

NO MORE PLASTIC PACKAGING

BC Softwear has made a pledge to the Cleaner Seas Project.

WE HAVE PLEDGED TO REMOVE
PLASTIC BAGS FROM ALL HOTEL
SLIPPERS, FLIP-FLOPS AND TOWELS

This initiative will contribute to reducing over 50 tonnes of unnecessary plastic from washing into our seas and landfill, taking thousands of years to biodegrade.

The plastic bag has been replaced with a paper seal around the slippers, to signify that the slippers are brand new.

The flip flops are simply tied together with a cotton string.

You can assure your guests that this does not affect the quality or cleanliness of our products.

Please support us to deliver our promise and make this vital contribution to help save our planet.
