

# CASE STUDY

JOHN OF GAUNT INFANT AND NURSERY – NR11 6JZ

**SOVEREIGN**  
Bringing Imagination into Play

We met with Clare Toplis, the Headteacher, and was advised that they wanted a challenging trim trail activity however did not want to spend lots of money on unnecessary safety if possible. We therefore provided Clare with a few options; offering a variety of challenges including traversing, balancing and upper body strength, all of which were still low level so all of the budget could be spent on equipment rather than surfacing. The children ended up choosing our popular Hide 'n' Seek trail combined with our Traversing Forest and Himalaya climbing wall for added excitement and challenge.

## » FEEDBACK

**What were the reasons for starting your project?**

"We needed some additional play equipment outside as the majority of our other equipment had reached the end of its life."

**How did you discover Sovereign and why did you choose us?**

"Think I had an email? On contacting you were one of the few companies who offered to send someone to do a survey and have a chat. I was impressed at the initial meeting and also you offered to take the leg work away from me to get additional quotes!"

**What was your experience of our design and installation process?**

"Excellent"

**How has our equipment impacted or benefitted your school organisation?**

"Massively. The children love the new equipment, and they play with every day. It has made behaviour at playtimes so much better."

**How has our equipment impacted or benefitted your school organisation?**

"Excellent"

» "Sovereign fulfilled all my expectations from the very start of the project to the end. Communication and customer service has been excellent. They guys who came to install were also wonderful, adapted to challenges and were adaptable to work around playtimes. They were extremely professional and worked hard to complete the project in the time allowed."
