

CASE STUDY

ST. JOSEPH'S CATHOLIC PRIMARY SCHOOL—BB18 5EN

SOVEREIGN
Bringing Imagination into Play

The school had an old trail and surface that was showing signs of deterioration and was causing some trip hazards. It was decided to completely overhaul the area and replace the equipment and surfacing with brand new. The new school trim trail is an innovative outdoor fitness and play area designed to promote physical activity, teamwork, and motor skill development among students. This state-of-the-art facility features a variety of engaging obstacles and challenges, including climbing walls, balance beams, rope ladders, and bridges, catering to children of all ages and abilities. The trim trail encourages students to explore their physical limits in a safe and supportive environment, fostering resilience, confidence, and social interaction as they navigate the course together. In addition to enhancing fitness levels, the trail offers a fun way for students to build essential life skills such as cooperation, communication, and problem-solving. Overall, the new trim trail stands as a testament to the school's commitment to holistic education, encouraging students to engage in outdoor activities that complement their academic growth while promoting an active, vibrant school community.

» FEEDBACK

What were the reasons for starting your project?

"Our old trim trail was failing and was in urgent repair."

How did you discover Sovereign and why did you choose us?

"Academy trust recommended you"

What was your experience of our design and installation process?

"It was very good."

How has our equipment impacted or benefitted your school/organisation?

"Excellent and the children love it!"

What was your overall experience of having Sovereign fulfil your project?

"Very good and would recommend."

» "The equipment is a big hit! Well worth the wait. I found all staff from start to finish very professional, approachable and friendly. The design team worked with me throughout. They waited patiently for my academy trust to authorise. Once the project was agreed, a timeline was provided, and I was kept up to date with all elements of the installation. There was a little delay in collecting all the final items e.g. skip and digger and waste materials, but it was kept secure and safe from the children. I am pleased to have used Sovereign play and would consider using again.
