### FROM THE BASKET TO THE CHECKOUT

Formbar supplies a full range of shopping trolleys, baskets and check-out equipment, all made to strict EU standards by one of the largest European manufacturers - Marsanz of Spain.

In addition to the high quality of our products, most are available from stock – wire and plastic shopping baskets, trolleys with baby seats and warehouse, DIY or garden centre trolleys. Stock items can be delivered next day and Formbar will handle any quantity from one trolley upwards. No order is too small or too large.

Formbar trolleys with baby seats come in all sizes and several colours - red, blue or green. The customer's own logo can be applied and, if you wish, we will keep a supply of trolleys in stock for you. Baskets are also available in red, blue or green, together with a basket stacker with or without castors

In addition to the products we hold in stock, Formbar also offers the full Marsanz range for order, including special warehouse trolleys, entry gates, checkouts, roll cages and many more.

See the full range of products available from Formbar at [www.marsanz.es](http://www.marsanz.es)
