

CASE STUDY

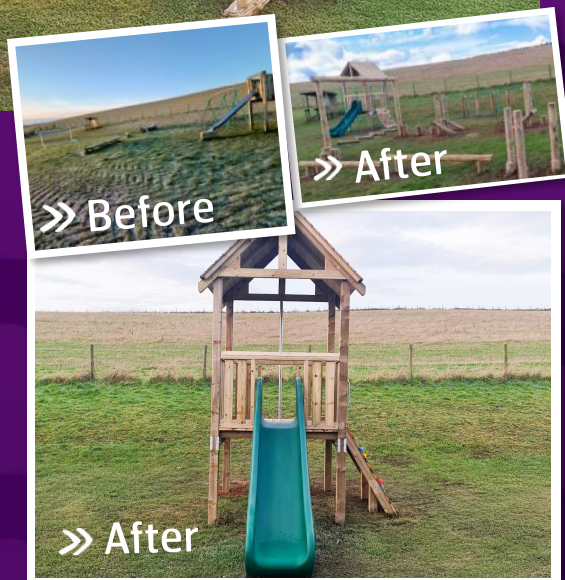

HUMBLE BEE FARM – YO11 3UJ

SOVEREIGN
Bringing Imagination into Play

We first met Julia at the 2023 Farm Business Show, where she shared her plans to upgrade the outdoor play area at their picturesque glamping site in North Yorkshire. With the help of a local grant, they chose to install a Flicky Trail, Roll Over Bars, and a Foxtail Tower in their outdoor space, all designed to engage children up to 10 years old.

» FEEDBACK

What were the reasons for starting your project?

"We started the project as we were made aware there were grants available."

How did you discover Sovereign and why did you choose us?

"We discovered Sovereign at the Business Innovation Show."

What was your experience of our design and installation process?

"The experience with design and install was great, slick process and very professional."

How has our equipment impacted or benefitted your school/organisation?

"In Summer 2025 the new play area will have a great impact on all our families on their summer holidays, they will enjoy making memories and add to their holiday experience."

How has our equipment impacted or benefitted your school/organisation?

"We are very happy with the overall experience, Sovereign checked everything was ok all the time and everything was done with high standards."

» "We are very happy with the overall experience with Sovereign, everything was done with high standards."
