Guardian Range

The Guardian locker is available in two popular depths - 300mm or 450mm, with a choice of 1, 2, 3, 4 or 6 doors.

Attractive light grey steel body with matching light grey, bright blue or red doors.

Available in two popular depths: 300mm or 450mm.

- Super strong and durable, reinforced internal 4 way frame, with full height & corner stiffeners on all doors.
- Screw together construction means there are no weak points between riveted sections.
- Supplied with either key lock or padlockable swivel catch as standard - other options available.
- Pre drilled nesting holes for quick and easy installation.
- Louvred doors for ventilation (except 6 door version)
- 1 door and 2 door locker comes with coat rail and 2 hooks (per compartment)
- Anti-bacterial paint finish
- Inset section for number plates (58mm x 28mm)

Standard sizes

We have a wide range of standard locker sizes available. They're all 1800mm but we do have height options of 943mm and 1372mm.

RAL
5017

RAL
7035

RAL
3020

All lockers have a grey body and a choice of blue, grey or red doors.

Lockers that are 300mm wide also have additional options of green and yellow.

RAL
1003

The single door and 2 door lockers are very popular changing room or staff lockers at an incredible price.

The 1 door locker comes with a convenient hat shelf for storing small personal items, and both come with a removable hanging rail and 2 hooks per compartment.

Guardian School Lockers

The 3 and 4 door guardian lockers are perfect for many settings including education, providing reasonably sized secure personal storage (without garment hanging).

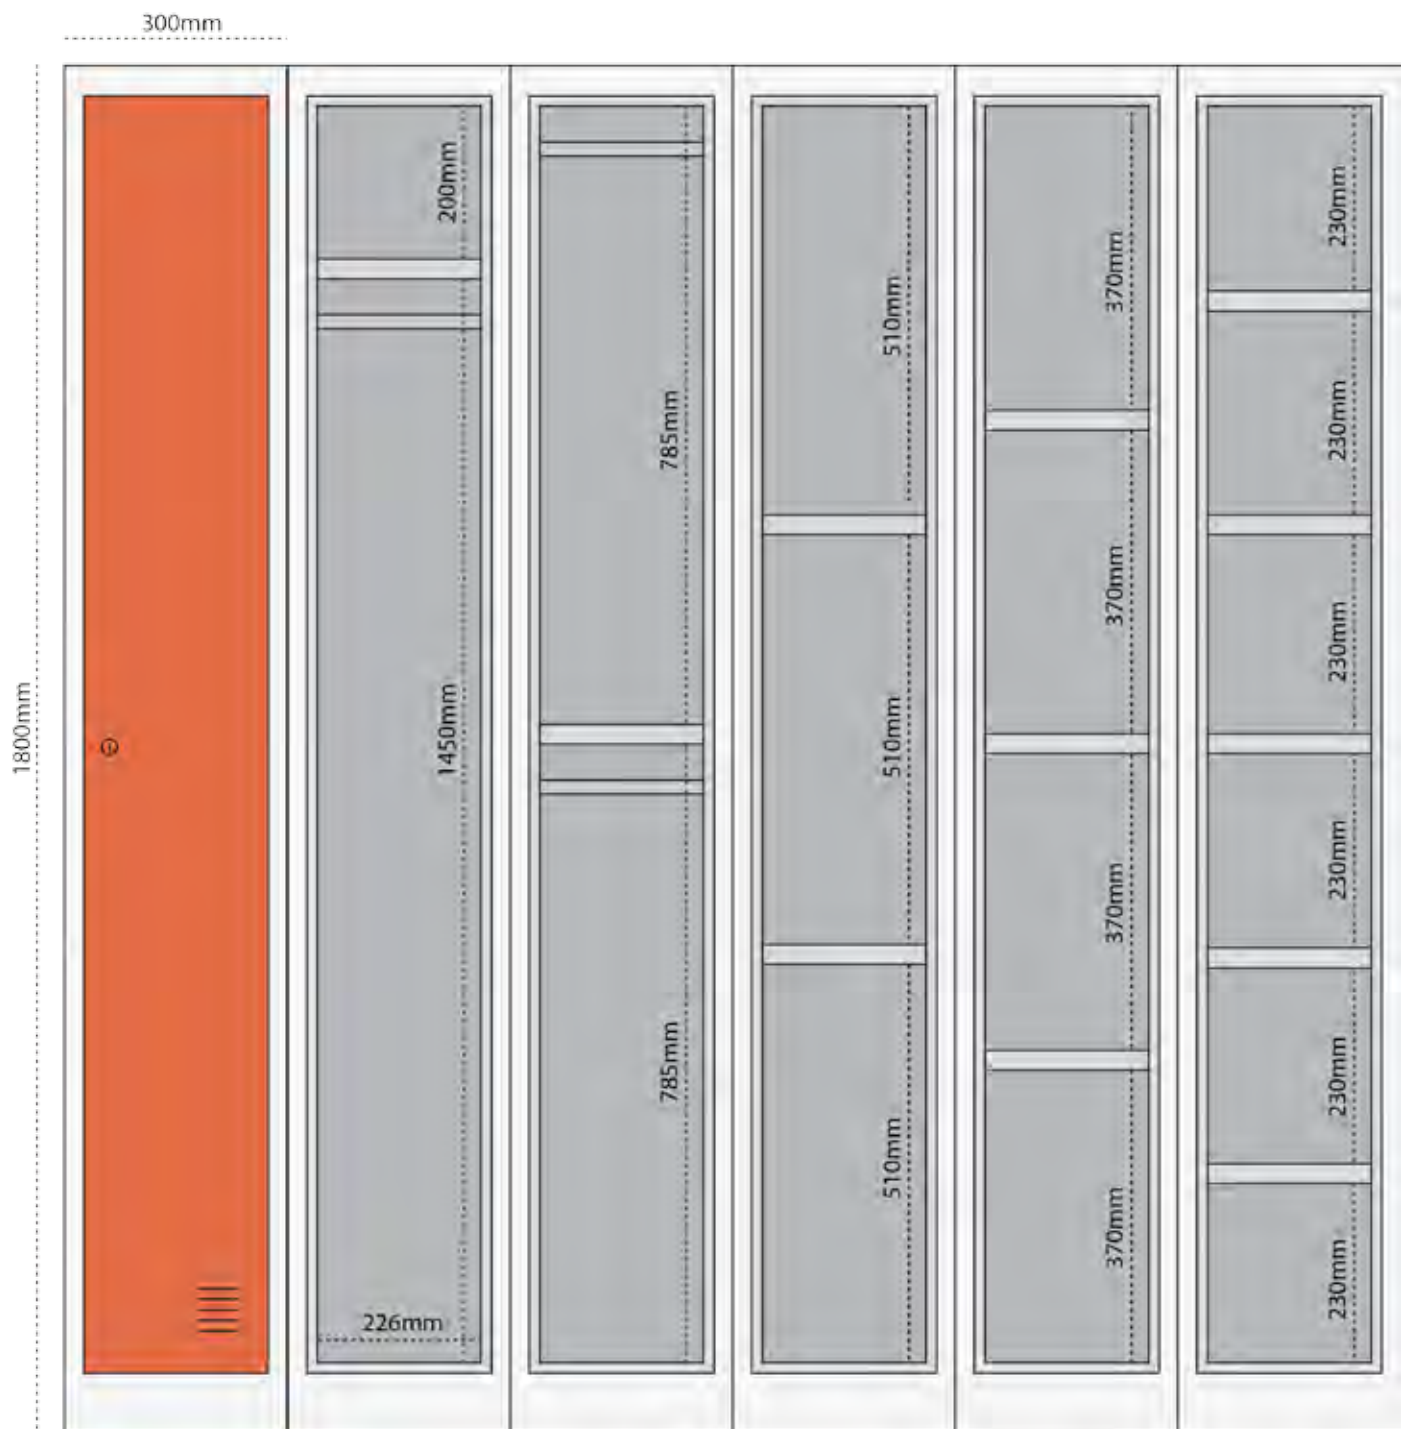

Guardian 6 Door Locker

The six door steel locker is perfect for personal effects, and a very popular staff locker in large industrial and commercial settings.

Note: the 6 door locker does not have louvred ventilation panels.

Guardian Locker Dimensions

Available in 2 depths - 300mm or 450mm

Interior dimensions shown above detail the size of the door opening, the actual internal space will be larger.

Custom sizes can be manufactured to order subject to minimum order quantity.

Unique Features

Why choose Guardian steel lockers?

Super Tough

The Guardian lockers all have **corner stiffeners** to reinforce every corner of every door.

Behind every door is a **four way frame**, making it impossible to push the door into the compartment.

Standard locker with the door stop on only 1 side.

The four way frame is unique to the Guardian range.

Quick change doors

No matter how tough the lockers are doors will get damaged.

On a normal locker the process for changing a door is: drill out the hinge rivets and rivet the new door.

Our Guardian range has a special quick change door system which uses a locating pin.

Doors can be changed quickly and easily with nothing more than a soft mallet.

Lock Types

Key lock or swivel catch as standard

Swivel Catch

The swivel catch acts a handle and can be easily padlocked with a standard or combination padlock.

The shackle bar of the padlock should be between 5 - 7mm.

Key lock

The key / cam lock comes with two keys and has 4000 differs. Our unique extra thick Guardian key minimises the risk of snapping.

Master keys are available to enable an authorised person access to all compartments if required.

Management keys simplify key management - no more keeping lists of key numbers and re-ordering keys, simply use the management key to replace the whole barrel.

Guardian Locker Accessories

Specifically designed for the Guardian range

Sloping tops

150mm high sloping tops to prevent the accumulation of litter and other items.

Available in both 300mm and 450mm depths.

Locker stands

Ideal for locker areas where floors need frequent cleaning.

25mm steel square tube

Adjustable levelling feet

Height 170mm to 185mm

Available to suit 2 and 3 locker nests in both 300mm and 450mm depths

Padlocks - both combination and keyed

Number plates - hardwearing plastic labels which are securely fastened to the doors before despatch; available in many bright & attractive colours.

The Guardian Range

Guardian Storage Cupboards

Based on the same superior construction as the Guardian locker range.

Tough steel bodies with a hard wearing anti-bacterial powder coating (RAL 7035).

Concealed hinges for snag free easy cleaning.

Strong & durable - Guardian doors have a vertical reinforcement and lock mechanism cover.

Shelves are quickly & easily adjustable.

Secure 3 point espagnolette lock with 2 keys.
