TENNIS PRACTICE FENCE

The **ServeAce Tennis Practice Fence** has been produced specifically for the Tennis Court Market to give viable cost effective alternative to a standard block wall.

The **ServeAce Mesh** has been selected to suit both Club and residential use.

The **ServeAce** can be erected as a stand alone practice facility or incorporated into existing and new fence lines.

The **ServeAce** comprises of a 2.75m high robust high density rebound mesh fixed to steel posts and support rails.

Corrie ServeAce features a white coated rail positioned to mimic the height characteristics of a tennis court net and an upper rail set to mark out of play areas.

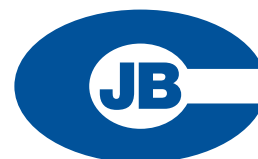

Corrie ServeAce will provide a tennis practice facility for all ages and abilities.

Supplied and installed using Corries experienced erection staff.
