

Isoflow Senior Walk-In Ducted Fume Cupboard

The tried and tested industry-leader

Each unit of this proven solution is manufactured in the United Kingdom.

Opting for the walk-in feature provides users with an expanded working area and the flexibility to accommodate floor-standing equipment.

Recognising the unique requirements of each user, we acknowledge that a "one size fits all" approach does not suffice when it comes to fume cupboards.

Key Features

- Smooth radiused front profile for improved fume cupboard containment and aerodynamics
- Type tested to BS EN14175 @ 0.30m/sec, 0.35m/sec, 0.40m/sec and 0.50m/sec
- Inner chamber 6mm Trespa TopLab BASE (Polypropylene and stainless steel options)
