6 door 3m finished in crown cut walnut veneer

**Meeting Room Tables x 2**  
5.2m and 4.8m finished in crown cut walnut veneer with power/coms docks

Property Company **St Modwen** the UK's leading regeneration specialists recently benefited from a re-development of their own, with a new London head office. James MacDonald, **Steelcase Solutions** Retail Sales Manager needed to ensure that the needs of all the staff, plus meeting accommodation were met *"We installed 35 workstations on this project, plus seating and storage"* James commented *"and in the areas that the Steelcase portfolio doesn't extend we brought in Clarke Rendall."*

As with any project of this importance, concerns over quality and reliability must be overcome, and to ensure that **St Modwen** Senior Development Manager Gary Morris and his **CEO** Bill Oliver were comfortable with how this would proceed, James worked to ensure all parties pulled together to deliver. He even organised a visit to **Clarke Rendall** to meet the team and see the impressive facilities at first hand. *"When my clients saw a large walnut veneered table top similar to the one specified for their boardroom in production, they were sold there and then"* he said after.

Although this was a bespoke project calling on nearly 20 years experience in this field, **Clarke Rendall** also produce **evolution®** reception desks for Steelcase Solutions when a *"simple, no nonsense solution"*, as James puts it, is required.

For more information on **Clarke Rendall** bespoke business furniture and also the **evolution®** range of standard products, call today on 01908 391600 or visit our comprehensive website.
