BioPod Applications

- Hospitals
- Pharmaceutical
- Clean Rooms
- Care Homes
- Doctor's surgeries
- Veterinary

Heavy duty hinged access

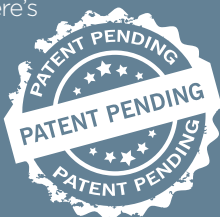

Rubber T insert

PVC core

Dispenser can be attached to hinged access

BioPod's unique BioCore is 18mm thick PVC. It is made up using closed cell technology - that's millions of minute bubbles bound together to form the core. This means there's absolutely no room for water to penetrate. BioCore means both the BioClad surface and BioCore is 100% waterproof, no rot or water damage ever and also provides superior rigidity & durability.

Benefits

100% Waterproof
Fire Resistant
Easy to Fabricate

Extremely Durable
ECO Friendly
Sound Absorbent
