Your comprehensive signage directory

Legislation and Guidance

The Health and Safety (Safety Signs and Signals) Regulations 1996 require employers to provide and maintain safety signs where there is significant risk to health and safety that has not been avoided or controlled by other means (e.g. safe systems of work) provided that the use of a sign can help reduce the risk.

Throughout this catalogue you will find guidance about;

- ▶ Risk assessment
- ▶ Use of pictorial symbols
- ▶ General health and safety signs
- ▶ Fire/emergency escape signs
- ▶ Positioning of signs
- ▶ Marking of hazardous storage areas and obstacles
- ▶ Dangerous locations
- ▶ Identification of pipelines

ISO 7010 is the International standard for safety signs.

ISO 7010 was developed to provide consistency in design across the EU. Stocksigns has incorporated the new designs and you may notice some design changes to the symbols whereas others are virtually unchanged.

The majority of British Standard symbols have been adopted by ISO and as such have now been encompassed into UK safety legislation.

Use of Symbols and Graphical Images

The use of symbols and graphical images is a simple safety system used to convey safety messages at a glance. Colours and symbols, appropriately used, provide information and warnings of hazards which are essential to personal safety.

Prohibition

A red circular band with diagonal cross bar on a white background, the symbol within the circle to be black denoting a safety sign that indicates that a certain behaviour is prohibited.

Hazard

A yellow triangle with black border and symbol within the yellow area denoting a safety sign that gives warning of a hazard.

Mandatory

A blue circle with white symbol denoting a sign that indicates that a specific course of action must be taken.

Fire Equipment

A red rectangle or square with symbol in white denoting a safety sign that indicates the location of fire fighting equipment.

Safe Condition

A green rectangle or square with symbol or text in white denoting a safety sign providing information about safe conditions.

Stocksigns Accreditations and Associations

Material Choices

Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs.

Series code - 10

Reflective Signs

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

Series codes - Traffic 70, Safety 75

Rigid PVC Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners, no holes as standard.

Series code - 20

Correx

A durable yet lightweight corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

Bespoke material on request

Photoluminescent

(Rigid Plastic and SA Vinyl)

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with the PSPA, standard signs are produced on Class B, with Class C material available on request.

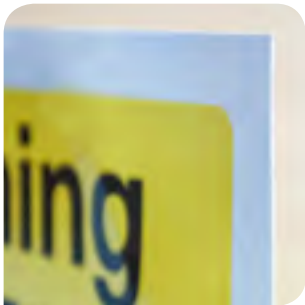

Series codes - RP 21 / SAV 31

Foamex

A versatile PVC foam sheet with a smooth matt finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

Bespoke material on request

Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

Series code - 30

Acrylic

Acrylic is a versatile material that is both lightweight and shatterproof. Best suited to internal signs. This offers a cost effective and safe alternative to using glass. Available in 3, 5 and 10mm thicknesses.

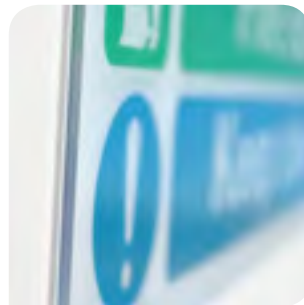

Bespoke material on request

Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal and external use.

Series code - 11

Polycarbonate

Polycarbonate is a clear material used as an alternative to acrylic. A very versatile material with a gloss finish. Compared to acrylic it has a higher impact resistance, is more UV stable and temperature resistant.

Bespoke material on request

Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

Series code - 60

Special Effect

Aluminium Composite

Available in both mirrored gold and brushed silver finish. These special effect finishes create a contemporary look when used on internal signage.

Bespoke material on request

Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

For further advice speak to our sales team on 01737 774077.

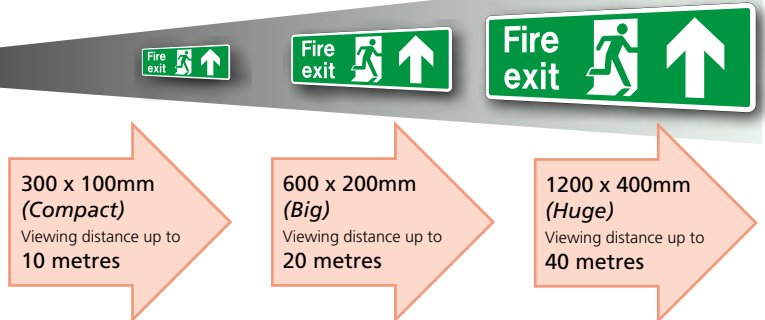

Recommended installation heights:

Above doors:

2m - 2.5m
from floor level to base of sign.

Directional wall fixed signs:

1.4m - 2.0m
from floor level to base of sign.

Easy Ordering

Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

10 20 30 11090 KD | RG

MATERIAL CODES

This tells you the materials the sign is available in.

e.g: **10** = Aluminium
20 = Rigid Plastic
30 = Self-Adhesive Vinyl

SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

PRODUCT CODE

This is the unique product code for that design.

How to Order

STEP 1

- ▶ Find the sign design you require.
- ▶ Note the product code.

STEP 2

- ▶ Choose the material you require.
- ▶ Use our material guide on the left to select the most suitable material for the job.

STEP 3

- ▶ Look at the sizes your sign is available in.
- ▶ Use the price grids for size codes.
- ▶ Choose the most appropriate size using the installation guide above.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

Prices can be found by using the grids at the bottom of the pages or in the price list enclosed. (Except where items are separately priced).

Payment

- ▶ Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- ▶ Cheques should be made payable to Stocksigns Ltd.
- ▶ Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- ▶ BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.
Account No. 23111244 Sort code 16-00-15
All prices are exclusive of Value Added Tax
- ▶ Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at www.stocksigns.co.uk or call 01737 774077 for a copy).

RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you MUST use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at info@stocksigns.co.uk, to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

Our Services

Professional Site Survey

At Stocksigns we pride ourselves on our experience across many industries. We've successfully managed projects from airports and quarries, to schools and commercial premises.

We have experience with an extensive range of materials from vinyl graphics, through to large illuminated monoliths and everything in between.

If you are embarking on a project and need professional help and support, our site survey specialists are available to help. They can offer advice and expertise to ensure the wayfinding, health and safety and corporate branding in your workplace are legislation compliant and reflective of your company and brand.

Installation

Alongside our professional surveyors, Stocksigns have a dedicated team of fitters and installation experts.

The team operate throughout the UK and over our long history we have experience of installing everything from single signs to managing large scale installation projects.

We recognise the importance of working safely on-site and Stocksigns are proud to be accredited members of the SafeContractor scheme. This accreditation demonstrates that we operate under recognised high health and safety standards.

In addition, all our installation crews are CSCS (Construction Skills Certification Scheme) certified, Asbestos Trained in line with UKATA, certified by UPAF standards to operate Mobile Evaluating Work Platforms and hold current First Aid certificates.

Delivery Services

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

Standard Product Delivery Charges

- ▶ Orders under £20 (Depending on size and weight) - **£1.95**
- ▶ Orders up to £49.00 (Depending on size and weight) - **£6.75**
- ▶ Orders over £50.00 - **FREE**

Custom-made Signs Delivery Charges

- ▶ Orders less than 10kgs - **£7.50**
- ▶ Orders 10 - 20 kgs - **£13.50**
- ▶ Orders 20 - 50 kgs - **£25.00**
- ▶ Orders over 50kgs - **POA**

For **Premium Service** delivery rates, export, Scottish Highlands and off-shore locations, please contact our Sales Team on 01737 774077 for prices.

As more vehicles take to the roads, now more than ever there is a need for clear, uncluttered and prominent signage.

The Department of Transport estimate that over 35 million vehicles use the UK road network and many are now moving away from conventional transport and choosing to travel on two wheels. In light of this, we have now extended our range of rear vehicle warning signs to help all road users remain safe on the highways (see page 101).

In addition to our comprehensive selection of static signs, our sister company Messagemaker Displays provides a range of LED alternatives (see pages 216-219). These include speed limit reminders and speed awareness signs which are invaluable for slowing traffic.

For full details please visit www.messagemaker.co.uk or call 01737 774738.

For further advice and to discuss your signage requirements, please call our dedicated team on 01737 774077.

Regulatory Traffic Signs

Road traffic signs must conform to The Traffic Signs Regulations and General Directions 2002. The signs on this page fully conform to this legislation.

The reflective material used on these signs fully conforms to BS EN 12899-1:2007, which has replaced BS 873 parts 5 and 6. These are supplied in 3mm Aluminium composite with channel for fixing. This material has little scrap value and therefore acts as a theft deterrent.

Protective Overlay Film can be overlaminated on any traffic sign for extra sign face protection. CE certification is required for use on public highways. For private land CE certified signs are not required.

Delivery times:

CE signs 10-12 w/days. Non CE signs 2-3 w/days

Please contact us for prices and availability on 01737 774077.

Reflectivity may be reduced in old signs - make sure your signs are maintained and replace where necessary.

Information Traffic Signs

Manufactured from Class I Reflective material bonded to a back plate, these signs are available in three size options and are either for post or wall mounting. When ordering please state the text that you require and whether the signs are to be post (Aluminium composite, Foamex, Correx or 3mm Rigid PVC) or wall fixed. Available also for factory and warehouse developments. Please allow 5 to 6 days for delivery.

Example

Example

Example

The size of these signs is dependent on the amount of text. Prices are available on application. Call our Sales Team on 01737 774077.

LED SPEED SIGNS

Calm speed in your community with an LED vehicle activated sign from Messagemaker Displays. We provide a wide range of vehicle activated signs to precisely suit your location, application and budget.

Deter unnecessary traffic from turning in no through roads.

General Traffic Signs

Class I engineering grade

The traffic signs in this section are available as non-reflective (series 10) and reflective (series 75). Series 10 signs are manufactured from 22 swg (0.75mm) aluminium and are supplied with screw holes. Series 75 signs have reflective faces and are manufactured heavy duty on a durable back plate. This gives the option of either post- or wall-fixing. Please specify which you prefer when ordering.

Call our Sales Team on 01737 774077 for further advice.
