

# PHARMACY DISPENSING EQUIPMENT

Adelphi's range of equipment enables users to work with tablets, capsules and fluids quickly, easily and accurately.

## Capsule fillers

Adelphi supply a range of high quality manual capsule fillers that are designed to enable the user to produce accurately filled capsules of a professional quality, in volumes of up to 9,000 per hour.

### ProFiller capsule fillers

The ProFiller range of capsule fillers are capable of filling between 1,300 and 9,000 capsules per hour. They are easy to operate and are up to 35% faster than similar capsule fillers, due to their patented design.

Change parts and a full range of accessories, such as powder vibrators, are available for all models.

Please contact us for more detailed information and for the item numbers relating to each unit and set of change parts.

| Model          | Capacity (per cycle) | Max output (per hour) | Accuracy (USP/EP method) | Change parts sizes |
|----------------|----------------------|-----------------------|--------------------------|--------------------|
| PROFILLER 1060 | 60                   | 2000                  | ± 1-2%                   | 00-4               |
| PROFILLER 1100 | 100                  | 3400                  | ± 1-2%                   | 000-5, EL          |
| PROFILLER 1120 | 120                  | 3600                  | ± 1-2%                   | 00-4               |
| PROFILLER 3600 | 300                  | 6900                  | ± 1-3%                   | 000-4, EL          |
| PROFILLER 3700 | 300                  | 9000                  | ± 1-3%                   | 000-5, EL, AAA-D   |
| PROFILLER 3800 | 300                  | 9000                  | ± 1-3%                   | 00-4               |

## Tablet and capsule counters

Adelphi supply a range of tablet and capsule counters to suit your needs. If you are unable to find exactly what you are looking for then please feel free to contact us.

### Capsule counting tray

Manufactured from 304 grade stainless steel, this simple capsule counting tray has corrugations that allow 10 rows of 10 capsules up to 8mm diameter to be counted quickly and easily.

Size 175 x 88 mm. Normally sold in packs of 5.

| Item code | Specification                       |
|-----------|-------------------------------------|
| 6021100   | Capsule counting tray               |
| 6020607   | 7" triangular tablet counter        |
| 6020610   | 10" triangular tablet counter       |
| 6023100   | Tumatic capsule counter             |
| 6023301   | Lifting-leaf tablet counter, medium |
| 6023302   | Lifting-leaf tablet counter, large  |

### Triangular tablet counter

Our range of manual triangular tablet counters are made from 304 stainless steel. They are designed for use with round tablets and allow the user to easily see the number of tablets in each batch.

Normally sold in packs of 5.

### Tumatic capsule counter

Perspex construction for visual checking and easy cleaning.

Coated and uncoated tablets up to a diameter of 1/2" and capsules up to 3/4" long can be counted using a range of 5 interchangeable perforated plates. After filling the box, surplus tablets are poured back into the bulk container.

By partially withdrawing the slide, 5 to 10 tablets – depending on tray and tablet – are dropped into the bottom for easy dispensing into bottles. Full withdrawal dispenses 50 or 100 tablets.

### Lifting-leaf tablet/capsule counter

These lifting-leaf counters are suitable for coated or uncoated tablets or capsules and, depending on diameter, can be made to count up to 100 units. Made from stainless steel, anodised aluminium and polycarbonate, these counters are made to order to match the samples provided by the customer.

The counter is used like a scoop and pushed into a pile of tablets or capsules. The requisite number of units falls into the holes and the excess shaken off. The counter is then tilted back and used as a chute for filling bottles.

\*Size and count depends on unit dimensions. Please ask for more information.

## Dispensing measures

### Cup-shaped measures (A)

These glass measures are all available with a government stamp, and most are available without the stamp.

| Item code (stamped) | Item code (unstamped) | Capacity (ml) | No. of graduations |
|---------------------|-----------------------|---------------|--------------------|
| 5001014             | N/A                   | 250           | 10                 |
| 5001015             | N/A                   | 500           | 6                  |
| 5001016             | 5001116               | 500           | 10                 |
| 5001017             | 5001117               | 1000          | 10                 |
| 5001018             | 5001118               | 2000          | 8                  |

### Conical measures (B)

These glass measures are all available with a government stamp, and most are available without the stamp.

| Item code (stamped) | Item code (unstamped) | Capacity (ml) | No. of graduations |

## Suppository moulds

Hand made for over fifty years, these moulds are manufactured from brass that is double nickel plated, and are accurate to within 10% if a Witepsol base is used. Standard moulds are conical in shape and range from 0.25g to 8gm. Torpedo shaped moulds are available to order for sizes 1g to 4g only.

## Syringe stopper press

This device comprises a syringe holding jig, lever operated stopper press, and a divide for aiding the removal of air from the syringe. All contact parts are manufactured from 316L grade stainless steel. The unit is fully adjustable and can accommodate glass or plastic syringes of various sizes, please contact us for further details.
