

Porta Rainbow

Designed in conjunction with Great Ormond Street Hospital Portering Team

The **Porta Rainbow** is a non-folding portering chair designed for children aged between 4 and 11 years.

Available as a front or rear steering chair, the Porta Rainbow R is a rear steer and Porta Rainbow F a front steer.

The standard chair has a fixed basket with integral oxygen cylinder holder, flip-up footboard and handles to secure the child whilst in transit.

The Porta Rainbow chair is upholstered in Chieftrain multi-coloured flame retardant vinyl fabric and complies fully with BS5852 Ignition Source 5

Handles to secure the child in transit and assist getting in and out of the chair

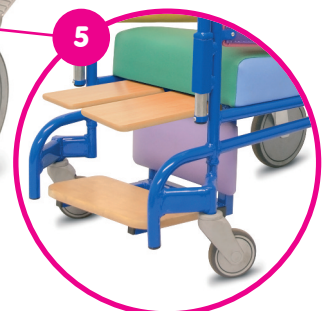

Flip-up Footboard

Integral IV Drip Pole is unobtrusive in its lowered position but readily available in an emergency (optional)

Basket with Integral Oxygen Cylinder Holder

Telescopic Legrests (optional)

Additional option:

Chair Locking Device to secure chairs to each other
