

CASE STUDY

NORTH COVE PARISH COUNCIL – NR34 7PQ

SOVEREIGN
Bringing Imagination into Play

North Cove Parish Council had outdated play equipment that was deemed unsafe and condemned. They aimed to explore options for installing new play equipment to encourage fitness and exercise on the grass, using grass guard tiles for added safety and durability. After reviewing several options, they chose the Captain Mannering play tower for its variety of climbing challenges and slides. Additionally, they included three log swings to surround their new play tower, one with a basket seat, one with flat seats, and one with cradle seats to ensure the play area is suitable for children of all ages.

» FEEDBACK

What were the reasons for starting your project?

Our old equipment needed to be replaced.

How did you discover Sovereign and why did you choose us?

Sovereign had a good range of products; we found Sovereign online.

What was your experience of our design and installation process?

Sovereign were very helpful, and installation process went smoothly.

How has our equipment impacted or benefitted your school/organisation?

It has been well received by the children and parents from our community.

What was your overall experience of having Sovereign fulfil your project?

Very good experience with no problems.

» "I would recommend Sovereign; they are very professional.
