Specialist suppliers to the Medical, Beauty, Aesthetics, Massage, Sports and Complementary Therapy Sectors

“We love it - so much so that we have now upgraded another couch”

“We first purchased an Avalon electric couch back in 2020 & we love it - so much so that we have now upgraded another couch. Ordering process quick & simple with a great team that delivered and got the couch into place - highly recommend”

Lavina Bennett,
Zenith Health Limited

“The sales team were extremely professional”

“The sales team were extremely professional, helpful and made the purchasing process flow seamlessly. The couch itself is just what I wanted and I'm looking forward to using it to provide more comfort and ease of use for my clients, in particular my oncology and senior clients. Thank you.”

Sarah Bankhead,
Dragonfly Therapies

“Their service has never disappointed us”

“We have been using Avalon Couches for a few years now. Their service has never disappointed us. The staff of Avalon Couches work in a very professional manner and they value their customers. I would recommend them to any company requesting their kind of services.”

Janine Davidson,
Assistant Facilities Manager,
The Harley Medical Group

★★★★★ Customer reviews

Luxury that inspires loyalty

Whether you provide medical treatments, beauty and aesthetic procedures, massage, sports or complementary therapies, you want your clients to enjoy the professional service and comfortable experience that they deserve, bringing them back to you time after time. The couch on which the treatment, procedure or therapy takes place, plays a huge role in determining your clients' perception of your business.

Avalon Couches offer you an unrivalled range of beautiful, fully electric, UK manufactured couches, and accessories, at extremely competitive prices. Put your trust, and your clients' comfort, in the hands of Avalon Couches, the leading supplier to many professional practitioners in your sector.

Craftsmanship and comfort:

Manufactured entirely within the UK, with steelwork from specialist fabricators and cushions from a master upholsterer, our couches grace the salons of many leading practitioners and therapists worldwide. With their impressive look and feel, and full range of smooth, quiet adjustments, Avalon Couches are a delight for both client and therapist alike.

Choice and confidence:

As a leading UK brand, Avalon Couches are engineered with your business in mind. Featuring a wide choice of bespoke models, uniquely designed to suit your specific needs, and further compliment your brand, while enabling you the flexibility to choose the cushion range, size and colour perfect for your working environment. Leaving you to enjoy the confidence that our **3 year guarantee** provides.

MultiFlex: Ultimate luxury and flexibility

MultiFlex

MultiFlex is perfect for a professional, busy, but tranquil, working environment, giving you the flexibility to treat all clients of different heights, builds and needs.

MultiFlex couches are fully electric for smooth professional adjustment and boast an extremely wide operating height range from 18" (45cm) to 39" (99cm) – to ensure both, the client, and therapists' maximum comfort before, during, and after the treatment.

The MultiFlex frame is available on our full range of Avalon Couches (see pages 6/7).

MultiFlex Deluxe

Avalon's MultiFlex 3 Deluxe is visually the same as the MultiFlex 3, however it has the addition of a fourth motor. This extra motor gives you the ability to tilt the centre cushion up by 45 degrees from the foot end, enabling you to raise the clients legs up into the air, if needed, or to raise the knees and lower the feet, eliminating the need for a separate bolster. This cushion remains flat on our three motor version. The MultiFlex 3 Deluxe couch is an ideal table for all general and complementary therapy treatments. The MultiFlex Deluxe frame is available on our full range of Avalon Couches.

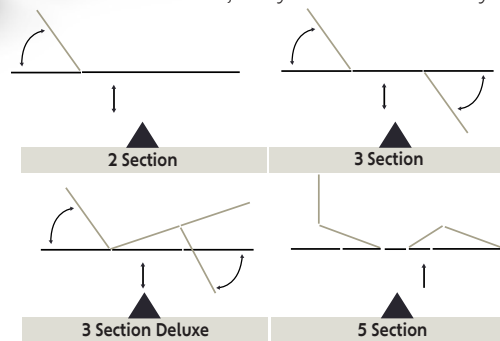

MultiFlex features:

- Fully electric adjustment through the handset control pad
- Smooth, quiet operation
- Adjustable height range, back rest, foot section & mid section on the deluxe range
- Minimum working height 18" (45cm)
- Maximum working height 39" (99cm)
- Table length - Standard 72" (182cm)
- Table length - Harley 78" (198cm)
- Maximum working weight of 205kg
- Heavy duty lockable wheels with level adjustment
- Easy clean, anti-microbial and moisture resistant vinyl
- Ample space for therapists' knees, legs and feet underneath the table
- Suitable for all treatments
- CE Safety Mark Certified

The multiple configurations of Avalon Couches beautifully and professionally facilitate every client, every treatment and every therapist.

MultiStyle

Ultimate luxury and style

Perfect for popular professional environments such as yours, offering the full range of body treatments, Botox, facials, pedicures and manicures, MultiStyle combines superb style with smooth, fast practicality.

The MultiStyle range has been developed in collaboration with a leading-edge spa designer, and boasts fully electric adjustment, with all moving parts elegantly encased within a sculpted fibreglass base. The height adjustment ranges from 22" (56cm) to 38" (97cm), and is operated through a central vertical lifting system. This leads to one of the key features of the MultiStyle base, which is the compact footprint that it maintains during your clients treatments, as no additional floor space is needed whilst adjusting the height of the couch.

Clients experience the luxury, comfort and relaxation they seek and deserve; therapists enjoy easy adjustment and maximum legroom during seated treatments.

The MultiStyle base is available on our full range of Avalon Couches.

MultiStyle features:

- Fully electric adjustment through handset control pad
- Vertical central lifting system provides a compact working footprint
- Framework elegantly encased within a sculpted fibreglass base
- Smooth, quiet operation
- Adjustable height range, back rest, foot section & mid section on the deluxe range
- Working height range 22" (56cm) - 38" (97cm)
- Table length - Standard 72" (182cm)
- Table length - Harley 78" (198cm)
- Ideal for heavy duty massage
- Maximum working weight of 205kg
- Heavy duty lockable wheels with level adjustment
- Easy clean, anti-microbial and moisture resistant vinyl
- Ample space for therapists' knees, legs and feet underneath the table
- Suitable for all treatments
- CE Safety Mark Certified

2 & 3 Section

Avalon's 2 & 3 section couches are an ideal table for all general and complementary therapy treatments.

The cushions are available in a variety of colours, widths and depths, with or without a face hole in the top section. All couches can be supplied with a selection of optional extra.

5 Section

Avalon's 5 section couch is a fully electric table, with five adjustable cushions, that all move independently above the frame. The framework remains one continuous length beneath the cushions.

Please Note: The foot cushions on this table cannot be lowered below the frame. A seated position can only be achieved above the framework by creating a comfortable 'S' shape, as shown in the image. The height adjustment boasts an extremely wide operating range, from 18" (45cm) to 39" (99cm), and the smooth, quiet operation ensure's both, the client's, and the therapist's maximum comfort before, during and after their treatment.

Harley

Avalon's Harley was given its name as the bed is both, top quality, and customised to fit individual needs, as are the services in the world famous Harley Street, where highly respected specialists practice medicine and surgery. The Harley has been designed with the facial aesthetic industry in mind, but it is also ideal for anyone wanting a table, that allows easier access to the face, such as beauticians and skin specialists. It is an all-round treatment table, and has been built with comfort and support in mind, especially for the head and neck area. It boasts the same luxury features as all of Avalon's best-selling Multiflex and MultiStyle range, with the added bonus of an extended headrest, giving an overall couch length of 198cm, contoured corners and the addition of a head cushion, to give more comfort, and extra support to the patient, whilst their treatment is being carried out. The Harley range is available on all 2 & 3 section couches.

Volupturest

Avalon's Volupturest features a unique boob hole cutout. This is a removable section for the breasts to rest, and be supported, when lying in the prone position for treatments. Making the visit a much more enjoyable experience for clients with larger, enhanced, delicate or sensitive breasts (like breast feeding mums). The Volupturest range is available on all 2 & 3 section couches.

A face cradle is included with this model, as standard.

Curve

Avalon's Curve has been designed in conjunction with one of the world's leading hair transplant surgeons. It has the added benefit of curved, narrow cushions, which allow the surgeon closer access to the patient, when carrying out hair transplant surgery, or any other treatment that requires extremely close contact. The widest part of the couch is the foot section cushion, measuring 23" (59cm), narrowing in at the waist and upper body to 17" (43cm). Please note, the curve is only available as a 3 section standard or deluxe couch.

A face cradle and arm support set is included with this model, as standard.

Options

Each Avalon couch boasts a comprehensive range of customisable options, enabling you to create a treatment table that is perfect for both, your therapists, and your clients.

The available options feature core elements, including a face hole and plug, side arms and face cradle attachments, through to more personal preferences such as the aesthetics of colour and style. Every Avalon couch is carefully crafted in the UK ensuring each option enhances its performance for you, and its visual, sensual, and practical experience for your clients.

Avalon guarantee

At Avalon, we use only the highest quality components along side the most highly skilled manufacturing, assembly crafts and techniques.

The confidence in our products allows us to offer you a 3-year guarantee, which applies to both, the Avalon couch frame, and all electrical components fitted.

Avalon spares

Avalon is committed to the quality of the products that we supply to you, and thus to the performance and reliability that you expect from them.

A major part of our commitment to you is our promise to ensure that you can enjoy uninterrupted use of your Avalon couches. Therefore, we offer exceptional after sales support and keep a comprehensive stock of all spare parts, in the unlikely event that you should ever need them.

Avalon servicing

Along with spares goes servicing. We aim to keep your couches performing to the highest level at all times.

Our highly skilled and comprehensively trained service engineers are on hand to service and repair your couch, at a time that is most convenient for you and your business.

Avalon Voluptrest 2, fitted with 'Koala' cushions, featuring a Multiflex base.

Once your clients experience the quality,
luxury and performance of an Avalon Couch,
they will not want to be treated anywhere else.

Once you experience the unique Avalon service,
you will understand why so many leading therapists
insist on using only our couches.

Avalon.
