

VELCRO® brand

 **LogiStrap™**

A RE-USABLE AND VERSATILE STRAP FOR MATERIALS HANDLING APPLICATIONS

VELCRO®

 LogiStrap

GENUINE VELCRO

VELCRO® brand

 LogiStrap™

LogiStrap™ is a re-usable strap for materials handling applications in distribution centres, warehouses and closed loop pools to secure goods on pallets or secure pallet boxes, sleeve packs & folding large containers.

LogiStrap™ is the latest product from the global leaders in fastening solutions, the Velcro industries. The LogiStrap™ is designed for our customers to meet their business targets; **whether in terms of decreasing costs, reducing environmental impact, improving health and safety or overall efficiencies.**

OUR VALUE PROPOSITION

Do you know how much you spend securing your goods on a pallet?

- Let's say that you have 1,000 pallets in your warehouse and you move them ten times per year. Then you need to secure your goods on these pallets 10,000 times.
- Research shows that stretch wrapping of an euro pallet with a height of 1.70m creates material costs of 1.50 €.
- This means you spent per year 15,000 € - just for securing your goods.
- On top you produce 2 tonnes of film waste.

Do you really want to go on spending so much money every year and create tonnes of waste?

The alternative is the new LogiStrap™ from the Velcro companies, helping you save money and protect the environment.

Benefits

- **Cost-saving**

LogiStrap™ reduces cost in the supply chain by offering a re-usable strap for securing goods to a pallet; significantly lowering packaging, recycling and maintenance expenditure. Ask us to calculate how much you will save for your organisation by converting to LogiStrap™.

- **Environmentally Friendly**

LogiStrap™ will vastly reduce waste when replacing one-use alternatives, like shrink-wrap, stretch-wrap, plastic and metal tie, helping meet your environmental targets.

- **Improved Health & Safety**

LogiStrap™ provides a highly visible accessory which eliminates hazardous tools and reduces risk of injury from falling goods.

- **Quick and Easy**

LogiStrap™'s can easily be opened and closed which will reduce the time people will use to secure a load and eliminate time required in movement to, and maintenance of, alternative equipment. No tools are required.

- **Versatile**

LogiStrap™ can be used for many different applications and was designed in multiple lengths to address different needs.

- **Protective**

LogiStrap™ is very soft which avoids the scratching of surfaces.

- **Supports labelling**

LogiStrap™ does not hide barcode labels and other information on your shipments and, therefore, speeds up your process for incoming and outgoing goods.

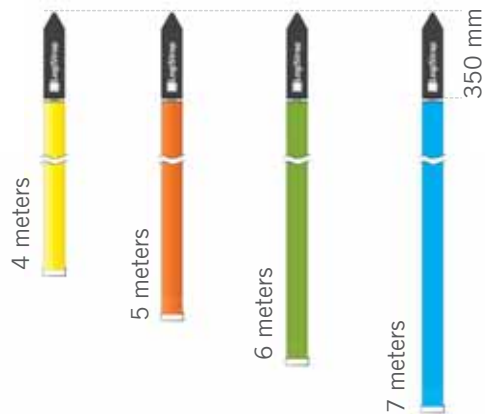

How to use the LogiStrap™

- **Vertical strapping**

Standard product range

- Base material: polyamide
- Width: 50mm
- Lengths: 4, 5, 6, 7 meters
- Overall strap resistance: 1059 N

Customized options

- Different widths
- Special lengths
- Colours
- Printing / Branding

Accessories

- Labelling
- Dust covers
- Sealing tape

Labelling system

• Horizontal strapping

Applications

Sleeve packs

Pallets

FLC (Folding Large Containers)
