

OUR ENERGY TRAINING WILL MAKE CHANGE POSSIBLE FOR YOUR COLLEAGUES

Planet First Energy CIC is an energy consultancy which provides effective energy-saving services to organisations in the UK.

Profits from our services support initiatives that help combat fuel poverty both locally and nationally, through our community partner, National Energy Action (NEA).

Our mission combines commercial, environmental, and social value, with a vision of driving positive change for both organisations and communities.

We have developed a number of solutions to help your employees understand the various options available to lower their own energy costs while also moving to a more sustainable future.

OUR CLIENTS INCLUDE

ENERGY TRAINING SOLUTIONS

CUSTOMISED 1-TO-1 CONSULTATIONS

Our expert sustainability consultants will work with your employees to deliver personalised sessions to help them understand the options available, which may include:

- Suitable EVs and charging units
- Home solar photovoltaic systems (PV)
- Energy reduction tips and advice
- Advice on current energy status

EMPOWERING YOUR STAFF AT HOME

We believe that sustainability starts at home.

Our consultations and webinars not only improve your company's operations but also motivate your employees to make eco-conscious decisions in their everyday lives.

Together, we can create a culture of sustainability that extends beyond the workplace.

ENGAGING WEBINARS

Our interactive webinars are designed to educate and motivate your employees about energy conservation and sustainability practises.

Popular topics include:

- The significance of carbon reduction
- An explanation of climate change
- Sustainable developments
- Benefits of on-site renewables
- Carbon offsetting vs practical actions
- Practical action to reduce carbon at work and home
- Pros and cons of electric, hydrogen, petrol and diesel

MEASURABLE IMPACT

Our solutions are data driven.

We can provide comprehensive reports on energy savings and environmental impact, showcasing the positive progress your company is making.

These insights can be integrated into your sustainability reports and corporate social responsibility initiatives.
