

CASE STUDY

CLORE TIKVA SCHOOL – IG6 2JN

SOVEREIGN
Bringing Imagination into Play

The School called us in for a site visit approximately 1 year ago to look at developing an area of the Playground currently occupied by a Pergola and a small Tower - Play boat and some free-standing equipment.

The initial budget was discussed and a plan and costing sent with several Ideas on Towers Trails and Replacement Gazebo.

There were some quite specific requirements and prior to the Order being placed the Business Manager and Head Teacher said these had been met perfectly.

I have been to site following the installation and both School staff and Children are delighted with the Installation.

» "The team were quick and efficient and worked through the hard weather to complete the installation of our new playground, and the outcome of the play area has been amazing!

The overall feel of the playground has massively improved and has helped our children use their break times more efficiently. From start to finish, Sovereign's service has been amazing.

Leigh, the Area Manager, has been so great and patient with us during the decision making process and I would highly recommend Sovereign."
