

People Moving People 2024 E-Learning Course

“People Moving People” developed exclusively for the health, social care, and special education sectors”

The online course content meets the theoretical requirements of all Skills for Health and all Wales, and Scotland Manual Handling passport schemes. The aim of this course is to equip the participants with all the theoretical knowledge in preparation for learning the practical element of moving and handling training. The course allows your staff to learn at a time, place, and pace to suit them, but also fit with the organisations completion timeframes.

It is an extremely cost-effective way to educate staff on the theory of Moving & Handling as it is proven to replace half a day of classroom training!

[PMP DEMO](#)

Course modules include the law, spinal mechanics and back care, communication and cooperation, dynamic risk assessment, and the principles of safer handling making the learner ready to learn the relevant practical handling techniques. It is also unique as the learner has a library of film clips to refer to post-training. It is also packed full of bespoke film clips, interactive tasks, and animations, which have been developed by world-class educators with vast operational experience and qualifications in manual handling.

*Feedback from Julie Sutcliffe -
Redmarsh School*

The course is fantastic, user-friendly, informative, well thought out, clear instructions and brilliantly put together. Thank you so much, it's just what we have been looking for!

Why Solutions Training?
