

JCM FINE JOINERY

FOR THE LOVE OF WOOD

UNITING CRAFTSMANSHIP WITH DESIGN

WASHROOM CUBICLE SOLUTIONS

CUSTOM FINE JOINERY

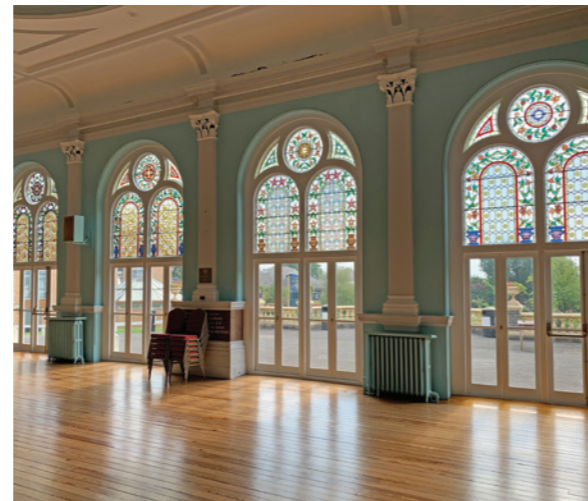

Working with commercial clients such as building contractors, shopfitters and property developers, we bring your projects and designs to life.

You can trust us to craft exceptional products on time and to budget. Our team of skilled craftsmen draw on their many years of experience in commercial joinery to create beautiful and functional products for your clients and end-users.

We will work with you to deliver a seamless project, whether it's bespoke, high-quality joinery or waterproof, durable washroom solutions. Combining masterful joinery and CAD design, we will help guide you smoothly along the project lifecycle from concept to delivery.

UNITING CRAFTSMANSHIP WITH DESIGN

When you commission JCM Fine Joinery to design and build your custom joinery or washroom cubicles, you'll get high-quality, professional craftsmanship.

WASHROOM CUBICLE SOLUTIONS

We manufacture three ranges of quality, finished washroom cubicles. Hygienic, waterproof and durable, our washroom toilet and shower cubicles are manufactured to your specifications, with custom finishes and hardware.

Each range offers a different level of finish or is suited to a particular need. But regardless of the range you choose, each one has cubicles, IPS panels and vanities. In this way, you can create a harmonious design for your toilets, showers, bathrooms and washrooms.

Choose the right range for your project, then simply select co-ordinating powder-coated, stainless steel or aluminium hardware fittings.

CUSTOM FINE JOINERY

JCM Fine Joinery designs and builds bespoke joinery on behalf of building contractors, shopfitters, bespoke furniture manufacturers, and commercial and residential property developers. We craft products for shops, leisure venues, hotels, bars, restaurants, schools, offices, factories and warehouses.
