GRANTHAM'S

GRAPHIC TECHNOLOGY

Granthams GT supplies a wide range of large format indoor & outdoor solutions from Mimaki, HP, Roland, Summa and Graphtec. Laminating and finishing equipment is also available, along with signage design software and RIP solutions.

Our aim is to offer first class support and service from your initial enquiry, through to installation and ongoing support. We pride ourselves on our support and back-up, not only on your hardware purchase, but also ongoing assistance with regard to consumables, peripherals, technical requirements and application advice.

Many of our customers are long standing, return clients looking to upgrade their equipment, and others coming to us as referrals from existing users. Testimonials or customer references are available upon request.

Customers are always welcome to book in a visit to our Preston showroom to see a selection of popular products, and chat with our sales team.

MEDIA

We can offer a wide range of both Sign Making and Digital Media.

Whether you require coloured vinyl for general cut lettering or printable wrap material, we have it all under one roof. With more than twenty years' combined experience, our consumables team is on hand to offer advice regarding ink type, media or profiles as required.

HARDWARE

Our expert team of hardware specialists are here to advise you on the best solution, based solely on what machine is right for you. You can trust us to provide you with honest advice to suit your workflow, even if it means passing your business to a better-suited source.

Our wide range of comparative products means you can rely on the feedback we provide, as we're not tied to a single brand or technology. The variety of machinery we have access to also means we can supply competitive bundle deals, all from a single source with a reliable support package.

There are three key print technologies for producing outdoor signs and graphics...

SOLVENT, UV AND LATEX

We supply all three and can offer a side-by-side look at each model, along with an honest judgement on what best suits your requirements and applications.

OUR PRESTON SHOWROOM

OPEN BY APPOINTMENT - MONDAY TO FRIDAY

No aggressive sales pitches or false promises, just a useful insight in to the knowledge gathered over the many years we've spent discussing various large-format print options with our customers.

KEENCUT

DESIGN AND PRINT OFFICE EQUIPMENT

Our parent company, **The Entwistle Group**, is one of the country's leading suppliers of design office equipment. Their team have been fully trained by a number of well established manufacturers including Océ, KIP, Hewlett Packard, Ricoh, Canon, Epson, and Kyocera Mita.

The equipment sold by Entwistle is also used in their own bureau to offer in-house printing services, which include copying, poster printing, event stands and banners, plan printing and stationery.

ENTWISTLE

EFFORTS TO BE A SUSTAINABLE PRINTING COMPANY

If you are looking for a green printing company which places an emphasis on sustainability, Entwistle are considered one of the most environmentally sound printing companies in the industry.

In recent years they have implemented a series of green measures from moving to energy efficient premises with extensive solar panels, purchasing machines that minimise their carbon footprint, sourcing sustainable paper supplies and adopting stringent recycling targets. Customers can also choose from a wide range of green papers, films and boards.
