\*IP65 RATED\*

#### Versaline control head advantages

- Visual position indicator giving clear indication of valve status.
- Adaptable for all our standard E1 actuators.
- Retrofitting is possible to any actuator with a central 1/8" BSP air fitting.
- Adaptors for third party products are available on request.
- Faster changing of control units meaning down times are considerably reduced.
- Easy assembly.
- User friendly connection technology.
- Head can be rotated to any position.
- Shape design with a robust housing.

#### Variants:

24v dc	2 sensors, 1 solenoid	NC, NO or DA
24v dc	2 sensors, 1 solenoid	NC, NO or DA
24v dc	2 sensors, 1 solenoid	NC, NO or DA
