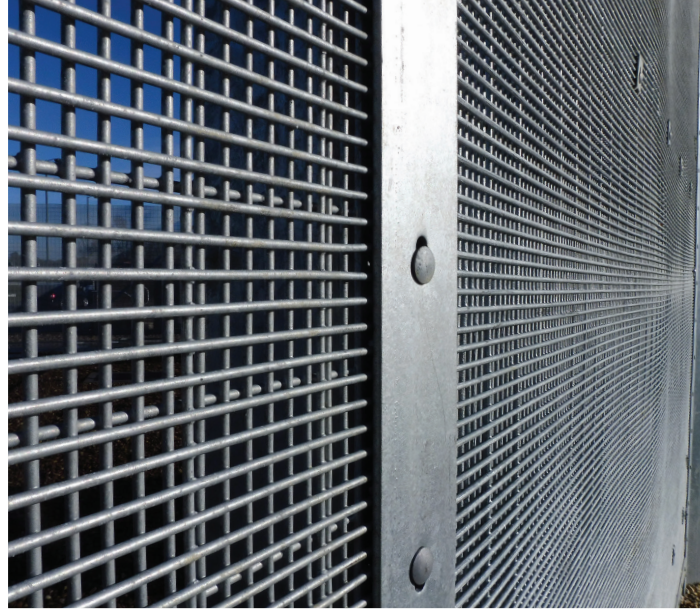

# LPCB Approved Systems

## Securifor® 'Double Skinned' – SR2

Developed for applications where maximum security is essential. Combining 2 panels of Securifor® 358 using a unique fusion welding process and Hot Dipped Galvanised finish, this ultimate security panel gives long lasting, major resistance to attack. Tried and tested throughout the UK across many of the most security sensitive and critical national sites (including nuclear, infrastructure and military).

## Securifor® 358 – SR1

Securifor® 358 is renowned for its performance as an anti-climb and anti-cut through barrier, whilst providing the lowest level of visual impact to the surroundings.

# CPNI Approved Sys

## Securifor® 358 DS Range

Developed in partnership with O'Connor Fencing Limited, the Securifor® 358 range of fencing systems uses Betafence's unique Securifor® Double skin panels.

*Systems you can trust,  
quality that lasts*

our industry. Our range of LPCB, Secured by Design and CPNI  
 aesthetic solution for your project. From education, retail and  
 y solutions to meet the needs of even the most challenging project.

### Securifor® 2D – SR1

Uniquely developed to combine very high rigidity and security with an aesthetic design. Installed and trusted worldwide, across sensitive boarder sites and major industry.

### Securifor® 4D – SR1

The heavy weldmesh panel combines front and back alternating wires providing excellent rigidity for high security environments, with the unique capability to integrate infill strips for privacy or advertising purposes.

### Securifor® Super 6 – SR1

Secure and discreet panels offer enhanced anti-cut performance using 6mm vertical wires. Excellent through visibility offers unobstructed views for camera surveillance.
