

HpE Process have a specialist website designed for use for professionals in the food, drink, chemical, pharmaceutical and allied industries. We offer the largest, most comprehensive range of quality manways and tank equipment in the UK.

We supply:

- Round, non-pressure access covers, diameters of 150-900mm included in our range
- Round, pressure access covers, diameters of 200-600mm
- PED approval on over 40 doors
- Rectangular inward or outward opening doors
- Oval inward, outwards or in/out doors
- Extensive range of static and rotary spray balls
- Hygienic and Aseptic tank feet, suitable for light or heavy duty applications
- Range of sight glasses and relevant accessories available
- Range of valves to suit a range of applications, some with PED approval
- We supply CAD illustrations of our Manways. These can be viewed and integrated into a build via your own CAD application

For further information visit www.manways.co.uk or email info@manways.co.uk

HpE was excellent in its delivery and approach to the project. From the first moment of contact the team understood our needs and what we required.
