collections

Since the launch of our first standard product reception desk collection back in 2002, Clarke Rendall has gone from strength to strength.

Today, we are proud to be able to offer 10 ranges, including several models fabricated in Corian® and now, even natural moss as a possibility - as standard. With common configurations engineered across the board, finding the ideal reception desk solution could not be more simple.

See our accompanying at-a-glance Price List and Finishes Guide for more details.
