Legislation and Guidance

The Health and Safety (Safety Signs and Signals) Regulations 1996 require employers to provide and maintain safety signs where there is significant risk to health and safety that has not been avoided or controlled by other means (e.g. safe systems of work) provided that the use of a sign can help reduce the risk.

Throughout this catalogue you will find guidance about;

- ▶ Risk assessment
- ▶ Use of pictorial symbols
- ▶ General health and safety signs
- ▶ Fire/emergency escape signs
- ▶ Positioning of signs
- ▶ Marking of hazardous storage areas and obstacles
- ▶ Dangerous locations
- ▶ Identification of pipelines

ISO 7010 is the International standard for safety signs.

ISO 7010 was developed to provide consistency in design across the EU. Stocksigns has incorporated the new designs and you may notice some design changes to the symbols whereas others are virtually unchanged.

The majority of British Standard symbols have been adopted by ISO and as such have now been encompassed into UK safety legislation.

Use of Symbols and Graphical Images

The use of symbols and graphical images is a simple safety system used to convey safety messages at a glance. Colours and symbols, appropriately used, provide information and warnings of hazards which are essential to personal safety.

Prohibition

A red circular band with diagonal cross bar on a white background, the symbol within the circle to be black denoting a safety sign that indicates that a certain behaviour is prohibited.

Hazard

A yellow triangle with black border and symbol within the yellow area denoting a safety sign that gives warning of a hazard.

Mandatory

A blue circle with white symbol denoting a sign that indicates that a specific course of action must be taken.

Fire Equipment

A red rectangle or square with symbol in white denoting a safety sign that indicates the location of fire fighting equipment.

Safe Condition

A green rectangle or square with symbol or text in white denoting a safety sign providing information about safe conditions.
