## SUPPLYING TWO-WAY RADIO SERVICES THROUGHOUT SOUTHERN ENGLAND AND BEYOND, FOR OVER 30 YEARS.

Dealing with all aspects of radio-communications from the troubleshooting of poor performing systems, right through to supplying and servicing of Air, Marine, & Land radio-communications products & accessories. For more details visit our website, or email us with your specific requirements, or just for genuine advice.

**HANDHELDS, MOBILES, BASE STATIONS, REPEATERS, WITH ON-SITE OR UK WIDE COVERAGES AVAILABLE.**

### WATERPROOF RADIOS –

Completely waterproof & dust-tight to IP67 and 11 categories of MIL-STD-810 (can withstand 1m depth of water for 30 minutes). The dust-tight construction helps protect from powder, dust, sand, mud and other particulates. Ideal for indoor & outdoor uses; construction sites, farms, estates, zoo's, holiday parks, harbours, ports, building complexes... VHF, UHF, analogue & digital versions.

### DIGITAL –

With digital radios, the usable range is greater and digital speech processing means it is excellent for distinguishing human speech in noisy environments.

### FEATURES –

Can include: Caller ID, Emergency Button, Lone Worker, Man-down.

### TWO-WAY RADIO HIRE –

Only need short term use, for an event, a season, or just want to spread the cash flow? Then why not consider hiring. Whatever your requirements, analogue, digital, VHF, UHF, Loudhailers, or even not sure, then email or call us via the details below. We are happy to help.

### SUPPORT SERVICES –

We provide support for most professional two-way radio systems. Call us today about Installation, Repairs, Accessories, Troubleshooting, Programming, Ofcom Licensing, De-commissioning or just plain simple advice.
