DEXION® ANGLIA LTD

WAREHOUSE SOLUTIONS

Dexion Budget Range.

Introducing Dexion Budget Range.

An ideal shelving system with an unlimited number of uses.

Suitable for commercial and domestic use the pre-galvanised finish provides a protective coating and gives a modern appearance.

With an individual shelf capacity of 50kgs UDL (uniformly distributed load) this provides a total of 250Kgs load per bay. This means that the shelves are ideal for most storage solutions.

The system comes complete with 5 shelf levels and a single piece upright to ensure rigidity. No cross bracing is necessary due the ingeniously designed corner plates improving accessibility to each level.

Comprehensive instructions are included in each pack and we even provide the spanners!

Price: £59.95/ bay +VAT
Availability: In Stock, 3-5 days.
Discount on bulk orders.

not quality.

Budget range continued.

Where savings matter most.

There are times, of course, when you simply don't need high-spec shelving. Where there's just no real need for a wide range of accessories. All you want is good, simple, solid shelving. But don't think that Economy Shelving is a light weight system. These shelves can each hold 80kg when the weight is evenly distributed across the shelf.

Dexion Economy shelving fits the bill, wherever you need some handy, robust shelving. It's designed using Dexion's experience in meeting storage needs for offices, factories and stores, all over the world. So you'll find it's perfectly sized, perfectly capable, for a huge range of ad-hoc and odd-job storage projects. And it won't break the bank – shelving as good as this never cost so little!

Price: Chipboard Shelf £115.00/ bay
         Pre-Galvanised Shelf £142.00/ bay
         Painted Shelf 157.00/ bay
