

## Warrior 2 Horizontal Bike Locker

### A Horizontal Cycle Locker designed to hold 2 bikes.

Can be stacked to make most efficient use of available floor space. Delivered fully assembled ready to be fixed to the ground. Warrior has achieved Sold Secure Bicycle Diamond Standard - the highest accolade set for cycle storage. This is widely recognised within the insurance industry and approved by Secured by Design as a Police Preferred Specification.

### CONSTRUCTION

Warrior Cycle Lockers are made of quality galvanised steel and constructed in Devon. Strengthening gussets, channel section and anti-jemmy plates are included to reinforce the structure. These lockers are suitable for outdoor or indoor use, with the stacked option working well in basement areas and providing a better use of space and more flexibility than 2-tier bike stands. To reduce the environmental impact, the lockers have an unpainted self-coloured galvanised finish.

### INTERIOR USE

The addition of a Pyroplex Safex Fire Seal is strongly recommended for Warrior 2 Horizontal Bike Lockers Warriors used within a building and can be fitted as an optional extra.

## Warrior 2 Horizontal Bike Locker

### DOOR OPENING

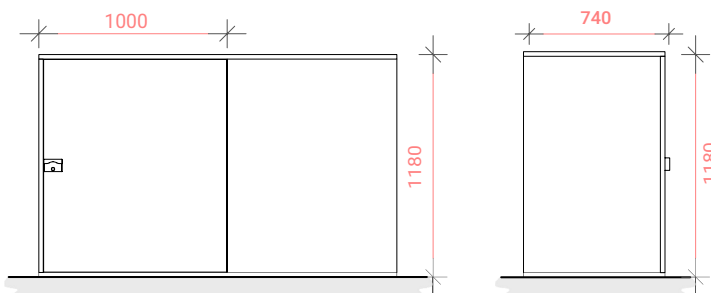

Doors are hinged in the centre and can be requested to open either to the left or the right (allowing locker to be slotted at right angles into a corner).

**Lock** - Door secured using patented lock design constructed from a 6mm steel plate. Keyhole housing of the Sterling anti-drill padlock (supplied with 2 keys) and lock mechanism of cabinet are further strengthened by hardened steel plates. Plus, a feature unique to Warrior, doors are fitted with hinges and locking points that 'grab' the sides of the locker. This makes levering open next to impossible.

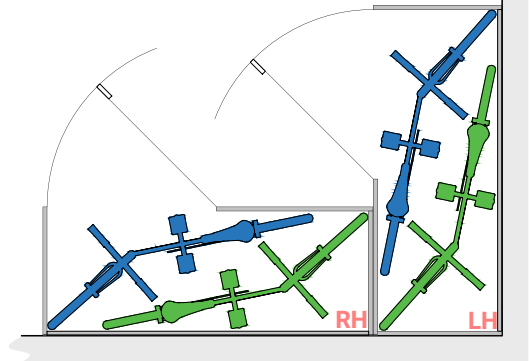

### FIXINGS

The lockers are supplied with 4 anchor bolts designed to be used on a flat concrete base. The locker must not lean forward, although a small slope backwards can be beneficial. Tools required - 8mm masonry drill and 15mm socket drive.

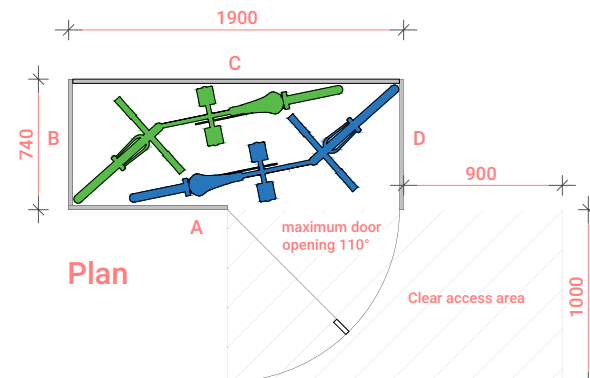

Dimensions	Weight of Unit
1900mm Wide	125KG
740mm Deep	
1180mm High	

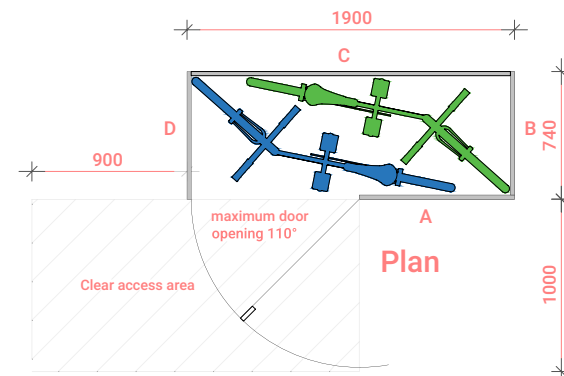

Two Warriors used in the corner of a basement turn potentially wasted space into excellent bike storage facility

Warrior 2 Right Handed Horizontal Bike Locker

Warrior 2 Left Handed Horizontal Bike Locker
