

# The **SIGN** Catalogue

Your comprehensive signage directory

# Legislation and Guidance

The Health and Safety (Safety Signs and Signals) Regulations 1996 require employers to provide and maintain safety signs where there is significant risk to health and safety that has not been avoided or controlled by other means (e.g. safe systems of work) provided that the use of a sign can help reduce the risk.

Throughout this catalogue you will find guidance about;

- ▶ Risk assessment
- ▶ Use of pictorial symbols
- ▶ General health and safety signs
- ▶ Fire/emergency escape signs
- ▶ Positioning of signs
- ▶ Marking of hazardous storage areas and obstacles
- ▶ Dangerous locations
- ▶ Identification of pipelines

ISO 7010 is the International standard for safety signs.

ISO 7010 was developed to provide consistency in design across the EU. Stocksigns has incorporated the new designs and you may notice some design changes to the symbols whereas others are virtually unchanged.

The majority of British Standard symbols have been adopted by ISO and as such have now been encompassed into UK safety legislation.

## Use of Symbols and Graphical Images

The use of symbols and graphical images is a simple safety system used to convey safety messages at a glance. Colours and symbols, appropriately used, provide information and warnings of hazards which are essential to personal safety.

### Prohibition

A red circular band with diagonal cross bar on a white background, the symbol within the circle to be black denoting a safety sign that indicates that a certain behaviour is prohibited.

### Hazard

A yellow triangle with black border and symbol within the yellow area denoting a safety sign that gives warning of a hazard.

### Mandatory

A blue circle with white symbol denoting a sign that indicates that a specific course of action must be taken.

### Fire Equipment

A red rectangle or square with symbol in white denoting a safety sign that indicates the location of fire fighting equipment.

### Safe Condition

A green rectangle or square with symbol or text in white denoting a safety sign providing information about safe conditions.

## LOOK OUT FOR

**Best Sellers**  
The best selling signs and products.

**New**  
Signs and ranges new to this catalogue.

**Updated**  
Signs updated to the latest ISO 2018 symbols.

**Great Value**  
Products that represent excellent value for money.

## Stocksigns Accreditations and Associations

# Material Choices

## Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs.

*Series code - 10*

## Reflective Signs

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

*Series codes - Traffic 70, Safety 75*

## Rigid PVC Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners, no holes as standard.

*Series code - 20*

## Correx

A durable yet lightweight corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

*Bespoke material on request*

## Photoluminescent

*(Rigid Plastic and SA Vinyl)*

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with the PSPA, standard signs are produced on Class B, with Class C material available on request.

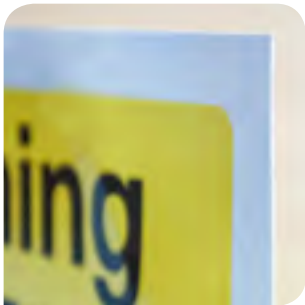

*Series codes - RP 21 / SAV 31*

## Foamex

A versatile PVC foam sheet with a smooth matt finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

*Bespoke material on request*

## Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

*Series code - 30*

## Acrylic

Acrylic is a versatile material that is both lightweight and shatterproof. Best suited to internal signs. This offers a cost effective and safe alternative to using glass. Available in 3, 5 and 10mm thicknesses.

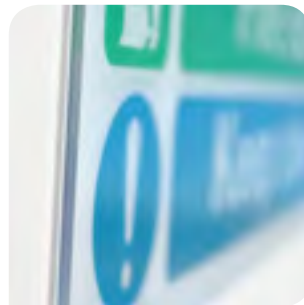

*Bespoke material on request*

## Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal and external use.

*Series code - 11*

## Polycarbonate

Polycarbonate is a clear material used as an alternative to acrylic. A very versatile material with a gloss finish. Compared to acrylic it has a higher impact resistance, is more UV stable and temperature resistant.

*Bespoke material on request*

## Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

*Series code - 60*

## Special Effect

### Aluminium Composite

Available in both mirrored gold and brushed silver finish. These special effect finishes create a contemporary look when used on internal signage.

*Bespoke material on request*

## Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

For further advice speak to our sales team on 01737 774077.

Recommended installation heights:

**Above doors:**

2m - 2.5m  
from floor level to base of sign.

**Directional wall fixed signs:**

1.4m - 2.0m  
from floor level to base of sign.

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

e.g: **10** = Aluminium  
**20** = Rigid Plastic  
**30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

### How to Order

#### STEP 1

- ▶ Find the sign design you require.
- ▶ Note the product code.

#### STEP 2

- ▶ Choose the material you require.
- ▶ Use our material guide on the left to select the most suitable material for the job.

#### STEP 3

- ▶ Look at the sizes your sign is available in.
- ▶ Use the price grids for size codes.
- ▶ Choose the most appropriate size using the installation guide above.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

Prices can be found by using the grids at the bottom of the pages or in the price list enclosed. (Except where items are separately priced).

## Payment

- ▶ Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- ▶ Cheques should be made payable to Stocksigns Ltd.
- ▶ Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- ▶ BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.  
Account No. 23111244 Sort code 16-00-15  
**All prices are exclusive of Value Added Tax**
- ▶ Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk) or call 01737 774077 for a copy).

All rights reserved. All of this catalogue is protected by the Laws of Copyright. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise.

## RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you MUST use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at [info@stocksigns.co.uk](mailto:info@stocksigns.co.uk), to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

# Our Services

## Professional Site Survey

**At Stocksigns we pride ourselves on our experience across many industries. We've successfully managed projects from airports and quarries, to schools and commercial premises.**

We have experience with an extensive range of materials from vinyl graphics, through to large illuminated monoliths and everything in between.

If you are embarking on a project and need professional help and support, our site survey specialists are available to help. They can offer advice and expertise to ensure the wayfinding, health and safety and corporate branding in your workplace are legislation compliant and reflective of your company and brand.

## Installation

**Alongside our professional surveyors, Stocksigns have a dedicated team of fitters and installation experts.**

The team operate throughout the UK and over our long history we have experience of installing everything from single signs to managing large scale installation projects.

We recognise the importance of working safely on-site and Stocksigns are proud to be accredited members of the SafeContractor scheme. This accreditation demonstrates that we operate under recognised high health and safety standards.

In addition, all our installation crews are CSCS (Construction Skills Certification Scheme) certified, Asbestos Trained in line with UKATA, certified by UPAF standards to operate Mobile Evaluating Work Platforms and hold current First Aid certificates.

## Delivery Services

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

### Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

### Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

### Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

#### Standard Product Delivery Charges

- ▶ Orders under £20 (Depending on size and weight) - **£1.95**
- ▶ Orders up to £49.00 (Depending on size and weight) - **£6.75**
- ▶ Orders over £50.00 - **FREE**

#### Custom-made Signs Delivery Charges

- ▶ Orders less than 10kgs - **£7.50**
- ▶ Orders 10 - 20 kgs - **£13.50**
- ▶ Orders 20 - 50 kgs - **£25.00**
- ▶ Orders over 50kgs - **POA**

For **Premium Service** delivery rates, export, Scottish Highlands and off-shore locations, please contact our Sales Team on 01737 774077 for prices.

Quarrying is one of the most dangerous industries to work in, with hazards such as cliff edges, deep water, quicksand and heavy machinery.

As well as keeping your employees safe in such high risk areas, trespassing is a known problem, with many accidents involving members of the public. The Quarries Regulations 1999 aims to lower these accidents, and requires Quarry operators to 'clearly identify the boundary of the danger area'.

To help you adhere to regulations, and most importantly avoid any injuries or death, Stocksigns have created a boundary safety signage range, endorsed by the MPA (Mineral Product Association).

All signs conform to British Standards BS5499, whilst signs are enhanced by the site specific graphics which highlight the dangers in a clear and visual manner.

For further advice and to discuss your signage requirements, please call our dedicated team on 01737 774077.

## Boundary Safety Signs

The minerals often present in flooded Quarries make them look like attractive places to swim. However their extreme depths and unknown undercurrents make them exceptionally dangerous.

Some of our sign designs are made for fixing to walls or posts as standard. Please ensure you select the correct code when placing your order. Call our Sales Team for further information on 01737 774077.

## Site Safety

### Isolation Procedures

It is essential for your own safety, and that of your colleagues, that you follow the rules and procedures below every time you carry out repairs, maintenance or remove guards from machinery. Failure to comply with these instructions can lead to serious injury.

**RULES**

- Do not carry out repairs, maintenance or remove guarding unless you are authorised and the machinery is locked out to prevent operation.
- If there is more than one person working on the same piece of machinery, then each person must lock out with their own lock and the key must be kept on their person.
- The Locking-out procedure must be followed in all circumstances. This is in addition to any other systems, such as tagged key electrical interlock systems.

**LOCKGUARD PROCEDURE**

- Ensure work to be carried out is authorised, where required obtain a permit to work.
- Switch lockout to OFF position and secure with lock out device.
- NOTE: It may be necessary to lock out more than one piece of equipment to work safely.
- Where possible the electricity supply should be isolated at source.
- NOTE: Holding electrical control circuit to prevent machinery from operating does not always disconnect electrical power from the electric motor concerned.
- Where the energy source is compressed air, the air supply to the machinery must be isolated and stored air energy drained/discharge before work commences.
- With the introduction of compressed air, the control stop button should be depressed.
- Before the machinery is isolated by pressing the relevant start button.
- Display the "MEN WORKING ON PLANT" notice on the locked out isolator.
- Each person involved in the work must add their own padlock to the lock out and keep the key on their person.
- Carry out the work.
- On completion, if you are the last person on the job DO NOT unlock until you are satisfied that all guards are re-secured correctly and the plant is safe to run.

10 20 30 02802 JK Wall fix

### Health, Safety & Environmental Requirements Tanker Drivers

- On arrival report to plant operator.
- Ensure all connections are fitted correctly to the charging point.
- Discharge in a controlled manner. Maximum of 1 bar.
- Remain at your controls throughout the delivery process.
- Stop discharge immediately on hearing the alarm or seeing a dust emission & report to the plant operator.
- Do not under any circumstances vent residual air through the silo.
- All residual air must be vented through on board filtration system.
- Any spillages must be reported.
- On completion, lock the charging point & report to the plant operator.

10 20 30 02803 PT Wall fix

10 02804 PT Post fix

### BATTERY CHARGING PRECAUTIONS

**Prevent Explosions**  
Isolate battery from electrical source before disconnecting. Ensure that there is a good circulation of air to disperse any accumulation of gas before starting work. Never smoke or use naked flames in the battery charging area.  
Do nothing that may cause a spark: Never tighten or loosen connections while cells are on charge or discharge or gassing. Keep all connections tight using an insulated spanner. Keep other metal objects away from the tops of batteries.

**Avoid Injury from Electrolyte**  
Wear protective clothing and eye protection. If electrolyte splashes - In EYES: immediately use eye-wash bottle or wash out thoroughly with water. On SKIN: rinse liberally with water. On CLOTHING: immediately remove contaminated clothing, and obtain advice.

**Don't Spill Electrolyte**  
But if you do so accidentally, swirl down the spillage immediately with plenty of water - BUT NEVER DO THIS IN THE VICINITY OF HIGH TENSION ELECTRICAL EQUIPMENT - Report the situation immediately and obtain advice.

**PROTECT YOUR SIGNS ...USE P.O.F**

PO.F. can be overlaminated on any aluminium or plastic sign. Together with Seldon Graffiti Remover it allows:

- ▶ Easier removal of graffiti.
- ▶ Resistance to scuffs.
- ▶ UV protection - anti fade.
- ▶ Easier to clean
- ▶ Extends life of sign
