A large, rotating tracked sight screen for a cricket ground. The structure consists of a metal frame with multiple vertical panels. The left side has black panels, and the right side has silver panels. The screen is mounted on a track system on a grassy field. In the background, there is a blue sky, a green hill, and a building with a blue facade.

Mobile Covers

Domed Mobile Covers

Our Mobile Covers feature:

- Fully galvanised steel to prevent rusting
- 5mm galvanised tubing creating robust arches, ridge poles & support bars
- 2.8mm folded steel construction
- One-piece gutter to prevent leakages
- 650gsm cover tops that reach the bottom of the cross member
- 12 x puncture proof wheels

Side Sheets

Side and bowlers' run-up sheets can easily be attached to our mobile covers and come in a variety of sizes.

Mobile Units

Stuart Canvas manufactures two models of domed mobile covers, as well as bespoke apex models.

Extra Included	50 x Pegs, 75m Hose & Attachment Kit's

Cricket

Mobile Covers

Replacement Cover Tops

Are you looking to replace your cover tops for next season? Even if they were not purchased from Stuart Canvas, we manufacture any size to replace all cover tops, using an existing top as a template. Contact our team for measuring guidance.

All our mobile covers are manufactured in-house at our own factory in Warrington.

Custom Printing

Stuart Canvas has an in-house digital printer to print directly onto white cover tops and produce decals for our coloured tops. This is ideal for club & school logos or for advertising opportunities.

Alternatively, we can print the required design onto a flat section of PVC and secure it on the dome of each unit during manufacture.

Cover Top Colours

Our standard cover top colours are white, green and blue. However, additional colours are available on request – minimums may apply.

Cricket

Flat Sheets

Test

Manufactured from a 350gsm textile reinforced PVC and designed to let in light without 'burning' the grass, whilst being treated to withstand damage by fungicides and bactericides.

Pro Tech

Manufactured from lightweight 190gsm UV stabilised material. Which is easy to handle with a minimum of ground staff required

The breathable cover allows sunlight through while maintaining a constant temperature underneath the surface. This reduces the amount of condensation formed and promotes grass growth.

County

Standard Sizes

- 24m x 4m
- 25m x 4m
- 25m x 6m
- 25m x 8m
- 25m x 9m
- 25m x 12m
- 27m x 9m
- 27m x 12m

Our county flat sheets are manufactured from a 250gsm lightweight, semi-translucent material. Each sheet features grab handles every 15' and eyelets every 5'. They are ideal for stand alone flat sheets or as side sheets and bowlers' run-up sheets when attached to mobile covers.

Classic

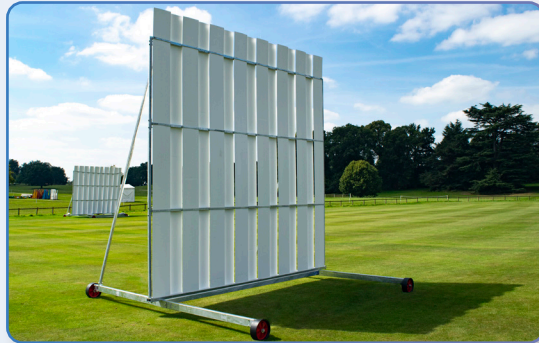

The Classic Cricket is a semi-translucent cover that is designed to allow sunlight through the cover to the grass pitch underneath, thus prolonging the life of the cricket square. The cover is made from textile reinforced PVC with a weight of 350gsm. This gives the Classic Flat Sheet added durability and longevity.

Cricket

Sight Screens

Polypropylene

The Polypropylene Sight Screen may easily be moved by one person, making it easier for ground staff. The removable PVC black and white slats are easy to remove for winter storage. 4.25m x 4.5m or 4.25m x 5m.

Roller Mesh

The Roller Mesh Sight Screen is ideal for windy conditions as the PVC mesh allows for air movement. Standard size 4m x 4m, Fully Galvanised, 40mm x 40mm Box Section, Heavy Duty Channel Base, available in White or Black Mesh.

Tracked Sight Screens

The tracked sight screen may be moved easily by just one person, and the slats may easily be removed at the end of a game. The ease of the tracked sight screen with the reduced amount of space it requires makes it an ideal solution for any pitch configuration. We can manufacture these screens to whatever length and height that you may require.

Wooden Sight Screen

Sturdy, traditional design wooden sight screens, as used all over the UK at all levels of the game. Our standard range has softwood boarding built onto a robust main bearer with substantial timber axles and fully galvanised steel wheels.

Cricket

Sight Screens

Rotating Black & White Mesh Screen

Designed by Stuart Canvas to provide a cost effective solution that allows venues to play both red & white ball cricket. The innovative solution features an easy and simple rotating mechanism to allow a quick change from white to black. The mesh screen allows wind to pass through and can be fully retracted by 1 person when not in use.

Bespoke Sight Screen

If you have an unusual layout or limited space to accommodate a traditional design, then we can create a solution to suit your needs. We have experience producing bespoke sightcreens for both schools and large cricket clubs, including many county grounds.

Roller Blind Sight Screens

We can supply fixed roller blind mechanisms which act as a sight screen but without the steel framework. The screen is attached to a roller mechanism and can be secured to the Pavillion, for example. This product acts as a blind, allowing spectators to see through, but prevents the players from seeing those behind the screen, thus avoiding distractions.

Flipper Sight Screens

The Flipper Sight Screen, is an innovative and unique cricket sight screen that can easily and quickly be converted from traditional white panels to black panels. This creates a sight screen that can be used for both limited over games and conventional formats without panels having to be replaced or for the entire sight screen moved from its position.

Cricket

LED Electronic Scoreboards

SCC 9 Digit Scoreboard

Our nine-digit scoreboard is tailored to smaller budgets and may be operated by an optional 12v battery or connected to the mains. It is ideal for Schools with multiple grounds as it can be easily moved by using an optional trolley. A teacher/coach may also update the scores via the mini grip hand-held remote control, while umpiring.

SCC 15 Digit Scoreboard ('Play Cricket' Compatible)

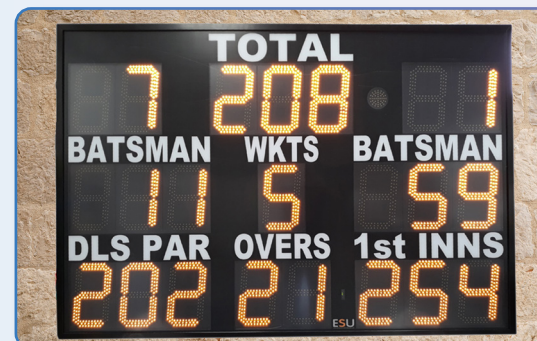

This fifteen digit scoreboard is designed to be a versatile scoreboard that can easily fit to the outside of a pavilion while being light enough to be removed. The scoreboard uses 250mm amber LED digits which create a bright and clear number. The Club Scoreboard displays both Batting Scores, Overs, Wickets, 1st Innings and the Total Score.

SCC 19 Digit Scoreboard

Displays; Both Batter Runs, Batter Number, Total, Wickets, Overs & 1st Innings. Available with 200mm or 300mm LED's with 100,000 hours LED lifetime. Features a dimmer function with 8 settings. They are made from UV-stable acrylic with a durable powder coated steel frame. Mains power (portable battery option extra).

SCC 22 Digit Scoreboard ('Play Cricket' Compatible)

The County Scoreboard is the largest and most comprehensive scoreboard that we offer. The Scoreboard displays; both Batsman Scores, Wickets, Overs, First Innings, DLS and the Total Score. This twenty-two digit scoreboard is designed to be a versatile scoreboard that can easily be fitted to the outside of a pavilion.

Cricket

Scoreboards

Refurbishment

If you have an existing scoreboard with a sound structure, it can typically be fitted with a new fascia. We can design and fit the fascia ourselves or provide the Club or School with the product and detailed drawings to help install the fascia.

Stuart Canvas cricket supplies and installs remote roller shutters for all our scoreboards if required.

Stuart Canvas can also supply bespoke scoreboards to suit customer requirements. Before embarking on a new build project, Cricket Clubs should contact Stuart Canvas for a site visit to help design and produce documents to supply to their local authority planning department.

Traditional

We can also offer a variety of traditional scoreboards:

- Standard
- Folding Portascore
- Portable Cricket Scorer
- 3 line / 4 line Senior Extended Box

Remote Control Consoles

Cricket

Batting Cages

County

The County cage is 7.5m long x 3.6m wide x 3m high. This makes it ideal for grounds where the cage will need to be regularly moved. The County cage comes complete with 4 front swivel and 2 rear fixed puncture-proof wheels for easy manoeuvrability. We offer 1.8mm, 3mm & 3.5mm netting on with our cages.

Test

The Test Mobile Batting cage is the largest cage we produce. It is 11.2m long x 3.6m wide x 3m high, ideal for full-length practice for both the batter & bowler. The Test cage come complete with 6 front swivel and 2 rear fixed puncture-proof wheels for easy manoeuvrability. We offer 1.8mm, 3mm & 3.5mm netting on with our cages.

Bespoke

Stuart Canvas can also manufacture batting cages to suit all customer requirements. This includes bespoke sizes and printing options on vermin skirts.

All our cages are supplied with one-piece netting, and banners may also be placed around the bottom of the cages. This being an excellent opportunity for School or sponsor logos.

Cricket

Indoor Netting

Our retractable indoor multipurpose sports hall divider netting is designed to reduce the space needed for indoor cricket practice, as they may be safely retracted and stored to keep out of the way when not in use. This makes them ideal and convenient for use in school sports halls.

At Stuart Canvas, we produce and install custom made indoor netting for the customers' requirements. We can add integrated fabric sight screens to the mesh netting to provide a complete netting system for bowlers and batters. Our nets are designed to absorb the high impact of cricket balls to create a safe area for indoor practice for players and spectators.

We can offer:

- Wall Fixed PVC Storage Pouches
- Full Tracking Systems with Netting
- Full Installation Service
- Full Sports Set Up Including Batting Carpets and Accessories
- Replacement Cricket Netting
- Bowlers End Protection Netting
- Integrated Sight Screens

Cricket

Ball Stop Netting

Stuart Canvas can provide ball stop netting systems that are ideal for cricket, football and other ball sports. We use high quality netting that can absorb the high impact that comes from ball sports .

We can create a bespoke solution from low-level netting to prevent the loss of balls to high-level housing protection netting. We can supply complete systems, including; design, steelwork, netting & installation. If you have an existing system, we can offer new netting and refurbishments

Batting Curtains & Bespoke Netting

We can produce custom made batting curtains to fit outdoor practice systems. We can include built-in sight screens, windbreaks and custom printing, which is ideal for logos and sponsorship opportunities.

We can offer full netting refurbishments, using bespoke fitted netting for, sides, roofing and curtains. We use high quality 3mm & 4mm netting. Our team of experienced technicians can advise on the best options.

Cricket

Non-Turf Match Pitches & Practice Nets

High quality non-turf match pitches, practice facilities, netting and our own in-house designed SCP Deluxe System.

We provide a bespoke service, constructing and installing match pitches and practice nets with our installation team. We supply and install the carpet and, if required, manufacture and erect steelwork and netting. We strive to reach the highest standards with our SCP Deluxe System and our knowledgeable and experienced installation team use the latest tools and dual grade laser to ensure complete installation accuracy.

Non-Turf Carpets & Shockpads

SCP Deluxe

Life Expectancy: 7-12 years
 Manufacturer's Warranty: 7 years

 Manufacturer's Warranty: 5 years
 Available Widths: 2m and 4m

SCP Bowler Shockpad

Life Expectancy: 8-12 years
 Manufacturer's Warranty: 5 years
 Available Widths: 2m and 4m

Cricket

Ancillaries

Boundary Rope Trolley

Heavy duty galvanised steel trolley with a central "bobbin" which holds two 220-metre boundary ropes. A handle winds the rope onto the bobbin. The Trolley features 2 swivel and 2 fixed wheels for easy manoeuvrability. Size: 1070mm wide x 1270mm long x 1350mm high.

Boundary Rope

Our cricket boundary rope is available in 220m coils in the following diameters:

- 24mm Diameter
- 28mm Diameter
- 32mm Diameter

Boundary Rope Foam Collars

Using triangular foam covered with PVC, we can provide covers that accommodate advertising on the Boundary Rope. This is a perfect opportunity to print a sponsors logo or even a club/school name.

UPVC Fencing

Made from white heavy duty UPVC, the fencing creates an eye catching crisp white look, which is robust, and unlike wooden fencing, it is maintenance free.

Bola Bowling Machine

The full range of Bola equipment is available from Stuart Canvas.

Inflatable Tube

Used to roll covers out quickly. Made from PVC, the 3ft diameter tube is easy to manoeuvre. Inflated with an adapted leaf blower in as little as 2-3 minutes, depending on tube size. Flat sheets are attached to the cover using Velcro.

Cricket

Ancillaries

Sight Screen Covers

These covers are made to fit any size of sight screen. They secure to the bottom of the screen and are a simple, cost effective solution for playing with a white ball. Please get in touch with us with the size of your sight screen for a price.

Germination Sheets

Our 3.65m x 4.85m strong and durable germination sheets are long lasting sheets for cricket wickets to protect your pitches and encourage growth. All our germination sheets come with reinforced hems and eyelets.

Replacement Cage Netting

Our 1.8mm 3mm & 3.5mm replacement netting for a batting cage is the best way to have your cage looking brand new again. The net may need replacement after years of wear and tear or from damage from rodents.

Bowdry Ground Drying Machine

The Bowdry is designed to efficiently and effectively remove standing water from any surface. Ensuring sporting fixtures continue when under normal conditions, standing water would prevent play. We can also supply Bowdry replacement foam.

The 2G Flicx Skills Pitch

A portable solution to the lack of cricket pitch facilities. The simple roll-out design allows it to be used to temporarily or semi-permanent convert any grassed or hard surface area into a cricket field in minutes.

Silo Bags

Ideal for weighing down flat sheets and ground equipment. Our economy handy silo sandbags are designed to be easy to fill and handle. Each bag is 0.27m wide x 1.2m long. They are sold unfilled.

A woman with curly hair, wearing a blue t-shirt and grey shorts, is in the middle of a tennis swing on a court. A bright green tennis ball is suspended in the air above her racket. In the foreground, the back of a man in a blue t-shirt is visible, holding a tennis racket. A tennis net is in the immediate foreground, and a chain-link fence with a '5' sign is in the background.

Tennis Court Equipment

Pages 17-19

Tennis

Court Covers & Windbreaks

Rain Covers

Our tennis rain covers are made of lightweight material and can be rolled out by a minimal number of staff, making them ideal for school use on all tennis court surfaces. Each sheet is made to measure to suit individual requirements and protects from wet weather.

Debris Covers

Our debris tennis court covers are ideal for use in the autumn and winter to prevent leaves, twigs and other natural debris from being deposited on your hard court surface. By protecting the playing surface, you also prolong the court's life by preventing moss and weeds from developing.

Windbreaks

We can manufacture Tennis Windbreaks from anything from a rot-proof canvas to a polypropylene material. These also act as shading for the court and players. The Tennis windbreaks clip onto your existing perimeter fencing.

Inflatable Court Covers

We produce the Inflatable Tennis Court Covers as used at the Wimbledon Tennis Championships. They are made from a lightweight material that, once rolled out across the court, are inflated by fans to form a dome allowing water to drain into channels around the court.

Tennis

Court Accessories

Posts

We can supply a range of tennis posts to suit both indoor and outdoor courts. We can offer championship grade wooden posts with powder coated sockets and metal posts for all court surface types.

Umpire Chairs

Stuart Canvas manufactures umpire chairs to your requirements. We have several standard chairs and these are; The Championship Wooden Umpire Chair as used at the Wimbledon Tennis Championships, Standard Wooden Umpire Chair & Standard Steel Umpire Chair

Nets

We can offer a range of tennis nets, including heavy duty nets which are ideal for schools & club courts. Our championship nets are supplied with a plastic-coated headline with loop and pin.

Indoor Court Backdrops & Divider Netting

We do provide indoor tennis backdrops for indoor school sports centres, we can remove old backdrops, measure, manufacture and install new backdrops. There are a variety of options to secure your indoor tennis backdrops, for example, using tensions wire or bolted into the wall. We will advise on the best application after a site visit.

Football & Rugby Equipment

Pages 20-21

Football & Rugby

Players Tunnels

The retractable players' tunnel offers excellent protection from objects for when players walk onto the football pitch. We design and manufacture to suit the client's exact needs. We have manufactured tunnels for; Etihad Stadium (Manchester City), Old Trafford (Manchester United), Elland Road (Leeds United) & many other top tier clubs.

Pitch Frost Covers

We provide football pitch covers that are ideal for frost prevention. Our covers allow both practice and matches to go ahead even with a night frost. The frost covers can be manufactured as a single skin, double skin or even triple skin, depending on the level of protection required. They are manufactured from a 150gsm material and have reinforced hems and eyelets to give the cover longevity.

Rugby Posts & Padding

We offer a range of Rugby posts and our heavy-duty PVC post padding is designed for permanent outdoor use, and we can offer a printing service that is ideal for club/school names and logos.

Football Goals

We supply a vast range of Football gear, including all accessories. Including both training and full-size goals and posts for both grass and artificial surfaces.

Windbreaks

Bespoke windbreaks for playing field and training grounds are ideal for both player and spectator protection. We offer the complete design, manufacture and installation service if required.

Other Sports Equipment

Pages 22-23

Other Sports

Swimming Pool Covers

We manufacture both debris & winter protection covers for outdoor swimming pools as well as electric PVC covers. Each cover is bespoke to your swimming pool. We can manufacture replacement PVC swimming pool covers if the tracking is already in place.

Boxing Ring Covers

Stuart Canvas have been manufacturing Boxing Ring Covers and Skirts for over eight years. With our highly skilled production staff, we can manufacture all rings to your specification. All ring covers are 'butted' stitched, so there are no trips hazards on the Boxing Ring Canvas.

Sand Pit Covers

Stuart Canvas can manufacture bespoke sand pit covers for both long jump pits and nursery play sand pits. We use durable PVC to create a cover that is hard-wearing and waterproof. Each cover is made to fit securely using a range of fixing methods.

Equestrian School Covers

Stuart Canvas can supply covers to protect Ménages and riding arenas from frost, debris and rain. These made to measure covers allows you to train your horse all year round and are an excellent addition to any riding arena.

Hockey Goals

We can supply a range of hockey goals to meet all requirements. From easy to move wheeled goals to permanently fixed goals. We can offer branding opportunities with a choice of colours and logo printing.

Team Shelters

We offer a range of both portable and fixed team shelters. Bespoke service with a full range of RAL bodywork colours to choose from and the option to screen print your club or school logos on. Available in varied sizes and seat colours as standard.

Ground Maintenance

Pages 24-26

Ground Maintenance

Aggregate Bay Retractable Covers

Our retractable aggregate bay covers provide an innovative waterproof covering solution to protect all types of bulk products being stored outside. Stuart Canvas are able to produce retractable bay covers which can operate independently (single & multiple bays) and use a wall-mounted tracking system to allow the cover to retract for loading and unloading of products.

Trailer Covers

We can produce trailer covers to suit any size, from a standard boxed to bespoke to pick up. All of our covers are made to measure and produced to the highest specification. Our waterproof trailer covers are competitively priced and made from a minimum weight of 580gsm to a maximum of 900gsm PVC.

Tarpaulins

We can provide tarpaulins ranging from 80gsm to 220gsm polypropylene material which comes complete with reinforced hems and eyelets as standard. We can also offer a heavy-duty covers manufactured from 580gsm PVC or 14oz Cotton Canvas. These flat sheets would be manufactured to suit your requirements.

Bespoke Equipment & Machine Covers

We specialise in manufacturing bespoke covers for all types of equipment and machinery. Our covers are made to measure to fit a customers' requirements. Our equipment and machine covers are designed to provide ideal protection against inclement weather and industrial dust.

Ground Maintenance

Ratchet Straps

We can offer a wide range of ratchet straps from 800kg to 5 Tonne loading straps. We have both ready made straps and can produce bespoke straps and fixings to suit your requirements.

Sandbags

Often used to hold down covers and tarpaulins from bad weather conditions, we can offer both polypropylene and hessian sandbags, which can also be used as flood defence.

IBC Bulk Bags

Ideal for storing aggregate and green waste.
 - 85 x 85 x 85cm
 - Lifting Loops in each corner
 - 1 Tonne as standard

Skip Nets

Used to cover and retain waste, our skip nets are available from 12x8ft to 24x12ft and made from 1.6mm braided polyethene cord.

Lifting Straps

Stuart Canvas produce a range of both duplex and sling lifting straps from 1 Tonne to 5 Tonne, conforming to BSEN149-1200

Rope and Bungee Cord

We can provide 220m coils of polypropylene rope in a range of strengths and sizes. We can also supply bungee rope and ready made bungee fixings.

Our Sectors

Stuart Canvas operates in a wide range of diverse international sectors, allowing the group to use its knowledge and experiences from different sectors to manufacture tried-and-tested products.

Bespoke, Tennis, Defence, Equine, Cricket, Haulage, Football, Industrial
