

## Simplifying Workplace Change

**RHT Group are specialists in delivering a complete range of office logistics services that simplify workplace change. From delivery and installation of furniture, to office reconfiguration and full office relocation services, we have the requisite skills and expertise to deliver any project.**

### Office Installation

From a single desk to 1,000+ workstations, we deliver a professional, reliable office installation service, along with comprehensive nationwide furniture management solutions.

### Commercial Relocation

Our dedicated team of relocation experts will handle your office move or internal reconfiguration from start to finish, ensuring every stage of the project is executed smoothly and to plan.

### IT Technical Services

Our dedicated team of IT technicians is available to support all aspects of your IT requirements through any moves and changes project, regardless of scale or complexity.

### Ethical Disposal

We ethically and legally manage the disposal of unwanted furniture and electrical products. Where possible, we try to dispose of furniture through charitable donations, effectively giving the furniture a second life.

### Nationwide presence, local service

With three strategically located service centres in London, Warrington and Central Scotland, we offer a nationwide solution backed by local service. All three of our service centres also boast a storage facility with full-time warehouse operatives which can help to reduce your costs. Our nationwide delivery capability enables us to deliver multiple orders from multiple clients. Maximising our vehicle utilisation and sharing space in this way ensures we provide our clients with a cost-effective delivery solution.

### What to expect from RHT Group

Establishing solid working relationships with our clients is fundamental to the delivery of any project. We aim to forge close partnerships with our clients, building strong, lasting relationships backed by outstanding customer service. To achieve this, every employee embraces our company values:

# Benefits of partnering with RHT Group

We are committed to attaining the highest possible standards of responsible business practices to ensure the successful completion of our client's projects. As a result, there are many benefits of choosing to partner with RHT Group:

**Rigorous standards:** we employ rigorous standards on every single project we embark, and our quality management systems and environmental standards are ISO9001/14001 accredited.

**Sustainable approach:** we take full responsibility for the management and disposal of waste with >95% of all packaging materials currently being recycled, and we are continually seeking ways to improve this figure further.

**Industry recognition:** we are a full member of the British Association of Remover's Commercial Moving Group, dedicated to promoting professional excellence in the Removals Industry.

**Effective communication:** our project teams are led by experienced Account Managers who communicate effectively at all levels, providing you with a consistent point of contact throughout the delivery of your project.

**Credible expertise:** we are the only genuinely national office furniture installation company in the UK, with the capability to install from a single desk up to 1,000+ workstations.

**Reputation management:** we will faithfully maintain your reputation in the field, applying our company values of reliability, professionalism, attention to detail and integrity in the delivery of every project.

**Skilled people:** as Investors in People, we continually invest in our employee's continuous professional development to ensure they have the requisite skills required to deliver excellent customer satisfaction on every single project we undertake.

**Safety standards:** we take personal safety extremely seriously and ensure all safety standards will be adhered to throughout any project. All of our operatives are issued with five-point Personal Protective Equipment (PPE) as standard.

**After sales support:** our relationship with you does not stop at the end of the project. Our team of experts will continue to support you on the completion of your project into the future.
