

CASE STUDY

CRAIGMARLOCH SCHOOL – PA14 6PP

SOVEREIGN
Bringing Imagination into Play

In 2023, Craigmarloch School contacted us after securing a generous outdoor equipment grant from the Scottish Government, which they planned to use to transform their outdoor space into a more inviting and inclusive environment for the children. They'd heard about Sovereign through a recommendation from another Inverclyde service and selected us for our competitive pricing and the positive impression made during our initial meetings. The inclusive equipment they chose has had a remarkable impact, encouraging children who previously struggled with outdoor activities to now actively engage in a variety of experiences. These outdoor play enhancements have not only enriched their after-school care program but has also greatly benefited a large group of children with additional support needs.

» FEEDBACK

What were the reasons for starting your project?

"We secured a large outdoor equipment grant from the Scottish Government"

How did you discover Sovereign and why did you choose us?

"Word of mouth from another service within Inverclyde. We chose Sovereign due to cost and initial meetings with Ben Waine"

What was your experience of our design and installation process?

"Fantastic experience! Ben was exceedingly helpful while putting plans together, supporting our vision and providing lots of information that we required along the way."

How has our equipment impacted or benefitted your school/organisation?

"There has been a HUGE impact on our setting! We have had children who previously wouldn't actually go outside, now take part in a variety of outdoor experiences, daily. It has not only benefitted our after-school care but it also allows a large group of children who have additional support needs in the school, also enjoy our outdoor spaces. We also can now say that we have a swing for EVERYONE at our ASN school! WOW!"

What was your overall experience of having Sovereign fulfil your project?

"A brilliant experience!"

"Ben has been absolutely wonderful, and a pleasure to work with! He has made the experience so easy and enjoyable. When things have popped up, as they do on a huge project like this, Ben has always been encouraging and solution orientated! (for example, we had to provide a space which would be appropriate for age 4yrs - 18yrs- and all difference stages considered too- which can be very tricky). He is an absolute gentleman and a credit to Sovereign! Thank you again Ben for making our ASN school even more magical for our children (and staff)!"
