OB30SL	60 MINUTE FIRE RATED TO COVER	804 X 288 X 70

NEW BUILD PLASTIC GAS & ELECTRIC BOXES

THE SEMI RECESSED ELECTRIC AND GAS BOX

Electric

The most popular electric meter box, the standard flush fitted electric meter box houses any domestic electric meter and is designed to mirror the standard built-in gas meter box. With customer choice of cable entry positions this universal version can be used in any area of the UK.

- Overall size: 595 high x 409 wide x 210 deep
- Brickwork opening: 535 x 365 x 150
- Hockey stick available
- Complete with chipboard back plate

Gas

The built-in gas meter box houses all domestic U6 and G4 meters and is designed to mirror the standard flush fitted electric meter box. This box is fully approved to National Grid Gas (Transco) specifications.

- Overall size: 595 high x 409 wide x 210 deep
- Brickwork opening 530 x 370 x 150
- Hockey stick available
- Complete with holding bracket for meter

THE MK2 SURFACE MOUNTED ELECTRIC METER BOX

The Mk2 version has been introduced due to demand for a smaller version of the surface mounted electric meter box and matches the Mk2 surface mounted gas meter box. Unlike the Mk1 versions, the cover can be removed in order to facilitate easy fitting and maintenance of the box and the meter installation.

- No requirement for a wall cavity, installed on the face of the brickwork/stonework
- Now features a detachable cover and door for ease of installation and damage replacement
- Fire retardant to E.S.I. Standard 12-3
- Manufactured in glass reinforced plastic
- Size: 503 high x 408 wide x 224 deep

Semi Recessed Gas Box

MK2

NEW BUILD PLASTIC GAS & ELECTRIC BOX

THE SEMI SUBMERSIBLE GAS METER BOX

An unobtrusive brown meter box that is designed to be partially buried in the ground. Developed to house the lower cost metal cased U6 and G4 meters when used with a water resistant seal (sold separately), this meter box is fully approved by Sensus Metering, Krom Schroeder, GTC, IPL, Core Utilities and British Gas Connections.

Semi Submersible Gas Meter Box

OB10 semi submersible lids

OB10 SEMI SUBMERSIBLE GAS METER REPLACEMENT LID

- 2mm thick aluminium lid
- Full length 316 rust proof stainless steel hinge
- Quarter turn budget lock
- Complete with fixings
- Available in two sizes 480w x 360h & 410w x 460h
- Specials can be made on request

TESTIMONIALS

Steve Margrett *Edenbridge*

Needed a replacement meter box and wasn't sure which one to get and so I emailed JML on the weekend and got a response within hours telling me which one to order! Then when I ordered the wrong one by mistake JML contacted me proactively within hours letting me know that they had changed my order based on the email exchange! Amazing service.

Paul *Mersetside*

Hi Phil,

Received the goods. Absolutely excellent. Spot on cheers.

Regards.

Paul

Karen Allen *St Helens*

Many thanks for the 2 meter boxes. Excellent Service. Quick installation

A total transformation. They look excellent

Russ Bolton *Cheshire*

Just dropping you a line to compliment you on a high level of service and a nice quality product. The electric meter cover fits perfectly and looks smart. My questions were answered quickly and accurately over the phone prior to ordering. Keep up the good work and thank you very much.

mark Bedford *Suffolk*

After hunting high and low for several years we stumbled across JML. Filled in the form and with 5 mins had secured exactly what we needed. Goods were here the next day and fitted the day after. Perfect service and will be back for more
