ONE DOOR ACCESS CONTROL STARTER KIT

The PAC 511 DCi Starter Kit combines the power of our intelligent 1-Door IP access controller, mounted in a secure tamper-protected metal enclosure, designed to work with our industry-leading access control software, Access Central™.

This kit contains everything you require to quickly install, configure and start to protect your premises with a tried and tested solution using network infrastructure.

The PAC 511 DCi Starter Kit (P/N 511DCiSKIT) contains:

1x PAC 511 DCi in metal enclosure with 3A PSU

1x GS3 Mullion HF reader

1x Admin MT reader

1x PAC OPS™ fob (Qty 10)

Download Access Central™ by scanning the QR code overleaf.
