& HAIR REPLACEMENT  
for MEN & WOMEN.

NEW style,  
NEW concept

## M.G.H.R. - THE ORIGINAL NON-SURGICAL HAIR REPLACEMENT SYSTEM

Versatile and virtually undetectable, our experts implant the finest quality human hair one-strand-at-a-time into our unique translucent membrane. This innovative membrane is made from natural looking polymers so it contours with the shape and size of the scalp making it undetectable, even up close. As hairs are added individually, we are able to replicate the natural direction of growth and achieve a perfect match with your natural hair colour, texture and wave. Once the scalp is hygienically prepared, the system is applied to the scalp with a medically approved adherent over its entire surface. This ensures 100% contact with the scalp creating a skin-like surface that the natural look and feel of your scalp.
