

# CO-OP FUNERALCARE, DONINGTON

CEDAR CLAD 32' X 10' UNIT

This Brand New Cedar Clad Unit was designed and built to the Co-operative Funeralcare's specification.

Working closely with the Co-op's property project delivery manager, Rowland Woolley, we manufactured and delivered the unit on time and to glowing feedback.

#### **This project included:**

Brand New Cedar clad 32' x 10' unit. Black doors, windows and steel shutters. The client's choice of floor covering throughout. Disabled WC. Hand selected internal paint colours. DDA compliant ramp/steps built on site.

Keep an eye out for more of these units in areas near you in the future.

# LAKELAND PARK, ALLERTHORPE

CEDAR CLAD 16' x 12'

Allertorpe Lakeland Park is a water sports activity centre based in East Yorks. They needed an overflow space for their canteen kitchen area on site and found our Cedar clad range online which suited their rural surroundings nicely.

We visited the lake, at no cost to the customer, to check access for hiab delivery and confirm that we could fit a link way to attach one of our cabins on the end of their existing building.

After some discussions, a size and spec was decided and we were given the go ahead to build a 16' x 12' cedar clad cabin.

The cabin featured non-standard extras such as; 12' width, non-slip vinyl flooring and an external bespoke serving hatch to one of the windows.

The cabin was delivered and installed within one snowy morning, much to the customers satisfaction.
