

## DIGITAL MANOMETERS

**2000 series digital hand-held manometers represent a new standard in pressure measurement featuring a number of innovative functions designed to make the engineers job easier.**

- High accuracy
- Large clear back lit displays
- Long battery life
- IP67 rating
- Factory set or selectable measurement units
- Hold and zero functions
- Ranges from Absolute up to 10 bar, or 500 bar with external transducers.
- Models available with Max/Min
- Optional heavy duty protective jacket

**2000 Series Manometers**

**Lower cost PM-20 series digital hand-held pressure meters are designed specifically with the engineer and technician in mind.**

**Manufactured from tough ABS plastic this water resistant instrument is ideal for the toolbox and is supplied complete with a protective rubber boot.**

- Magnetic attachment to a suitable surface
- Back lit display
- IP67 rating
- Excellent accuracy
- Push button zero and hold
- Ranges include 0 – 130 mbar
- Factory set measurement units

PM20 – mbar	PM24 – in/Hg
PM21 – Kpa	PM25 – mm/HG
PM22 – in/H <sup>2</sup> O	PM 26 - Psi
PM23 – mm/H <sup>2</sup> O
