

# The **SIGN** Catalogue

Your comprehensive signage directory

# Legislation and Guidance

The Health and Safety (Safety Signs and Signals) Regulations 1996 require employers to provide and maintain safety signs where there is significant risk to health and safety that has not been avoided or controlled by other means (e.g. safe systems of work) provided that the use of a sign can help reduce the risk.

Throughout this catalogue you will find guidance about;

- ▶ Risk assessment
- ▶ Use of pictorial symbols
- ▶ General health and safety signs
- ▶ Fire/emergency escape signs
- ▶ Positioning of signs
- ▶ Marking of hazardous storage areas and obstacles
- ▶ Dangerous locations
- ▶ Identification of pipelines

ISO 7010 is the International standard for safety signs.

ISO 7010 was developed to provide consistency in design across the EU. Stocksigns has incorporated the new designs and you may notice some design changes to the symbols whereas others are virtually unchanged.

The majority of British Standard symbols have been adopted by ISO and as such have now been encompassed into UK safety legislation.

## Use of Symbols and Graphical Images

The use of symbols and graphical images is a simple safety system used to convey safety messages at a glance. Colours and symbols, appropriately used, provide information and warnings of hazards which are essential to personal safety.

### Prohibition

A red circular band with diagonal cross bar on a white background, the symbol within the circle to be black denoting a safety sign that indicates that a certain behaviour is prohibited.

### Hazard

A yellow triangle with black border and symbol within the yellow area denoting a safety sign that gives warning of a hazard.

### Mandatory

A blue circle with white symbol denoting a sign that indicates that a specific course of action must be taken.

### Fire Equipment

A red rectangle or square with symbol in white denoting a safety sign that indicates the location of fire fighting equipment.

### Safe Condition

A green rectangle or square with symbol or text in white denoting a safety sign providing information about safe conditions.

## LOOK OUT FOR

### Best Sellers

The best selling signs and products.

### New

Signs and ranges new to this catalogue.

### Updated

Signs updated to the latest ISO 2018 symbols.

### Great Value

Products that represent excellent value for money.

## Stocksigns Accreditations and Associations

# Material Choices

## Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs.

*Series code - 10*

## Reflective Signs

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

*Series codes - Traffic 70, Safety 75*

## Rigid PVC Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners, no holes as standard.

*Series code - 20*

## Correx

A durable yet lightweight corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

*Bespoke material on request*

## Photoluminescent

*(Rigid Plastic and SA Vinyl)*

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with the PSPA, standard signs are produced on Class B, with Class C material available on request.

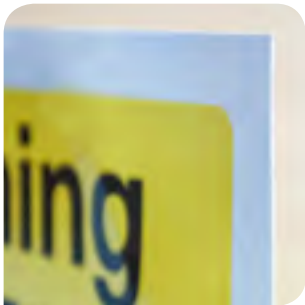

*Series codes - RP 21 / SAV 31*

## Foamex

A versatile PVC foam sheet with a smooth matt finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

*Bespoke material on request*

## Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

*Series code - 30*

## Acrylic

Acrylic is a versatile material that is both lightweight and shatterproof. Best suited to internal signs. This offers a cost effective and safe alternative to using glass. Available in 3, 5 and 10mm thicknesses.

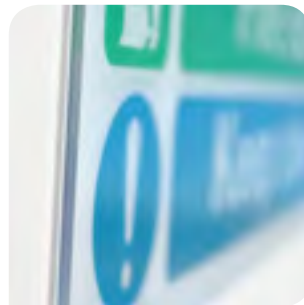

*Bespoke material on request*

## Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal and external use.

*Series code - 11*

## Polycarbonate

Polycarbonate is a clear material used as an alternative to acrylic. A very versatile material with a gloss finish. Compared to acrylic it has a higher impact resistance, is more UV stable and temperature resistant.

*Bespoke material on request*

## Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

*Series code - 60*

## Special Effect

### Aluminium Composite

Available in both mirrored gold and brushed silver finish. These special effect finishes create a contemporary look when used on internal signage.

*Bespoke material on request*

## Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

For further advice speak to our sales team on 01737 774077.

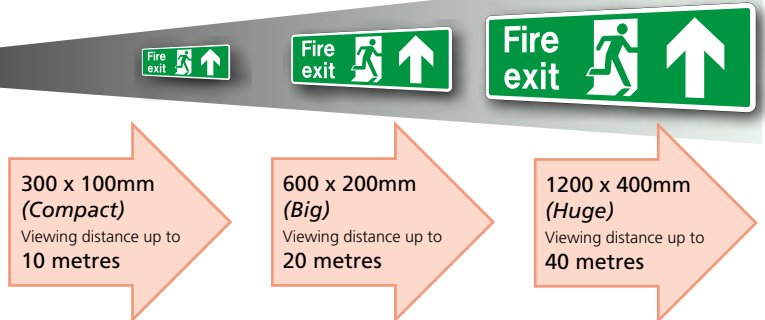

Recommended installation heights:

**Above doors:**

2m - 2.5m  
from floor level to base of sign.

**Directional wall fixed signs:**

1.4m - 2.0m  
from floor level to base of sign.

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

e.g: **10** = Aluminium  
**20** = Rigid Plastic  
**30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

### How to Order

#### STEP 1

- ▶ Find the sign design you require.
- ▶ Note the product code.

#### STEP 2

- ▶ Choose the material you require.
- ▶ Use our material guide on the left to select the most suitable material for the job.

#### STEP 3

- ▶ Look at the sizes your sign is available in.
- ▶ Use the price grids for size codes.
- ▶ Choose the most appropriate size using the installation guide above.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

Prices can be found by using the grids at the bottom of the pages or in the price list enclosed. (Except where items are separately priced).

## Payment

- ▶ Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- ▶ Cheques should be made payable to Stocksigns Ltd.
- ▶ Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- ▶ BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.  
Account No. 23111244 Sort code 16-00-15  
**All prices are exclusive of Value Added Tax**
- ▶ Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk) or call 01737 774077 for a copy).

All rights reserved. All of this catalogue is protected by the Laws of Copyright. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise.

## RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you MUST use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at [info@stocksigns.co.uk](mailto:info@stocksigns.co.uk), to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

# Our Services

## Professional Site Survey

**At Stocksigns we pride ourselves on our experience across many industries. We've successfully managed projects from airports and quarries, to schools and commercial premises.**

We have experience with an extensive range of materials from vinyl graphics, through to large illuminated monoliths and everything in between.

If you are embarking on a project and need professional help and support, our site survey specialists are available to help. They can offer advice and expertise to ensure the wayfinding, health and safety and corporate branding in your workplace are legislation compliant and reflective of your company and brand.

## Installation

**Alongside our professional surveyors, Stocksigns have a dedicated team of fitters and installation experts.**

The team operate throughout the UK and over our long history we have experience of installing everything from single signs to managing large scale installation projects.

We recognise the importance of working safely on-site and Stocksigns are proud to be accredited members of the SafeContractor scheme. This accreditation demonstrates that we operate under recognised high health and safety standards.

In addition, all our installation crews are CSCS (Construction Skills Certification Scheme) certified, Asbestos Trained in line with UKATA, certified by UPAF standards to operate Mobile Evaluating Work Platforms and hold current First Aid certificates.

## Delivery Services

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

### Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

### Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

### Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

#### Standard Product Delivery Charges

- ▶ Orders under £20 (Depending on size and weight) - **£1.95**
- ▶ Orders up to £49.00 (Depending on size and weight) - **£6.75**
- ▶ Orders over £50.00 - **FREE**

#### Custom-made Signs Delivery Charges

- ▶ Orders less than 10kgs - **£7.50**
- ▶ Orders 10 - 20 kgs - **£13.50**
- ▶ Orders 20 - 50 kgs - **£25.00**
- ▶ Orders over 50kgs - **POA**

For **Premium Service** delivery rates, export, Scottish Highlands and off-shore locations, please contact our Sales Team on 01737 774077 for prices.

**At Stocksigns we offer an extensive range of signs and products to manage work environments where there is potential exposure to Hazardous Substances.**

Our products ensure that workers who are in contact with dangerous chemicals, gases and hazards are used, managed and stored correctly.

Chemical labelling is in line with the *UN Globally Harmonised System of Classification and Labelling of Chemicals*. This was devised in recognition of the global trade in chemicals and the need to develop an 'internationally harmonised approach to classification and labelling' which would be easily identified throughout the world.

As well as effective labelling a rapid response in the event of spills and accidents is vital. On page 114 you will find a selection of signs advising the action to be taken in the event of a spillage and a practical range of kits to ensure staff are safe and protected.

For further advice and to discuss your signage requirements, please call our dedicated team on 01737 774077.

# Pipeline Identification

Manufactured from sub-surface printed clear flexible polyester with high-bond adhesive backing, these markers are easy to fix and have a wipe clean surface.

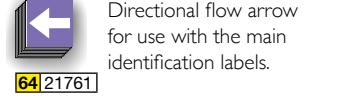

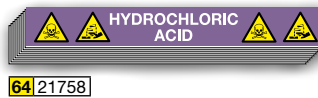

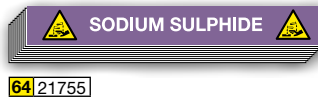

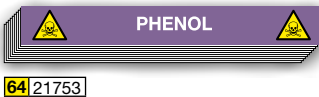

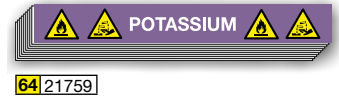

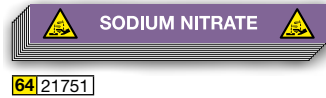

Background colours conform to the pipeline colour recommendations of BS 1710 1984, and have safety symbols, where appropriate, in accordance with the Health & Safety (Safety Signs & Signals) Regulations 1996. Available in three size options, these markers are supplied in packs of ten of the same type.

## WHAT IS LEGALLY REQUIRED?

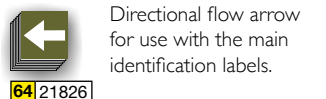

The Health & Safety (Safety Signs and Signals) Regulations have made it a legal requirement to mark visible pipework that transports dangerous substances or preparations in the workplace with warning symbols on a coloured background.

**BS1710:** Identification of Pipelines and Services recommends a system of identification through the use of colour. This provides a comprehensive means of enhancing safety in the work environment.

### CUSTOM MADE LABELS

As manufacturers we are able to offer:

- ▶ A wide range of self-adhesive labels cut and printed to almost any design imaginable.
- ▶ A choice of production methods (screen-printed, hot-foil printed and thermal-transfer), which gives us the flexibility to produce labels to almost any given specification.
- ▶ Large and small quantities are welcomed and labels can be supplied in either sheet or roll format. (We may not offer roll format on smaller quantities.)
- ▶ See page 193 for more information on Custom made labels.

## UN Placards in Accordance with the International Maritime Dangerous Goods Code

UN substance numbering is an IMDG requirement on road and rail tanks, freight vehicles, freight wagons and containers and is displayed by either the use of diamond shaped placards 250 x 250mm (minimum size) with black 65mm high numerals or an orange rectangular panel 300 x 120mm with 65mm high numerals (as in centre margin).

**N.B.** When the latter method is used the panel must be accompanied by the appropriate hazard diamond with class number as shown in the IMDG range on page 117.

## IATA / ICAO (labels in rolls with class numbers)

All the above labels are supplied in 15m rolls with each label 100mm x 100mm except where specified otherwise. These labels are printed on self-adhesive vinyl tape, laminated with transparent polypropylene and perforated between each label. Price £38.26 150 per roll

## ADR, RID, IMDG, IATA and ICAO (labels with class numbers)

New requirements following the UN Model Regulations no longer make a distinction between primary and subsidiary warning labels for ADR, RID, IMDG, IATA and ICAO. In the future both will include the Class number.

Printed labels on self-adhesive vinyl, sold singly. Vinyl material conforms to the marine use specification of BS 5609.

# Hazardous Substance Management

## Composite Labels

Composite labels manufactured with pre-printed chemical names as this example. Labels in all of the four sizes shown are supplied in minimum quantities of 100 labels per type. Call our Sales Team on 01737 774077 for details.

Custom-made labels

Label Sizes
52 x 74mm
74 x 105mm
105 x 148mm
148 x 210mm

“Excellent service, both via email or in person. Quotes and artwork are provided promptly and products are always good quality.”  
Housing Association Trustpilot Reviewer

## PROTECT YOUR SIGNS...USE P.O.F

P.O.F. can be overlaminated on any aluminium or plastic sign. Together with Seldon Graffiti Remover it allows:

- ▶ Easier removal of graffiti.
- ▶ Resistance to scuffs.
- ▶ UV protection - anti fade.
- ▶ Easier to clean
- ▶ Extends life of sign

## CLP Regulation

The new European Regulation on Classification, Labelling and Packaging of Substances and Mixtures (EC1272/2008), known as the CLP Regulation, came into force in January 2009. There is a two stage transition process with substances being re-labelled by 1st December 2010, and mixtures being re-labelled by 1st June 2015.

Supplied in strips of 20 or in rolls of 100 labels. When ordering please add /20, or /100 after the reference number. See price grid below for prices.
