

Hazardous Cabinets

COSHH Regulations demand the safe storage of hazardous items. These Cabinets isolate flammable materials and vapours from potential sources of ignition and clearly identify hazardous products in case of a fire.

Smoke and Fire Alarm

- Robust durable construction
- Reinforced doors
- Removable 75mm sealed sump base tray
- Supplied with adjustable 85kg shelves
- All units comply with HFL/LPG Reg 1972 Sec 5. HSE The Storage of Flammable Containers HS(G)51
- Working towards many of the principals outlined in DSEAR Regs. 2002
- High visibility 270 degree labelling conforming to BS5609
- Supplied with Smoke/Fire alarm fitted internally

Toxic Cabinets

This range of Probe Cabinets will allow Toxic materials to be clearly identified, handled and stored correctly.

- Strong robust construction
- All Cabinets feature adjustable shelves
- Two point locking on all two door Cabinets
- Removable 75mm sealed sump base tray
- High visibility 270 degree labelling complying to BS5609

INTERNAL COMPARTMENTS

Dished top version available
Includes rubber mat

PPE Cabinets

Personal Protection Equipment is mandatory in many working environments (PPE at Work Regulations 1992 Part 5). Controlling and storing your safety equipment will be more effective in a specially designed Probe PPE Cabinet.

- All Cabinets feature adjustable shelves
- Strong robust construction
- Two point locking on all two door Cabinets
- High visibility 270 degree labelling complying to BS5499-1
- Reinforced doors for extra strength
- Range of 5 models

General Cabinets

To satisfy your own particular hazard or warning we have designed a range of special Cabinets which meet high standards of storage safety. Labelling is supplied for you to personalise your particular hazard.

- Strong robust construction
- Designed to comply with COSHH Regs
- All Cabinets feature adjustable shelves
- Two point locking on all two door Cabinets
- Removable 75mm sealed sump base tray
- High visibility 270 degree labelling complying to BS5609
- Smoke/Fire alarm fitted internally

INTERNAL COMPARTMENTS

Acid - Alkaline Cabinets

Smoke and Fire Alarm

The storage of caustic materials needs to be controlled. These Cabinets will allow the safe storage of acids and alkalis in a range of highly visible Probe Cabinets.

- Durable epoxy polyester coating giving a surface resistant to most acids and alkalis
- Strong steel construction
- Two point locking on all two door Cabinets
- Removable 75mm sealed sump base tray
- High visibility 270 degree labelling complying to BS5499-1
- All Cabinets feature adjustable shelves
- Smoke / Fire alarm fitted internally

Medical Cabinets

Under the Health and Safety Regulations 1981, workplaces must have first aid provision. To satisfy a wide range of first aid equipment we have designed an attractive and highly visible range of Probe Cabinets for your working environment.

- Strong robust construction
- All Cabinets feature adjustable shelves
- Two point locking on all two door Cabinets
- High visibility 270 degree labelling complying to BS5499-1
- Reinforced doors for extra strength
- Range of 7 models

Cabinet Extras

A4 Document Holder
Ideal for keeping track of contents.
Available on all two door Cabinets.

Resistant Rubber Mat
Noise reducing and durable non slip surface. Only available on shelves 900mm x 460mm.

Hasp and Staple
Available on all two door Cabinets where a higher level of security is required. (Padlock not supplied)

Cabinet Features

Sump Tray
Sump Tray ensures any spillage is cleanly collected. Standard on all Toxic, Hazardous, Acid/Alkaline and General Cabinets.

Smoke and Fire Alarm
Early warning system where high risk materials are stored. Standard on all Hazardous, Acid/Alkaline and General Cabinets.

Extra Labels

Additional self adhesive labels for all Probe Cabinets are available at a nominal charge.

We reserve the right to alter designs and specification of products illustrated in this brochure without prior consent. All sizes are nominal. All information is correct at time of going to press.

THE hard wearing
anti-bacterial powder coating
for the most stringent hygienic environment.

ACTIVECOAT is a new, hard wearing, patent-protected powder coating containing elemental Silver ionically bonded into a bio-compatible ceramic material known as a Zeolite. This impedes the growth and migration of potentially harmful bacteria, mold, fungi, algae and more reducing the risk of cross-contamination from surface to surface. Especially suitable where stringent hygiene standards are required, such as health care, educational, catering and retail changing rooms.

- ✓ **99.9% REDUCTION OF E-COLI & MRSA SUPER BUG**
- ✓ **INDEPENDENTLY TESTED**
- ✓ **100% SAFE TO HUMANS**
- ✓ **EFFECTIVE FOR THE LIFE OF THE COATING**
- ✓ **ACTIVECOAT IS AVAILABLE IN ALL PROBE COLOURS**

MICROBIOLOGICAL TESTING

ACTIVECOAT has been tested by an Internationally recognised microbiological testing laboratory for antibacterial performance, against the most widely encountered and problematic organisms including the **MRSA Super bug** and **E-coli**. These micro-organisms suffered a **99.9%** reduction in population.

ACTIVECOAT is effective against harmful bacteria including:

- ✗ **ASPERGILLUS NIGER**
- ✗ **STAPHYLOCOCCUS AUREUS (MRSA Super Bug)**
- ✗ **PSEUDOMONAS AERUGINOSA**
- ✗ **STREPTOCOCCUS**
- ✗ **ESCHERICHIA COLI (E-coli)**

THE EFFECTIVE LIFE OF ACTIVECOAT

Unlike anti-bacterial sprays and chemical disinfectant which rely on repeated use **ACTIVECOAT** contains anti-bacterial agents uniformly distributed throughout the coating therefore antimicrobial efficacy will continue for the life of the coating.

PROBE PRODUCTS

All Probe products come as standard with **ACTIVECOAT** anti-bacterial powder coating. In addition, all plastic components used in the manufacture of Probe products incorporate a silver based anti-bacterial agent.

PROBE ACTIVECOAT DEVELOPED IN CONJUNCTION WITH DUPONT

The miracles of science™

ACTIVECOAT®

The hard wearing anti-bacterial powder coating for the most stringent hygienic environment.

IRON PHOSPHATE KEY COAT

This anti-rust, key coat bonds to the steel in readiness for the final active coating.

PREPARED STEEL SURFACE

Chemical cleaning ensures an ideal surface for further coatings.
