

GUISELEY AFC

5no BRAND NEW BESPOKE BUILT PLASTISOL CABINS

"This is exactly what we were looking for, great quality facilities."

David Cocker, Marketing Manager

This ambitious football club were keen on improving their corporate hospitality facilities and turned to Britcab for the solution. Having surveyed the area the units were sized, designed and built to suit the site. They were installed within a tight time frame just before Guiseley took on the might of Leeds United in a pre-season friendly!

YORK CITY FC, YORK

3 BAY MODULAR BUILDING AND NUMEROUS CHANGING ROOMS

"The changing rooms were designed to our exact specification and were delivered on time and below budget. The modular building has been finished to an extremely high standard and is absolutely ideal for our requirements. We also appreciate the fact that Britcab sponsored a board at the stadium and will continue to use the company for future requirements.."

Chris Tock, Project Manager

York City FC were looking to enhance and improve their training and Academy facilities.

Britcab Ltd began by refurbishing existing changing rooms on site, before agreed a deal to supply 3no brand new changing rooms for the York City academy, all of which were designed to York City's ideal layout and to meet the standard required by the Football League.

Britcab then supplied a glass fronted 3 Bay Modular Building that has been designed to allow scouts, managers and parents to watch training from the comfort of a nice, warm building...rather than braving the Yorkshire elements!

Britcab beat a host of local competitors to provide these facilities and we are extremely proud to be supporting such a well run, local club. As we appreciated there valued custom, we agreed to supply a large advertising board at the football ground and continue to go and support the club as often as we can.
