

PadelSystems
UK READY COURTS

Customised Padel Court Construction

FROM THE MARKET LEADERS IN
BESPOKE STRUCTURES FOR SPORT

DESIGNED JUST FOR YOU

From the initial drawings to the final fixtures & fittings, our padel facilities are built specifically to suit your brand, your usage requirements and your environment.

When it comes to padel, one size does not fit all!

ITALIAN PADEL

As the exclusive partners of Italian Padel in the UK, we share their values of high-quality construction, innovative design, exceptional durability and safety above all else.

- 3,000 + courts around the world
- Premium materials
- Advanced, state-of-the-art technology
- Authentic experience
- Aesthetic impact

SUPERIOR TECHNOLOGY

Each court is built to adhere to your structural calculations and withstand the loadings for your site so it can quite literally weather any storms when they come, which they inevitably will!

Choose from either 12mm monolithic or laminated tempered safety glass (comprised of 2 x 6mm, 8+6mm or 8+8mm sheets with a PVB interlayer - a tough plastic resin that increases strength and safety but also helps to absorb noise). Any less than 12mm would be too fragile in our opinion.

As the thickness of the glass increases, the probability of breakage decreases but the rigidity greatly improves, which significantly benefits ball rebound for a better playing experience. Both options offer excellent transparency for clear vision.

Wire mesh protected by an abrasion-resistant profile.

LED floodlights boast energy-efficient anti-glare & anti-light pollution properties.

Galvanised steel frames are coated in a heat-cured polyester epoxy powder paint (you choose the colour), which provides better mechanical resistance to impact and corrosion.

Any detail can be laser-cut into the corner posts.

Welded using metal inert gas technology for a superior finish.

PADEL COURT

STYLES

PANORAMIC

Probably the most popular model, your experience as a player is enhanced by uninterrupted views and a sense of having greater space on court. The extended glass walls and absence of steel poles creates a brighter, wider playing area that can make the game performance more engaging for spectators. Best for an external facility and competition courts.

VISION

Our latest and most prestigious model has all the benefits of an unobscured view with stylish borders framing the glass. This court offers a more immersive, high-end playing experience that will make you feel like a pro, even if your game is a little way off. Best for premium style venues with an eye for image as well as recreation.

DELUXE

The traditional, classic model is versatile and suitable for everyone. It features multiple steel columns, evenly spaced around the court perimeter, which offers a sense of enhanced support and stability from the structure. Best for clubs looking for a court that will accommodate all player abilities from entry-level to competition standard.

COPRISYSTEMS

HAVE IT COVERED

With our unpredictable climate, it's worth considering an indoor court solution so play can continue at any time of the year and at any time of the day. Indoor facilities allow you to offer a full programme of padel for all ages and abilities as well as retain full-time coaches

Together with our sister company, CopriSystems, we have over 35 years' experience designing and building bespoke sports structures that create the optimum playing environment whatever the weather.

SO MANY PADEL COURT SUPPLIERS

So why choose PadelSystems?

- We do not and never will cut corners on structural stability and safety
- We guarantee consistently exceptional standards in our workmanship and our products
- We build padel courts and structures that will stand the test of our unpredictable weather as well as the test of time
- We offer full turnkey solutions
- We love padel too & want to play on really good courts

From small, private, residential projects to large-scale, multiple-court indoor structures, every brief is unique but the pride we take in completing each one to the highest spec is consistent.

PadelSystems
UK READY COURTS

As sports enthusiasts, we have all been drawn into playing padel and are fascinated by the rate at which its popularity is growing.

As sports construction experts, we are excited to be involved in the development of facilities which enable more people to discover the game.
