

signsystems™

► Features

- Vandal proof
- Cost-effective solution
- Very versatile and flexible
- Superbly engineered fixings
- Also available: notice boards and banner display systems

► Applications

- Communal areas
- Information centres
- Directional and way guidance
- Museums, churches and galleries
- Airport terminals
- Colleges and universities

Signsystems offer the complete product range. The styling is contemporary and the materials are state of the art. Most requirements are covered as the systems provide for both interior and exterior application.

Suspended, projecting, freestanding and post-mounted applications are available to which can be added alternatives for use on walls, doors and desks.

All existing ranges can be adapted to individual client requirements, thus combining the economies of system design with the potential to customise.
