

WHY WHITE DOORS ARE ALWAYS IN FASHION

www.greentreedoors.co.uk

WHITE PRIMED DOORS

It is no surprise that our white-primed range is undoubtedly our most popular finish. Whether your home is modern or traditional, if you want to play it safe or if you prefer a unique door design there are enough white primed doors in our range to suit all tastes and budgets.

LIGHT + STYLISH

If you are limited on space and natural light in your home a white primed door is a great way to create the illusion of a brighter and bigger space. White primed glazed doors will also increase the amount of light that floods into the room. Often poorly lit rooms can feel cramped and enclosed. By introducing glazed doors, the flow of light will make the space feel more open and spacious.

GREEN TREE DOORS

OUR TOP PICKS

Whether you want a single door, door pair, pocket door, sliding door or a 5 door Bi-fold you are bound to find a style you like within our white primed door range.

ASTON

The white primed Aston panelled door pair creates a modern and contemporary look. The solid panels on these doors allow for maximum privacy. Ideal for a modern home. If you want to create more space and light then check out the glazed option in either clear or frosted glass.

SHAKER 4 PANEL

The White Shaker 4 Panel Bifold System is a modern, chic style of bifold which allows maximum privacy between rooms. Ideal for dividing a large room into two smaller rooms, such as a bedroom or lounge when you have guests to stay. Again this style also comes in clear or frosted glass.
