

# The **SIGN** Catalogue

Your comprehensive signage directory

# Legislation and Guidance

The Health and Safety (Safety Signs and Signals) Regulations 1996 require employers to provide and maintain safety signs where there is significant risk to health and safety that has not been avoided or controlled by other means (e.g. safe systems of work) provided that the use of a sign can help reduce the risk.

Throughout this catalogue you will find guidance about;

- ▶ Risk assessment
- ▶ Use of pictorial symbols
- ▶ General health and safety signs
- ▶ Fire/emergency escape signs
- ▶ Positioning of signs
- ▶ Marking of hazardous storage areas and obstacles
- ▶ Dangerous locations
- ▶ Identification of pipelines

ISO 7010 is the International standard for safety signs.

ISO 7010 was developed to provide consistency in design across the EU. Stocksigns has incorporated the new designs and you may notice some design changes to the symbols whereas others are virtually unchanged.

The majority of British Standard symbols have been adopted by ISO and as such have now been encompassed into UK safety legislation.

## Use of Symbols and Graphical Images

The use of symbols and graphical images is a simple safety system used to convey safety messages at a glance. Colours and symbols, appropriately used, provide information and warnings of hazards which are essential to personal safety.

### Prohibition

A red circular band with diagonal cross bar on a white background, the symbol within the circle to be black denoting a safety sign that indicates that a certain behaviour is prohibited.

### Hazard

A yellow triangle with black border and symbol within the yellow area denoting a safety sign that gives warning of a hazard.

### Mandatory

A blue circle with white symbol denoting a sign that indicates that a specific course of action must be taken.

### Fire Equipment

A red rectangle or square with symbol in white denoting a safety sign that indicates the location of fire fighting equipment.

### Safe Condition

A green rectangle or square with symbol or text in white denoting a safety sign providing information about safe conditions.

## LOOK OUT FOR

**Best Sellers**  
The best selling signs and products.

**New**  
Signs and ranges new to this catalogue.

**Updated**  
Signs updated to the latest ISO 2018 symbols.

**Great Value**  
Products that represent excellent value for money.

## Stocksigns Accreditations and Associations

# Material Choices

## Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs.

Series code - 10

## Reflective Signs

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

Series codes - Traffic 70, Safety 75

## Rigid PVC Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners, no holes as standard.

Series code - 20

## Correx

A durable yet lightweight corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

Bespoke material on request

## Photoluminescent

(Rigid Plastic and SA Vinyl)

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with the PSPA, standard signs are produced on Class B, with Class C material available on request.

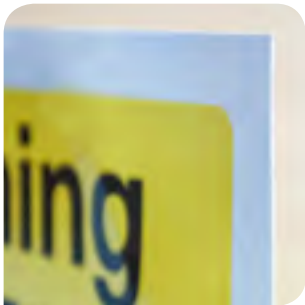

Series codes - RP 21 / SAV 31

## Foamex

A versatile PVC foam sheet with a smooth matt finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

Bespoke material on request

## Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

Series code - 30

## Acrylic

Acrylic is a versatile material that is both lightweight and shatterproof. Best suited to internal signs. This offers a cost effective and safe alternative to using glass. Available in 3, 5 and 10mm thicknesses.

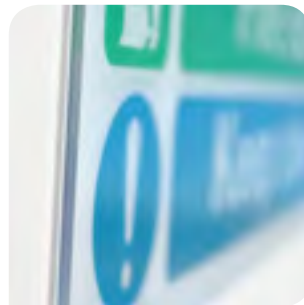

Bespoke material on request

## Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal and external use.

Series code - 11

## Polycarbonate

Polycarbonate is a clear material used as an alternative to acrylic. A very versatile material with a gloss finish. Compared to acrylic it has a higher impact resistance, is more UV stable and temperature resistant.

Bespoke material on request

## Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

Series code - 60

## Special Effect

### Aluminium Composite

Available in both mirrored gold and brushed silver finish. These special effect finishes create a contemporary look when used on internal signage.

Bespoke material on request

## Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

For further advice speak to our sales team on 01737 774077.

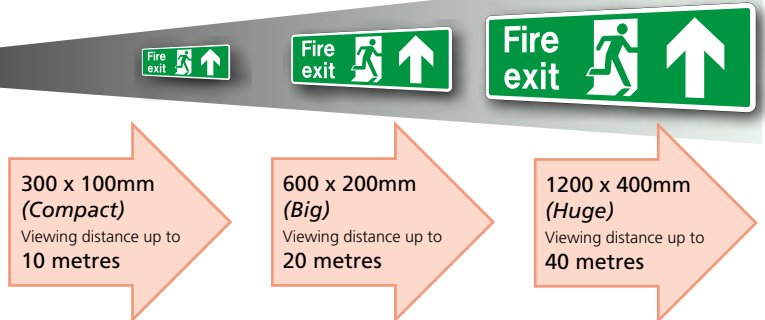

Recommended installation heights:

**Above doors:**

2m - 2.5m  
from floor level to base of sign.

**Directional wall fixed signs:**

1.4m - 2.0m  
from floor level to base of sign.

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

e.g: **10** = Aluminium  
**20** = Rigid Plastic  
**30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

### How to Order

#### STEP 1

- ▶ Find the sign design you require.
- ▶ Note the product code.

#### STEP 2

- ▶ Choose the material you require.
- ▶ Use our material guide on the left to select the most suitable material for the job.

#### STEP 3

- ▶ Look at the sizes your sign is available in.
- ▶ Use the price grids for size codes.
- ▶ Choose the most appropriate size using the installation guide above.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

Prices can be found by using the grids at the bottom of the pages or in the price list enclosed. (Except where items are separately priced).

## Payment

- ▶ Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- ▶ Cheques should be made payable to Stocksigns Ltd.
- ▶ Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- ▶ BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.  
Account No. 23111244 Sort code 16-00-15  
**All prices are exclusive of Value Added Tax**
- ▶ Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk) or call 01737 774077 for a copy).

## RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you MUST use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at [info@stocksigns.co.uk](mailto:info@stocksigns.co.uk), to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

# Our Services

## Professional Site Survey

**At Stocksigns we pride ourselves on our experience across many industries. We've successfully managed projects from airports and quarries, to schools and commercial premises.**

We have experience with an extensive range of materials from vinyl graphics, through to large illuminated monoliths and everything in between.

If you are embarking on a project and need professional help and support, our site survey specialists are available to help. They can offer advice and expertise to ensure the wayfinding, health and safety and corporate branding in your workplace are legislation compliant and reflective of your company and brand.

## Installation

**Alongside our professional surveyors, Stocksigns have a dedicated team of fitters and installation experts.**

The team operate throughout the UK and over our long history we have experience of installing everything from single signs to managing large scale installation projects.

We recognise the importance of working safely on-site and Stocksigns are proud to be accredited members of the SafeContractor scheme. This accreditation demonstrates that we operate under recognised high health and safety standards.

In addition, all our installation crews are CSCS (Construction Skills Certification Scheme) certified, Asbestos Trained in line with UKATA, certified by UPAF standards to operate Mobile Evaluating Work Platforms and hold current First Aid certificates.

## Delivery Services

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

### Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

### Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

### Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

#### Standard Product Delivery Charges

- ▶ Orders under £20 (Depending on size and weight) - **£1.95**
- ▶ Orders up to £49.00 (Depending on size and weight) - **£6.75**
- ▶ Orders over £50.00 - **FREE**

#### Custom-made Signs Delivery Charges

- ▶ Orders less than 10kgs - **£7.50**
- ▶ Orders 10 - 20 kgs - **£13.50**
- ▶ Orders 20 - 50 kgs - **£25.00**
- ▶ Orders over 50kgs - **POA**

For **Premium Service** delivery rates, export, Scottish Highlands and off-shore locations, please contact our Sales Team on 01737 774077 for prices.

# First Aid and Safety Posters

- Pocket Guides & Training Aids... 80-82

Throughout 2016/17, the Health and Safety Executive estimate over 600,00 workers suffered a non-fatal injury as a result of work activity. This accounted for around 5.5 million working days lost.

Our range of safe conditions and first aid signs provide clear guidance to both the injured and those responding when an accident occurs.

In this section you will find permanent, photoluminescent and temporary signs, all available alongside an extensive range of Safety Posters and Pocket Guides, which are excellent training materials and aide memoires for staff and visitors alike.

The First Aid Station display shown on page 72 is the ideal informational display to ensure the company accident book, first aid kit and records documents are all kept in one central location.

For further advice and to discuss your signage requirements, please call our dedicated team on 01737 774077.

# Safe Condition and First Aid

## Resuscitation and First Aid Posters

Recommendation is made in the Guidance on The Electricity at Work Regulations 1989 for emergency resuscitation procedures to be displayed in locations where people may be at greater risk of electric shock.

**FIND MORE - >>>**  
For our FULL range of Safety Posters  
- see pages 74-79

10 20 30 12161 NR

The electricity at work regulations 1989 call for emergency resuscitation procedures to be displayed.

**Electric Shock Emergency Action**

- 1 Switch off power.
- 2 Call for assistance.
- 3 If power cannot be switched off, push or pull the casualty clear of the electrical source, using any dry non conductive material available to safeguard yourself.
- 4 Check for response - if no response, open the airway and remove any obvious obstructions in the mouth.

**Emergency Resuscitation Treatment**

- 1 Tilt head backwards, lift chin upwards.
- 2 Maintain position as in diagram 1. Check breathing. Look, listen for breathing for no more than 10 seconds.
- 3 If no breathing, ask a helper to phone for an AED. If on your own and unconsciousness is due to drowning, give 5 initial rescue breaths and give chest compressions for 2 minutes before making call.
- 4 No breathing. Commence chest compressions, give 30 chest compressions, give 2 rescue breaths. Alternate 30 chest compressions with 2 rescue breaths until help arrives.
- 5 Chest compressions only. If unable to give rescue breaths then repeat chest compressions at a rate of 100-120 per minute until help arrives.
- 6 Circulation and breathing arrests. Treat life threatening injuries and place in recovery position.

## First Aid Burns and Scalds

1. Place the burnt area under cold running water immediately for at least ten minutes. If it is a serious burn ensure an ambulance is called.
  2. If possible remove any items that may prevent swelling to burnt area: belts, boots, watches or rings.
  3. Place a clean, sterile dressing over the burnt area.
  4. Check that if required an ambulance has been called and check that the accident has been reported to the correct individuals.
1. DO NOT apply any lotion, ointment or creams.
  2. DO NOT attempt to remove any item of clothing that may be sticking to the burnt area.
  3. DO NOT touch or place anything other than a sterile dressing on a burn.
  4. DO NOT burst any blisters that may form on or around the wound.

**FIRST AID**

**Basic Rules**

- 1 Do not move the patient.
- 2 If the patient is unconscious and not breathing follow instructions on reverse. If breathing, place in recovery position as shown in diagram 8 overhead.
- 3 Keep the patient warm and covered.
- 4 Do not give the patient food, drink or cigarettes.
- 5 Loosen any tight or restrictive clothing.
- 6 Reassure the patient.
- 7 If you have any doubts about the injury call an ambulance.

**Bleeding**

- 1 Raise the wound.
- 2 Apply pressure to the wound with your hand or a clean dry cloth until the bleeding has stopped.
- 3 Apply a dressing.

**Burns**

- 1 Cool the skin immediately with running water and confine this treatment for at least 10 minutes.
- 2 Remove any restrictive jewellery.
- 3 Apply a clean dressing.

## Large Format Digital Printing

A recent addition to the Stocksigns' range of capabilities is the acquisition of the latest in digital sign technology - wide format, inkjet systems.

- ▶ This latex inkjet technology enables printing superb quality images onto different types of media, ranging from vinyl to paper and banners on a print area of up to 1550mm wide.
- ▶ The water-based latex inkjet system produces odourless prints, reducing impact on the environment with Eco Mark-Certified ink cartridges.

- ▶ Our UV-Inkjet technology prints directly to substrate enabling a faster turnaround on a vast range of materials.
- ▶ Capable of printing full colour graphics suitable for outdoor environments.
- ▶ To further extend the life expectancy of the sign protective overlay film (POF) can be applied.
- ▶ This print technology can be used to make not only signs, but also site sign boards, exhibition panels and point of sale material.

For sample prints or more information call our Graphics Department on 01737 774077.

## Guidance Posters and Training Aids

### Health and Safety Law Poster

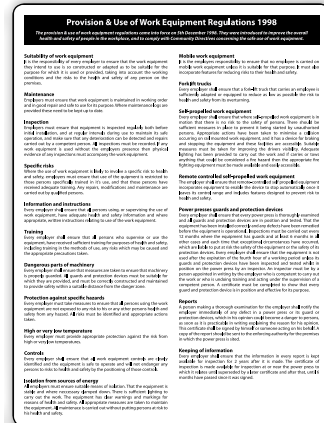

Employers have a legal duty to display this poster in a prominent position in each workplace.

Posters are available in both A3 and A2 sizes and are supplied in a laminated finish.

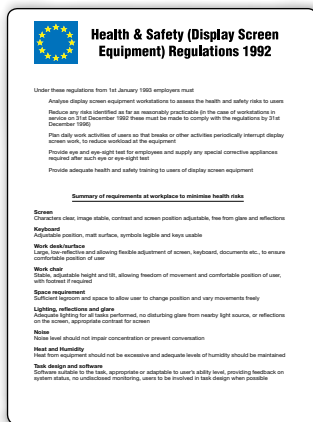

63 21190 420mm x 594mm £17.50 Laminated  
63 06792 297x420 (A3 size) £14.50 Laminated

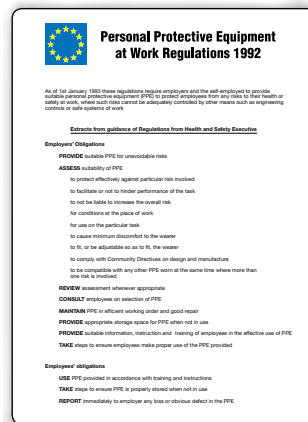

Although in some cases it is a legal requirement to display Regulations Guidance posters, the main benefit remains as an invaluable staff training aid. These signs help raise staff awareness and act as constant reminders. Some of these posters are also available in our pocket guide format. Current legislation updates will be reflected in these products and, as such, they are subject to change.

**Health & Safety (Display Screen Equipment) Regulations**

Under these regulations from 1st January 1993 employers must:

- Analyse display screen equipment workstations to assess the health and safety risks to users
- Reduce any risks identified as far as reasonably practicable (in the case of workstations in service on 31st December 1992 these must be made to comply with the regulations by 31st December 1993)
- Plan daily work activities of users so that breaks or other activities periodically interrupt display screen work, to reduce workload at the equipment
- Provide eye and eye-sight test for employees and supply any special corrective appliances required after such eye or eye-sight test
- Provide adequate health and safety training to users of display screen equipment

**Manual Handling Operation Regulations 1992**

As of 1st January 1993 these regulations, made under the Health and Safety at Work Act 1974, place additional duties on employers to:

- Avoid hazardous manual handling operations so far as reasonably practicable
- Assess unavoidable manual handling operations and reassess as necessary
- Take steps to reduce the risk of injury from such operations so far as reasonably practicable

**Guidelines to AVOIDING INJURY BY SAFE LIFTING**

Does the load have to be moved?  
If so, think about it first!

**ASSESS** weight, density, centre of gravity, size of grip, size of handholds, surface texture

**USE** handling aids if possible

mechanical aid to lift and/or move load

appropriate personal protective equipment and clothing

DO you need help from someone else?  
**CHECK** where best to go – in it does?  
**CHECK** your route is unobstructed and the floor surface clean and dry  
**CAN** you stop and rest if necessary?  
**PLAN** the grip beforehand, hold firmly with both hands, with back upright

Stocksigns 66617 © STOCKSIGNS

Front

- Plan the lift - assess weight, route, etc.
- Place feet apart, close to load. Bend knees slightly, around load if possible. Keep back straight, shoulders and hip level and in line.
- Grip load securely, with arms close to trunk, use legs to lift up trunk and load.
- Hold load with heaviest side close to the trunk. Move feet, do not twist body.
- Adjust load in position after putting down.
