COVID-19

Identification and safety solutions

Dear customers & followers,

At Brady, we are closely monitoring the impact of COVID-19 (corona virus) and we have successfully implemented countermeasures to stay operational and ensure business continuity in a safe way, and in full compliance with government regulations. At this point, we continue our production, are able to take your orders, and we are doing everything we can to ensure timely deliveries. We aim to continue to respond to your identification and safety needs for your people, products and premises.

Safety Identification

A visual way of communicating safety information, which minimises the risk of an accident.

W001 : WARNING; GENERAL SIGN

The W001 danger symbol is the most basic and general. For this reason, it is essential to position it with a legend clarifying the danger. It is advisable to indicate a danger, the action to avoid and the appropriate means of protection around a machine.

SIGNS

PIC 900 : No smoking of electronic cigarettes

With the appearance of electronic cigarettes, it has been necessary to clarify the places where they are prohibited or authorised, to avoid any confusion. For information, the texts of interior laws and regulations generally prohibit smoking, without defining the nature of this smoking. This ban therefore applies to tobacco cigarettes and to electronic cigarettes.

M024 : Use THIS WALKWAY

To enable people to work in proximity to machines, restricted areas and passages are recommended. The pedestrian area will then be indicated by this sign, and the non-pedestrian by the sign P004. Floor markings restricting these areas will generally complete this signage.

CHEMICAL ABSORBENT FAMILY:

All of these pads and rolls start with a highly absorbent polypropylene core - the difference is what happens from there. Features such as durability, absorbency grades and coverstock give you versatile absorbent options for your specific application.

	Applications	Durability	Linting	Absorbency Grades	Construction
High Visibility Safety & Chemical Mat Page 28	Applications with higher risk of slips, trips and falls. Foot traffic areas.	✓✓✓	Low Linting	Medium Weight	 3-PLY Spunbound - Meltblown - Meltblown coverstock, dimpled and perforated
Universal® Plus Pads, Rolls & Booms Page 29	For industrial applications where greater durability is needed with hazardous chemicals	✓✓	Medium Linting	Medium Weight	 2-PLY Meltblown + spunbound on 1 side, dimpled and (optional) perforated
Hazwik Socs & Pillows Page 30	To prevent spills from spreading, to absorb spills & leaks liquids in tight spaces				

Increase Safety and Save: Colour Coded Waste Stream

Save on disposal costs by using different coloured absorbents in specific parts of your facility and throughout your waste streams.

For example: a facility might use yellow absorbents in radioactive areas and green absorbents in their chlorine areas. Then the facility would use grey universal absorbents for the rest of their facility. A colour coded system benefits your employees' understanding of the waste stream because they will assume yellow absorbents are saturated with radioactive waste and green absorbents are saturated with chlorine.

HIGH VISIBILITY SAFETY & CHEMICAL MAT

- Sign and absorbent all in one.
- High visibility, safety mat for all purpose fluid pick-up and hazardous chemical.
- Colour-coded yellow for safety and easy separation of hazardous waste
- 3-ply construction (Spunbound, Meltblown and Meltblown coverstock)
- Product will not react with aggressive fluids

Order Reference	Article No.	Description	Perforated	Total Qty/Pack	Absorption Capacity (Ltrs)
Pad					
CH100	107688	High visibility safety mat, 38 cm x 48 cm		100 Pad(s) / Box	110
CH200	134818	High visibility safety mat, 38 cm x 48 cm		200 Pad(s) / Box	144
Roll					
CH15P	107690	Safety mat, 38 cm x 46 m, medium weight, perforated & bonded	Every 46 cm	1 Roll(s) / Bag	73
CH30DP	107691	Safety mat, 76 cm x 46 m, medium weight, double perforated & bonded	Every 38 cm and up centre of roll	1 Roll(s) / Bag	147
CH303	134360	High visibility safety mat, 76 cm x 92 m, medium weight, double perforated & bonded	Every 38 cm and up centre of roll	1 Roll(s) / Bag	243

RECOMMENDED APPLICATIONS

- For use where hazardous chemicals and acids are involved
- Nuclear power facilities
- Chemical spill response units
- Laboratories and hospitals
- Any industrial application utilising aggressive fluids
- Foot traffic areas or where extra durability is needed

UN PADS & ROLLS -

FOR USE WHEN CHEMICALS AND HAZARDOUS LIQUIDS ARE INVOLVED!

- Absorb a wide range of chemicals, including acids and caustics.
- One-sided spunbond gives extra strength as well as lower lint.
- Chemically inert: product does not degrade or cause a dangerous chemical reaction with the adsorbed liquid.
- Green colour alerts workers that product is being used for hazardous liquids.
- Green colour also allows the user to identify and separate hazardous waste for disposal, resulting in lower disposal costs.
- Perforated for flexibility – tear at the perforations for smaller sized pads to use only what you need.

2-PLY
Meltblown + spunbound on
1 side, dimpled and
(optional) perforated

Perfect to clean up chemical spills...

... or for use in laboratories.

HANDYSORB MOP - EASILY MOP INDUSTRIAL SPILLS

HandySorb is a unique and practical tool to safely remove spills in a highly efficient and easy way.

- Safe spill clean-up: works with inert pads or pillows that can be replaced without ever touching the absorbed fluids
- Easy to use: offers 1.83 metre reach when fully extended and features a no touch snap-on system for pads
- Highly efficient: each pad absorbs in seconds up to 25 times its weight

Order Reference	Article No.	Description	Total Qty/Pack	Absorption Capacity (Ltrs)
150597	150597	HandySorb Mop System Basic Universal Pad Refills with Mop Adapter	100 Pad(s) / Kit	47

SPILLFIX GRANULAR - QUICKLY ABSORB ANY SPILL ON ANY SURFACE

Quickly remove spills from uneven or porous surfaces with a granular that does not generate cancerous silica dust.

- Quickly absorb any liquid.
- Does not release cancerous silica dust.
- Lightweight product with a microsponge honeycomb structure.
- 2.8 kg of SpillFix can absorb the same spill volume as 22.5 kg of clay based granular.
- Does not leave any slick residue behind.

Order Reference	Article No.	Description	Total Qty/Pack	Absorption Capacity (Ltrs)
149060	149060	SpillFix Granular: 50 Ltr Bag, pallet of 48 each	48 Piece(s) / Pallet	26

ACID SPILL KIT, BASE SPILL KIT AND BATTERY ACID SPILL KIT

SAFELY REMOVE ACID, BASE AND BATTERY ACID SPILLS

The Acid Spill Kit, Base Spill Kit and Battery Acid Spill Kit each contain a selection of solutions that enable users to combat small to medium spills:

- highly absorbing pads to wipe down equipment and remove spills
- SOC's to prevent spills from spreading on the workfloor
- neutralising polymers to neutralise acids and bases
- gloves and glasses to protect employees
- a waste disposal bag to contain all used equipment

Also included in each spill kit are practical, visual instructions for optimal product use.

Order Reference	Article No.	Description	Quantity	Absorption Capacity (Ltrs)
241135	241135	Battery Acid Specialty Spill Kit	1 Kit	20
241138	241138	Acid Neutralising Chemical Specialty Spill Kit	1 Kit	17
241139	241139	Base Neutralising Chemical Specialty Spill Kit	1 Kit	17

ORDERING SPILL KIT REFILLS

Please contact customer services to order Spill Kit refills. Contact details are listed on the catalogue back cover.

PORTABLE SPILL KITS - FOR FAST RESPONSE TO SMALL SPILLS.

ECONOMY SPILL KIT

- Yellow PVC bag with handles for high visibility.
- Compact size: Easy to put in small storage area, behind or under the seat of a truck.
- Ideal for carriers who occasionally transport small quantities of liquids.
- Water-resistant, lightweight bag keeps sorbents dry.

Kit contains: 10 pads (41 cm x 51 cm), 2 socs (Ø 7.6 cm x 122 cm), 1 pair of gloves and 1 disposal bag.

ORDERING SPILL KIT REFILLS

Please contact customer services to order Spill Kit refills. Contact details are listed on the catalogue back cover.

SPC SPILL BOX - PADS IN A CONVENIENT DISPENSER BOX ALLOWING YOU TO CREATE MULTIPLE SPILL STATIONS AROUND YOUR SITE!

- Reusable plastic box can be refilled once all the sorbents have been used.
- The Spill Box is light enough to be hanged to laboratory and storage area walls or to be attached to a forklift.
- The bright yellow colour stands out for quick identification and use.
- Various application areas: in liquid storage areas, behind the seat of a truck, lab environments, in workstations that deal with liquids.

Use nearby your liquid storage area.

SPILL CONTROL

Watch our Brady Spillbarrier and Slikstopper in action on <https://youtu.be/w4hifGZQOY8>

SPC SPILL BARRIER - DESIGNED TO CONTAIN OR DIVERT SPILLS EASILY AND QUICKLY!

- Easy to connect multiple barriers. No additional connectors needed.
- Ideal as a barrier in doorways during washdown operations, as a dam to control or contain spilled liquids or as a diverter to direct liquids away from valuable equipment or vulnerable areas.
- Yellow colour for high visibility.
- Chemical resistant: polyurethane resists water, oil and many chemicals.
- Re-usable after cleaning with soap and water.
- Works best on smooth surfaces.

Order Reference	Article No.	Description	Quantity
SB-3	813921	SPILL BARRIER, 3 m (L) x 10.5 cm (W) x 5.5 cm (H)	1
BAG-PU-L	813925	BAG for SB3, PU90 & PU110 Ø 25 cm x 130 cm	1

Keeps spills from entering drains.

SENTRY MAKE-A-BERM - THE IDEAL WAY TO CONTAIN LEAK PRONE EQUIPMENT AND/OR PROTECT BUSY WALKWAYS.

- Pliable construction (foam filled) - will spring back into shape, even if you drive over it with a forklift.
- User-friendly: Make a barrier any size or shape you want.
- Durable vinyl material resists oils, coolants and most chemicals.
- Easy to install.
- Yellow colour for high visibility.
- Cost savings: No need to build expensive cement curbs or to install metal barriers.

Order Reference	Article No.	Description	Quantity

Toughstripe floor marking tape

Removable area marking tape

ToughStripe is the ideal floor marking tape in a lean environment where the regular application and replacement of floor marking is crucial.

- Superior durability
- Easy application
- High visibility
- Die-Cut shapes
- Painless Removal

Barricade tapes

Visual barricading provides fast on-the-spot warning of potential dangers.

The non-adhesive tape can be used for temporary outdoor or permanent indoor applications. This tape can be tied, stapled or nailed to posts, fences or metal barricades.

- Material: Polyethylene
- Thickness: 0.075 mm
- Size: 75.00 mm x 250 m
- Packaging: 1 roll

Article No.	Legend	Article No.	Legend
256654		256858	
256660		256860	

- Thickness: 0.03
- Size: 75.00 mm x 500.00 m

Article No.	Colour
-------------	--------

Custom products available on request:

- Standard dimensions: 50mm x 250m and 75mm x 250m
- Background colours: Green, Orange, Red, Yellow, Blue, White
- Print of text and/or logo
- From 24 rolls

Underground warning tape

Underground tape is buried 30 to 45 cm below ground level. Digging crews receive warning of buried lines and cables, allowing a margin of safety between the tape and the buried line.

- Available in 2 versions: detectable and undetectable
- Easily Seen
- Easily Identified - by means of colour coding
- Convenient - Handy dispensing reel
- Strong - Heavy duty polyethylene material resists acid, alkalis and other soil substances.
- Long Lasting - Coated graphics provide long lasting legibility and hold colour values
- Economical - Compared to the potential cost of line damage, this tape is cost-effective for use over the entire length of the line
- Standard dimensions: 75mm x 250m and 150mm x 250m
- Minimum order quantity: 50 rolls of 75mm x 250m or 25 rolls of 150mm x 250m
- Black print on any background colour

Warning posts

Ideal for controlling and directing foot traffic. Suitable for warehouses, factories, offices, etc.

Chains and ribbons can be attached to the sturdy 90 cm high posts. The posts are available in one-colour or two-colour versions (stripes of 10 cm wide).

- Material: polyethylene
- Non-conductive: the posts can be used for barricading electrically hazardous installations
- Built-in ultraviolet inhibitors: block out ultraviolet rays to prevent colours from fading
- Colours: they stay bright and eye-catching, even after years of use
- Sizes: height: 900.00 mm, outside diameter: 40.00 mm

BradyLink® warning post & chain

Barricade potentially hazardous areas indoors or outdoors with portable plastic posts and chains. Their lightweight yet tough construction stands up to years of use in temporary or permanent applications.

The components of the posts and chains are made of polyethylene with the following features:

- Built-in Ultraviolet Inhibitors: Screen out the sun's rays to prevent colours from fading during outdoor use
- Light-weight: chain is lighter than similar metal parts – chain weights 2.7 kg per 25 metres
- Non-rusting: Unlike metal posts and chain BradyLink, plastic parts cannot rust
- Fillable Base: Hollow base can be filled with water or sand for more stable application
- C-hook: Large C-hook holds chain in place. Use open, or closed for greater security

Brady warning posts

- Post Diameter: 75.00 mm
- Base Diameter: 400.00 mm
- Height: 1040.00 mm

Heavy duty floor stands & Economy floor stands

Heavy duty floor stands

Easily transportable, these stands are very useful to carry with and clearly indicate substantial dangers such as slippery zones. They are ideal for hospitals or public halls for example.

- Heavy duty yellow high density polypropylene
- Height (closed): 660.00 mm
- Maintenance free : will not dent or corrode
- Large message area is visible from over 9 metres
- Available with a range of standard messages or as a blank stand

BBP 35 MULTICOLOUR SIGN & LABEL PRINTER

BBP 37 MULTICOLOUR & CUT SIGN & LABEL PRINTER

Brady's sign and label printers give you the power to make signs and labels in the colours and shapes you need to make an impact – right at your own facility and right when you need them. With remarkable multicolour printing, versatile shape-cutting capabilities and impressively fast print speeds, you won't remember how you lived without one of these printers.

Multiple print colours

- Print signs and labels that are more noticeable, more memorable and more effective
- Colour is the differentiator when you need to effectively improve workplace safety and productivity

Shape cutting

- Revolutionary built-in XY plotter-cutter system in the BBP37 printer (cuts - only selected 4" materials)
- Cut shapes around your messages text and create labels designed to fit your exact specifications

Label making made easy

- Intuitive built-in features offer ease of use so anyone can walk up and print labels
- Ideal for multiple users, centralised locations and lean/5S events
- Compatible with powerful Brady Workstation Label Apps and Facility Identification Software for added versatility

Printer comparison guide can be found on **pages 6 & 7**

Automatic label setup

- Printers read critical information from the supply cartridge and then automatically set it up so you can start printing immediately
- No more calibration or wasted labels, no print speed/burn temperature trial labels, no scrolling through screens to select a label and no wasted time setting up label dimensions or text size

20-second material changeovers

- "Drop in" ribbons and labels mean no complicated threading, assembling spindles, sensor adjustment or calibration steps
- You can get on with the job faster, giving you more time for other tasks
- Fast processing time and print speed means you don't have to wait around for your labels

The Basic Suite is included with every printer, download it: Workstation.BradyID.com/Free

Create custom signs, labels and pipemarkers with WorkStation.BradyID.com/SFID

BBP85 SIGN & LABEL PRINTER

The BBP™85 Sign and Label Printer allows you to create 254 mm wide labels in multiple colours, and it has an easier-than-ever interface that anyone on your team can use! No more complex, tedious design steps. No more ordering and waiting. Now you can just walk up and print... and instantly create high quality, multi-coloured visuals up to 254 mm wide.

Big output. Little fuss.

Create extra-large custom signs and labels right now! This printer has our fastest, easiest operating system, so anyone on your team can design visuals with little to no training. The ideal printer for multi-user Lean, 5S and Kaizen Labelling events!

Bold multi-colour printing.

Get your message noticed with strong, colourful visuals. Print up to 4 colours on a single label for professional-looking, custom-made signs, labels and warnings that demand attention.

- Unmistakably large visuals up to 254 mm wide
- Just walk up and print...it really is that easy!
- Simple touch-screen interface for stand-alone use, or print from your PC with MarkWare™ Software
- Timesaving label design apps to create pipe markers, safety signs, right-to-know labels and more!
- USB port for importing files, fonts and graphics

- Highly durable multi-colour thermal transfer printing
- Print common sign formats even faster using pre-printed sign header supplies
- Add more label creation flexibility with Brady Workstation signs creation apps
- Ethernet port for easy printer networking

Multi-colour signs

Reflective signs

Photoluminescent signs

Pipe markers

Warehouse identification

Hazard warning signs

Best-of-the-best materials.

Brady's sign and label materials lead the industry in durability and performance.

They withstand harsh conditions, stay stuck on the most challenging surfaces and they simply last longer than other materials on the market. With the BBP85 Sign and Label Printer, you can choose from over one hundred supply options, including:

- Huge selection of 101.60 mm wide to 254 mm wide industrial grade outdoor materials
- Specialty materials including Reflective and Glow-in-the-Dark
- Pre-printed sign header supplies for CLP (GHS) and OSHA or ANSI safety signs, which means only one print pass!

BLS laminating system and panels

Brady's BLS2000 laminating system quickly mounts printed signs to acrylic panels.

Offers rigidity and protection for signs affected by external factors such as acid spills, solvents, etc. The end result makes the signs look even more professional, allowing the panel to be mounted to, or suspended from the structure of your choice.

BradyJet J5000 Colour Label Printer

BradyJet J5000 COLOUR LABEL PRINTER

The BradyJet J5000 Colour Label Printer enables you to create full colour indoor signs and labels on demand. These will help you to offer important safety and lean information right where employees need to see it.

Easily create the full colour labels and signs needed with the BradyJet J5000 Colour Label Printer to communicate safety information, procedures, facility identification and a variety of other applications to reduce workplace accidents and to increase productivity.

Reduce accidents

Use the BradyJet J5000 Colour Label Printer to immediately communicate about an identified hazard by creating safety signs, CLP/GHS labels, Lockout/Tagout tags, arc flash labels, fire visuals or machine hazard labels.

Fast

Print full colour signs and labels in one pass at a top speed of 150 mm per second. That makes the BradyJet J5000 Colour Label Printer a great peripheral tool for any company that needs to quickly add or renew indoor safety signs, lean labels or pipe markers.

Durable

The BradyJet J5000 Colour Label Printer prints on Brady's durable B-2595 vinyl and B-2569 polyester sign and label material range. These labels feature a topcoat that enhances the colour and label appearance, and protects your print from smudging and harsh conditions. The labels have been tested to withstand exposure to liquids, alcohol and chemicals. Available in sizes ranging from 55.00 to 203.20 mm for the BradyJet J5000 Colour Label Printer.

BMP71 LABEL PRINTER

The BMP71 mobile label printer can print on more than 30 different types of label material – all designed with Brady's industrial-strength durability. Whether you need heat-shrink sleeves, die-cut labels or indoor/outdoor vinyl, you can be confident that the BMP71 printer has the right label material for your application.

Speed up your labelling

The powerful BMP71 prints faster than any other printer in its class (38 mm/sec). Don't wait longer than necessary for your labels.

The full keyboard lets you type labels in less time

The BMP71 has a full keyboard, available in 4 different versions: QWERTY, AZERTY, QWERTZ and CYRILLIC. Use both your hands to type your label instead of one finger and save time!

The enlarged full colour screen makes your label printing so much easier

The enlarged screen of the BMP71 enables to see the whole label at once, helping you to compose the label in the most efficient way, eliminating trial and error!

One smart printer to print it all

The BMP71 is your essential tool that handles all your label printing needs.
