We do more than you know...

European Oak

Whitmore's specialise in sawn hardwoods and clear grade softwoods from around the world. We are complimented by Sme Profiles Ltd who provide high quality machined timber including, components and veneer wrapped profiles.

We supply a comprehensive range of wood for many uses in joinery, building and restoration work, furniture making, panelling, boat building, fence and gate manufacture. We also supply timber for coastal defence, waterways and construction work. We are an FSC, PEFC, SFI, MTCC and CSA certified supplier and take our duty of care to the environment seriously. In short, we do more than you know.

Oak Specialists

Whitmore's Timber

Tropical Hardwoods

We stock an extensive range of construction sizes, especially in English and Continental oak, in lengths up to 50 ft suitable for Churches, Inns, and country houses. Our graders are fully trained to grade to BS:5756(2007). We also stock beams that have already been graded for immediate delivery.

For further information or advice on our constructional hardwoods please don't hesitate to contact us on 01455 209121.

Merchantable Grade Douglas Fir

Solid Logs

Logs are sawn through and through or cut with one square edge, and then seasoned. Some of the larger logs, especially the longest and the straightest, are set aside to stabilise for two to five years. Many of our larger Oak logs are quarter sawn in the traditional way.

Cut Through (T/T)

Wainscot (1/SE)

Fully Quartered (Qtr)

SMEE PROFILES LTD

WOOD MACHINING &
COMPONENT MANUFACTURING

Smee Profiles Ltd manufacture solid hardwood profiles, MDF profiles and veneer wrapped profiles for the furniture, joinery, flooring and building industries. These can be supplied in random or cross-cut lengths to suit your requirements.

Bespoke Service

The highly skilled operators, using the latest high-tech equipment, work to fine tolerances and high standards in supplying a bespoke service we are proud of.

Our experts can match any bespoke item in timber or MDF and make cutters to suit if need be.

Flooring

 Decking Whitmore's Timber		We have a set range of decking profiles for your convenience and offer a bespoke machining service to suit your exact requirements.
 Cladding Whitmore's Timber		We have a set range of cladding profiles and offer a bespoke machining service to suit your exact requirements.
 Machined Profiles Whitmore's Timber		Although we have our own standard profiles, we are able to make cutters to machine bespoke profiles on request.
 Veneer Wrapping Whitmore's Timber		We offer a real wood veneer wrapping service onto a range of materials including MDF and solid wood. We are able to provide a fine-sanded finish.
 Engineered Timber Whitmore's Timber		Solid hardwood laminated sections can be supplied, which can then be profiled and / or cross-cut as required.
 MDF Profiles Whitmore's Timber		We make cutters in-house to machine bespoke MDF profiles on request.
 Flooring Whitmore's Timber		We offer custom made ends matched flooring in a variety of suitable species and a range of flooring accessories.
