# The **SIGN** Catalogue

Your comprehensive signage directory

# Legislation and Guidance

The Health and Safety (Safety Signs and Signals) Regulations 1996 require employers to provide and maintain safety signs where there is significant risk to health and safety that has not been avoided or controlled by other means (e.g. safe systems of work) provided that the use of a sign can help reduce the risk.

Throughout this catalogue you will find guidance about;

- ▶ Risk assessment
- ▶ Use of pictorial symbols
- ▶ General health and safety signs
- ▶ Fire/emergency escape signs
- ▶ Positioning of signs
- ▶ Marking of hazardous storage areas and obstacles
- ▶ Dangerous locations
- ▶ Identification of pipelines

ISO 7010 is the International standard for safety signs.

ISO 7010 was developed to provide consistency in design across the EU. Stocksigns has incorporated the new designs and you may notice some design changes to the symbols whereas others are virtually unchanged.

The majority of British Standard symbols have been adopted by ISO and as such have now been encompassed into UK safety legislation.

## Use of Symbols and Graphical Images

The use of symbols and graphical images is a simple safety system used to convey safety messages at a glance. Colours and symbols, appropriately used, provide information and warnings of hazards which are essential to personal safety.

### Prohibition

A red circular band with diagonal cross bar on a white background, the symbol within the circle to be black denoting a safety sign that indicates that a certain behaviour is prohibited.

### Hazard

A yellow triangle with black border and symbol within the yellow area denoting a safety sign that gives warning of a hazard.

### Mandatory

A blue circle with white symbol denoting a sign that indicates that a specific course of action must be taken.

### Fire Equipment

A red rectangle or square with symbol in white denoting a safety sign that indicates the location of fire fighting equipment.

### Safe Condition

A green rectangle or square with symbol or text in white denoting a safety sign providing information about safe conditions.

## LOOK OUT FOR

**Best Sellers**  
The best selling signs and products.

**New**  
Signs and ranges new to this catalogue.

**Updated**  
Signs updated to the latest ISO 2018 symbols.

**Great Value**  
Products that represent excellent value for money.

## Stocksigns Accreditations and Associations

# Welcome to the Stocksigns Catalogue

Welcome to the latest edition of the Stocksigns Catalogue. In this guide you will discover one of the most comprehensive ranges of signs available on the market.

Wherever and whenever you need clear and prominent signage we are confident that you will find the product you are looking for. However, if this isn't the case, we also offer a full **custom-made service** and can design any sign on a full range of materials to suit your needs.

Our Health and Safety signage range is manufactured to the highest standards at our state of the art factory in Surrey.

As longstanding founder members of the **HSSA (Health and Safety Sign Association)** and charity partners of **RoSPA (The Royal Society for the Prevention of Accidents)** all our products are manufactured in compliance with BS EN ISO 7010, the UK standard for safety sign regulation.

Add to this over sixty years experience in the signage industry and you can be assured when you buy from the Stocksigns Group you are purchasing a quality product that complies with the latest UK legislation.

Our knowledgeable and dedicated team can provide vital expertise and are available either online or in person should you require assistance and advice throughout the buying process.

At Stocksigns, we go beyond simply sign manufacture and offer a **complete one stop shop** with additional services including **on-site surveys, graphic design, project management and installation services.**

We are proud to offer a comprehensive signage solution to companies large and small across the UK, Europe and beyond. We look forward to working with you in future.

**To speak to a member of the team, please call 01737 774077, email us at [sales@stocksigns.co.uk](mailto:sales@stocksigns.co.uk) or visit us online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk).**

# Material Choices

## Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs.

Series code - 10

## Reflective Signs

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

Series codes - Traffic 70, Safety 75

## Rigid PVC Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners, no holes as standard.

Series code - 20

## Correx

A durable yet lightweight corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

Bespoke material on request

## Photoluminescent

(Rigid Plastic and SA Vinyl)

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with the PSPA, standard signs are produced on Class B, with Class C material available on request.

Series codes - RP 21 / SAV 31

## Foamex

A versatile PVC foam sheet with a smooth matt finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

Bespoke material on request

## Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

Series code - 30

## Acrylic

Acrylic is a versatile material that is both lightweight and shatterproof. Best suited to internal signs. This offers a cost effective and safe alternative to using glass. Available in 3, 5 and 10mm thicknesses.

Bespoke material on request

## Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal and external use.

Series code - 11

## Polycarbonate

Polycarbonate is a clear material used as an alternative to acrylic. A very versatile material with a gloss finish. Compared to acrylic it has a higher impact resistance, is more UV stable and temperature resistant.

Bespoke material on request

## Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

Series code - 60

## Special Effect

### Aluminium Composite

Available in both mirrored gold and brushed silver finish. These special effect finishes create a contemporary look when used on internal signage.

Bespoke material on request

## Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

For further advice speak to our sales team on 01737 774077.

Recommended installation heights:

**Above doors:**

2m - 2.5m  
from floor level to base of sign.

**Directional wall fixed signs:**

1.4m - 2.0m  
from floor level to base of sign.

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

e.g: **10** = Aluminium  
**20** = Rigid Plastic  
**30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

### How to Order

#### STEP 1

- ▶ Find the sign design you require.
- ▶ Note the product code.

#### STEP 2

- ▶ Choose the material you require.
- ▶ Use our material guide on the left to select the most suitable material for the job.

#### STEP 3

- ▶ Look at the sizes your sign is available in.
- ▶ Use the price grids for size codes.
- ▶ Choose the most appropriate size using the installation guide above.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

Prices can be found by using the grids at the bottom of the pages or in the price list enclosed. (Except where items are separately priced).

## Payment

- ▶ Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- ▶ Cheques should be made payable to Stocksigns Ltd.
- ▶ Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- ▶ BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.  
Account No. 23111244 Sort code 16-00-15  
**All prices are exclusive of Value Added Tax**
- ▶ Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk) or call 01737 774077 for a copy).

All rights reserved. All of this catalogue is protected by the Laws of Copyright. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise.

## RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you MUST use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at [info@stocksigns.co.uk](mailto:info@stocksigns.co.uk), to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

# Our Services

## Professional Site Survey

**At Stocksigns we pride ourselves on our experience across many industries. We've successfully managed projects from airports and quarries, to schools and commercial premises.**

We have experience with an extensive range of materials from vinyl graphics, through to large illuminated monoliths and everything in between.

If you are embarking on a project and need professional help and support, our site survey specialists are available to help. They can offer advice and expertise to ensure the wayfinding, health and safety and corporate branding in your workplace are legislation compliant and reflective of your company and brand.

## Installation

**Alongside our professional surveyors, Stocksigns have a dedicated team of fitters and installation experts.**

The team operate throughout the UK and over our long history we have experience of installing everything from single signs to managing large scale installation projects.

We recognise the importance of working safely on-site and Stocksigns are proud to be accredited members of the SafeContractor scheme. This accreditation demonstrates that we operate under recognised high health and safety standards.

In addition, all our installation crews are CSCS (Construction Skills Certification Scheme) certified, Asbestos Trained in line with UKATA, certified by UPAF standards to operate Mobile Evaluating Work Platforms and hold current First Aid certificates.

## Delivery Services

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

### Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

### Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

### Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

#### Standard Product Delivery Charges

- ▶ Orders under £20 (Depending on size and weight) - **£1.95**
- ▶ Orders up to £49.00 (Depending on size and weight) - **£6.75**
- ▶ Orders over £50.00 - **FREE**

#### Custom-made Signs Delivery Charges

- ▶ Orders less than 10kgs - **£7.50**
- ▶ Orders 10 - 20 kgs - **£13.50**
- ▶ Orders 20 - 50 kgs - **£25.00**
- ▶ Orders over 50kgs - **POA**

For **Premium Service** delivery rates, export, Scottish Highlands and off-shore locations, please contact our Sales Team on 01737 774077 for prices.

Fire Prevention Signs ..... 28-30

The Health and Safety (Safety Signs and Signals) Regulations 1996 covers the provision of essential fire safety signage. The effective use of clear, accurate and well placed signs is vital to ensuring the safety and wellbeing of those who find themselves in an emergency situation.

At Stocksigns we provide an extensive selection of fire safety prohibition, warning and action notices for use in any setting. Alongside this, our range of fire extinguisher location panels, identification markers and hydrant plates help those tasked with tackling a blaze.

All our signs are manufactured in the UK in our ISO accredited production facility and adhere to the latest British Standards.

For further advice and to discuss your signage requirements, please call our dedicated team on 01737 774077.

# Photoluminescent Fire

Hilume is a PSPA (Photoluminescent Safety Products Association) Class B performing product which means it illuminates in the event of fire. Also available from Stocksigns is the PSPA Class C product which if required should be stated at the time of order. This may incur additional cost.

Both materials are suitable for interior and exterior use.

- ▶ Aesthetic Improvement - New white appearance under usual lighting conditions yet glows bright green when light source is removed.
- ▶ Extremely durable - Resistant to shrinkage and curl. The low profile thinner material is less prone to attention from vandals.
- ▶ Flame retardant - Passing all flame, smoke and toxicity tests
- ▶ UV resistant - Enabling use both indoor and outdoor.

\* Only for use in auditoriums or where a revolving door is in use.

## Easy Mount Sign Frames

These frames are an attractive and practical way to display your safety signage. Designed to fit our most popular size ranges and made from lightweight and durable anodised aluminium, they have an opening at the top to simply slide the signs in. For ceiling mounting, the suspended frame version comes with suspension wires and ceiling clips; while the wall-mounted frame comes complete with fixing screws.

Frames come with fixings but additional fixings can be bought separately (see below)

### Suspended Frames:

66	26923	300mm x 100mm	£35.92
66	23522	350mm x 100mm	£36.56

## Photoluminescent Floor Graphics

66|26379| 400mm dia | £51.43

In situations of emergency evacuation, especially when confronted by power failure, a way guidance system using photoluminescent tapes, signs and markers will help to indicate clearly defined escape routes, saving critical time for the evacuation of the building.

21|31| 16003 | KD | RG

Emergency Escape Designs to BS 5499 Part 4 2000 and BS EN ISO 7010

## Floor Markers / Floor Trail Safe Marker Dots

Photoluminescent floor markers will assist with orientation during evacuation, and enhance your overall way guidance system. These signs will adhere to most clean, smooth floor surfaces and are ideal for reinforcing your safety policy. This product is not suitable for external use.

## Wall and Ceiling Mounted Emergency Escape Signs

When wall coverage is at a premium our space saving emergency escape signs are ideal, especially for low ceilings.

### Wall Mounted

### Ceiling Mounted

## Easy Mount Sign Frames

These frames are an attractive and practical way to display your safety signage. Designed to fit our most popular size ranges and made from lightweight and durable anodised aluminium, they have an opening at the top into which the sign simply slides.

For ceiling mounting, the suspended frame version comes with suspension wires and ceiling clips; while the wall-mounted frame comes complete with fixing screws.

Frames come with fixings but additional fixings can be bought separately (see right).

## Emergency Escape Signs

Conformity with the Health and Safety (Safety Signs and Signals) Regulations 1996  
BS EN ISO 7010.

The emergency escape signs shown here fully conform to the Health and Safety (Safety Signs and Signals) Regulations 1996 which stipulate that all Health, Safety, Emergency escape and Fire equipment signs MUST include a pictorial symbol. As an employer you are required to comply fully with the provisions of these regulations.

## British Standard Signs

Can be used for all escape routes.

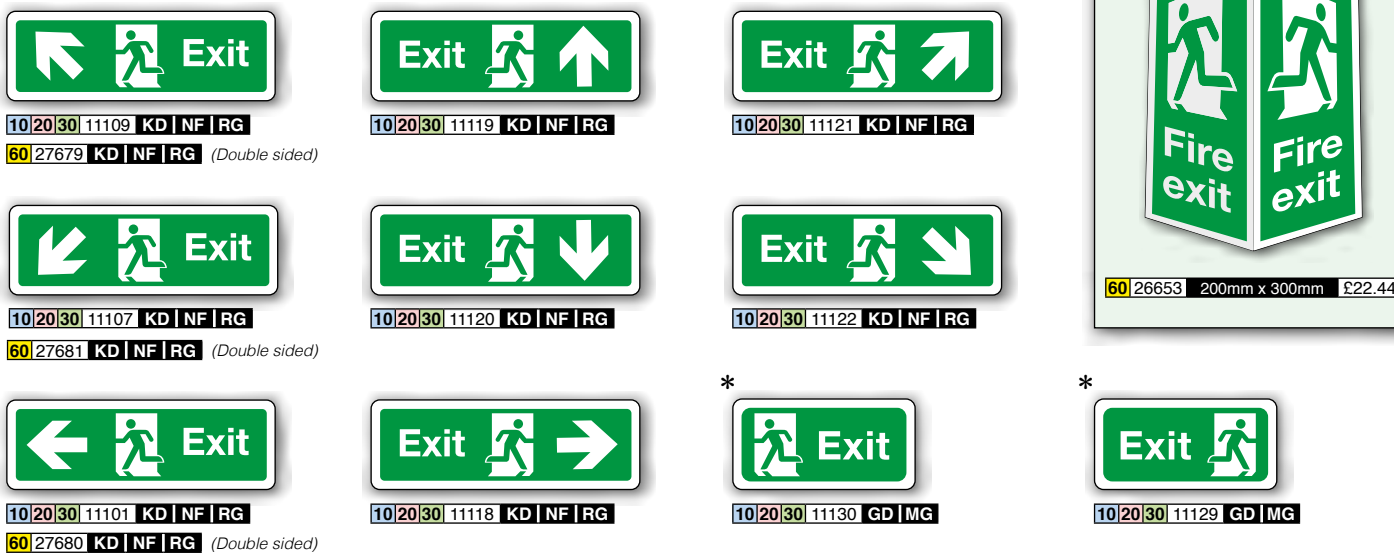

## Projecting Signs

For fixing next to fire exits making it visible from several directions. Manufactured from rigid plastic and attached by concealed screw fixings (supplied). Please note, you will also need a sign above the door:

60|26653 200mm x 300mm £22.44

To be used for your Primary (main) escape route only.

\* Only for use in auditoriums or where a revolving door is in use.

## Electrical Emergency Luminaires

Emergency lighting is designed to automatically illuminate the escape route (i.e. staircases, landings, passageways etc.) upon failure of the supply to the normal artificial lighting. The emergency lighting must comply with BS 5266-1:2011.

### Siting of luminaires:

Luminaires should be sited in the following positions:

- ▶ At each exit door
- ▶ At each intersection of corridors
- ▶ At each change of direction
- ▶ Close to each staircase
- ▶ Close to any change in floor level
- ▶ Close to fire equipment and alarm call point locations
- ▶ At locations that adequately illuminate emergency escape and safety signs

### Maintained / Non-maintained Systems

Non-maintained systems are used in buildings with a limited occupation time, such as offices and shops, and only operate when the power fails. In general, maintained systems are required for places of entertainment and licensed premises and can be on all the time from normal mains supply, remaining on when the power fails.

## DELIVERY OPTIONS

Stocksigns can provide these delivery services:

- ▶ Next day on Standards
- ▶ Next day guaranteed
- ▶ Next day guaranteed before 9.00am
- ▶ Next day guaranteed before 10.30am
- ▶ Next day guaranteed before 12 noon
- ▶ Saturday am
- ▶ Same day on Standards

## Fire Action Notices for Houses of Multiple Occupation

**Fire action**

Please read this and remember what it says. Your life and others' lives may depend on it.

**IF YOU DISCOVER A FIRE -**

1. Operate the nearest fire alarm at once.
2. Call the Fire Brigade.
3. **DO NOT TAKE ANY RISKS**, but if you can, attack the fire with the equipment provided.
4. Otherwise, close a door on the fire if you can, and close all other doors on your way out.
5. Leave the building by the nearest available exit.

**IF YOU HEAR THE FIRE ALARM -**  
Leave the building by the nearest available exit, closing all doors behind you, and report to the assembly point at [ ]

**DO NOT run**  
**DO NOT stop to collect your belongings**  
**DO NOT use the lifts**  
**DO NOT enter the building again until the Fire Officer says you may**

**BEFORE YOU GO TO BED AT NIGHT -**

1. Put out, or turn down as far as possible, all open fires and anything else that could start a fire.
2. Unplug all unnecessary electrical equipment.
3. See that all cookers and heaters are turned off at the mains.
4. See that all ashtrays are safely emptied.
5. **DO NOT leave any clothes, or anything else that might burn, near any heater or open fire.**
6. Shut the kitchen and living-room doors firmly behind you.

10/20/30 11106 JK

**In case of fire**

**IF YOU DISCOVER A FIRE -**

1. Operate the fire alarm by breaking the glass. The alarm will sound automatically.
  - a. Lift the receiver and dial 999
  - b. Give the operator your number and ask for the Fire Brigade
  - c. When the Fire Brigade answer say distinctly - "Fire at" [ ]

**DO NOT put the receiver down until the Fire Brigade have repeated the address**

- d. Wait in a safe area until the Fire Brigade arrives and tell them where the fire is.

10/20/30 11187 JG

## Fire Action Signs for Staff

## Fire Action Signs for Residential Care Homes

**Fire action**

**THE PERSON DISCOVERING A FIRE WILL:**  
Operate the nearest fire alarm.  
(The Fire Brigade is to be called immediately)

**ON HEARING THE FIRE ALARM**  
By night -  
Put on dressing gown and house shoes.  
**DO NOT stop to dress fully.**  
Ensure that others in your room are awake.  
Go to the place of assembly, shutting all doors behind you.

By day -  
Go at once to the place of assembly.  
At all times -  
**ACT QUIETLY.**

**DO NOT STOP TO COLLECT YOUR PERSONAL BELONGINGS.**  
**DO NOT ATTEMPT TO PASS OTHERS ON YOUR WAY TO THE PLACE OF ASSEMBLY.**

The Place of Assembly is [ ]

10/20/30 12220 GG

**Fire action**

1. In the event of fire it is the first duty of all concerned to prevent injury or loss of life.
2. For this purpose, you should make certain that you are familiar with all the means of escape in case of fire. Since there may be an opportunity in the event of a fire, for you to attack it with the nearest fire extinguisher or hose reel, you should also be familiar with how to use them.
3. **IF YOU DISCOVER A FIRE OR one is reported to you, you should -**  
**SOUND THE ALARM!**
4. The Principal or the authorised deputy is responsible for ensuring that the Fire Brigade is called immediately on the sounding of the fire alarm.
5. Immediately after the fire alarm has been sounded, you should -
  1. see that any doors immediately surrounding the fire situation are closed, and
  2. escort persons from the area of the incident, in accordance with the detailed fire drill procedure, ensuring that all doors through which you pass are closed after you, and
  3. when the persons arrive at the assembly point, which is [ ], call the roll and notify the Principal at once of the result (e.g. "all persons present" or "one missing", and the name and likely location, as the case may be).

10/20/30 12221 GG

**Fire action**

**Fire instructions for staff**

Any person discovering a fire

1. Sound the alarm
2. Attack the fire, if possible, with appliances provided

**NOT RISKING PERSONAL INJURY**

On hearing the fire alarm

3. Leave the building by [ ] route.
4. Close all doors behind you if possible.
5. Report to assembly point [ ]

**Do not run**  
**Do not use lifts**  
**Do not re-enter building until safe to do so**

The designated member of staff [ ] should call the fire brigade and take roll call

10/20/30 17125 GJ

## Fire Action Notices for the Physically Impaired

**REFUGE ACTION**

**IN THE EVENT OF FIRE:**  
This refuge provides fire and smoke protection for approximately [ ] minutes.  
The evacuation plan in operation within these premises ensures that assistance will arrive at this point within [ ] minutes.

You are located on [ ]  
Building [ ]

Disabled persons should:

1. Remain calm
2. Wait here until assistance arrives

**1. DO NOT ATTEMPT TO LEAVE THE BUILDING UNASSISTED**  
**2. DO NOT LEAVE THIS POINT EVEN TEMPORARILY**

10/20/30 17090 JK

**EVACUATION FOR DISABLED PEOPLE**

All staff should be aware of the specific needs of a disabled person who needs either from person to person

**Wheelchair Users**  
Assist Wheelchair user along specific escape routes towards the identified refuge point.  
**Do not use lifts**  
**Do not attempt to lift the wheelchair or occupant unless trained to do so**

**People with Impaired Vision**  
Look for people who may be identified as having impaired vision by wearing this sign.  
Look out for people who may be disorientated.  
Call them by name and speak clearly giving instructions.  
Offer your arm to lead them through the evacuation route identified by the running man.  
Provide continual commentary as to where you are going.  
**Do not point - gestures will go unnoticed**

**People with Impaired Hearing**  
These people may not have heard the alarm.  
Attract their attention in some other way.  
Ensure that they follow the evacuation route identified by the escape route sign.

You will need to be sensitive to the following other group of people who may need special attention:  
arthritis    opticians    young children    expectant mothers  
the mentally ill    people with learning disabilities    elderly people

10/20/30 17091 JK

**FIRE INSTRUCTIONS FOR STAFF**

**IF YOU DISCOVER A FIRE:**

- a) Ensure that no-one is in immediate danger.
- b) Raise the alarm by sounding the nearest fire alarm.
- c) Attempt to tackle the fire with the correct appliances unless the fire is beyond obvious control.
- d) If the fire is beyond control evacuate the building closing as many doors as possible.

**IF YOU HEAR THE FIRE ALARM:**

- e) Staff should if necessary see that persons are evacuated from the building and roll call taken.
- f) A designated person should call the fire brigade in accordance with the relevant instructions. Ensure the fire brigade is called to every fire or suspicion of fire.

10/20/30 11082 HK

## Fire Action for Car Parks

**Fire action**

1. Call Fire Brigade immediately.
2. Proceed to nearest available exit.
3. Do not return to your vehicle.

## Air Horn Sign

A good fire alarm system is crucial to saving lives and is also a requirement to any fire safety and prevention plan.

Air horns are ideal fire alarm devices where a conventional fire alarm system is inappropriate.

For example, building sites, concrete plants, quarries, workshops and temporary buildings. They are also suitable for internal and external use.

**60** 06430 300 x 300mm **£44.47** Includes gas horn

**60** 06433 300 x 300mm **£31.95** Blank sign and clip

**69** 06434 300 x 300mm **£21.14** Just gas horn

## Projecting Fire Equipment Signs

Highly visible from several directions, these signs are designed to be fixed above fire equipment where flat signs would not easily be seen from some angles. Signs are supplied with concealed fixing holes allowing easy fixing using only four screws. Size of each sign face is 200 x 300mm.

**FIND MORE** - Projecting Signs p8-9 ▶

## Fire Blanket

**69** 05352 **£24.00**

- ▶ Quality, highly effective 3 ply fabric.
- ▶ Wall mountable slim PVC holder:
- ▶ Size: 1200mm x 1200mm

## Fire Prevention and Action

**10** 2030 11652 **NR**

This fire prevention and action poster gives the reader clear 'at a glance' guidance on general fire prevention good practice.

## SITE SURVEY SPECIALISTS

Ensuring that your premises complies with the latest safety legislation is essential. If you are uncertain as to what exactly is required, a Site Survey can help. Our professional staff can give you the confidence that your signage is compliant with the latest legislation and safety best practices.

- ▶ Carried out at your request and at a time convenient to you.
- ▶ Provides advice on positioning, types of material and size of sign.
- ▶ Ensures that your workplace is complying with appropriate regulations.

**Call: 01737 774077**

# Fire Safety

## Fire Fighting Equipment

### Clearly identify your fire fighting equipment.

These signs contain symbol designs which conform to BS EN ISO 7010. These standards require the location of all fire fighting equipment to be marked in RED.

Available in Aluminium (10 series), Rigid Plastic (20 series), Self-Adhesive Vinyl (30 series) and Photoluminescent (see page 8). These signs allow easy identification of the location of fire fighting equipment. Please call our **Sales Team on 01737 774077** if you require any advice on the use of these signs.

10|20|30 17127 GF

In order to fulfil your legal obligations it is a requirement to display the details of your designated fire marshals.

Our range allows for names, photographs and their location within the building to be included.

## Fire Extinguisher Location Panels

Manufactured from 1.6swg aluminium, these fire extinguisher location panels both identify the extinguisher and give a visual warning as to when the extinguisher has been used and not replaced. This signage solution is easily fixable with your existing fire extinguisher brackets. If you require brackets, we recommend getting in contact with your manufacturer.

Please note, extinguishers are not included, but can be sourced by Stocksigns.

10 12196 600mm x 900mm £100.89

10 12196 600mm x 900mm £100.89

10 17006 310mm x 900mm £14.97

## Fire Extinguisher Identification to BS EN3 and BS 7863

Under BS EN 3 operative from the 1st January 1997, all new certified fire extinguishers used in European Union countries must feature RED bodies. In line with familiar UK practice, BS 7863 allows manufacturers to affix coloured identification panels on or above the operating instructions covering no more than 5% of the body surface area and visible through a horizontal arc of 180 degrees when the extinguisher is mounted. The signs featured immediately below reflect the regulations.

**If you are unsure or require advice on the use of these signs, please call us on 01737 774077.**

**WATER**

Safe for use on wood, paper & fabric fires.

**DO NOT** use on electrical or flammable metal fires.
